American Scoundrel; Murder, Love and Politics in Civil War America Thomas Keneally, 2002 **Books in Print Supplement** , 2002 *The Next Civil War* Stephen Marche, 2022-01-04 Should be required reading for anyone interested in preserving our 246 year experiment in self government The New York Times Book Review Well researched and eloquently presented The Atlantic Delivers Cormac McCarthy worthy drama while the nonfictional asides imbue that drama with the authority of documentary The New York Times Book Review A celebrated journalist takes a fiercely divided America and imagines five chilling scenarios that lead to its collapse based on in depth interviews with experts of all kinds The United States is coming to an end The only question is how On a small two lane bridge in a rural county that loathes the federal government the US Army uses lethal force to end a standoff with hard right anti government patriots Inside an ordinary diner a disaffected young man with a handgun takes aim at the American president stepping in for an impromptu photo op and a bullet splits the hyper partisan country into violently opposed mourners and revelers In New York City a Category 2 hurricane plunges entire neighborhoods underwater and creates millions of refugees overnight a blow that comes on the heels of a financial crash and years of catastrophic droughts and tips America over the edge into ruin These nightmarish scenarios are just three of the five possibilities most likely to spark devastating chaos in the United States that are brought to life in *The Next Civil War* a chilling and deeply researched work of speculative nonfiction Drawing upon sophisticated predictive models and nearly two hundred interviews with experts civil war scholars military leaders law enforcement officials secret service agents agricultural specialists environmentalists war historians and political scientists journalist Stephen Marche predicts the terrifying future collapse that so many of us do not want to see unfolding in front of our eyes Marche has spoken with soldiers and counterinsurgency experts about what it would take to control the population of the United States and the battle plans for the next civil war have already been drawn up Not by novelists but by colonels No matter your political leaning most of us can sense that America is barreling toward catastrophe of one kind or another Relevant and revelatory *The Next Civil War* plainly breaks down the looming threats to America and is a must read for anyone concerned about the future of its people its land and its government *The Next American Civil War* Lee Harris, 2010-05-11 The tea parties the guns at town hall meetings the protests against health care reform and the general unrest in America today have taken many people by surprise Some interpret it in terms of economic hard times but Lee Harris offers a different explanation Today s populist revolt is only the latest installment of an ongoing cultural war that began long before the current economic crisis It is a rebellion against a self appointed intellectual elite whose attitude to the average American is Don t worry we know what is best for you For Harris the stakes in the current struggle are high Will America be ruled by ivory tower liberals or will it remain the land in which ordinary men and women are free to make their own choices and control their own destinies Throughout our history Americans have always challenged the definition of

liberty and this has allowed us to progress as a society Harris argues that this debate is good and necessary and that we must take this new populist uprising seriously if we are to defend our founding principles A masterly and visionary work that weaves current events with philosophical investigation The Next American Civil War rethinks Americans most elemental ideas of freedom in order to enable the people of the United States to face the challenges of our times **Stop the Coming Civil War** Michael Savage,2014-10-07 In the book that predicted our current political climate conservative talk show host and 1 New York Times bestselling author Michael Savage shows how true patriots can defend America s freedoms before it s too late The split between the right and the left is growing every day and our country is in real trouble Not between the states but between true patriots who believe in our nation s founding principles and those he believes are working every day to undermine them and change the very nature of the country Michael Savage is convinced we face more than just political differences He believes the split between right and left is possibly irreversible unless we understand what s destroying American values and how to stop it This fervent warning offers the Savage truth a call to action in the voting booth in order to defend the freedoms our Constitution so brilliantly established **Scoundrels** Robert Firth,2012-11-12 SCOUNDRELS presents the reader with insight into the filthy world of politics where far too many true monsters with enormous egos swim devouring the honest taxpayer and making a joke of our constitution and law The hope of the author is that the readers will learn and never allow scoundrels into any political office A TROUBLING AND FRIGHTENING VIEW INTO THE MINDS OF THE SOCIOPATHIC POLITICIAN THE BEST SELLING BOOK ABOUT DIRTY POLITICS IN ALL ITS MOST EGREIOUS FORMS
