Achieving Person-Centred Health Systems Ellen Nolte,Sherry Merkur,Anders Anell,2020-08-06 The idea of person centred health systems is widely advocated in political and policy declarations to better address health system challenges A person centred

approach is advocated on political ethical and instrumental grounds and believed to benefit service users health professionals and the health system more broadly However there is continuing debate about the strategies that are available and effective to promote and implement person centred approaches This book brings together the world s leading experts in the field to present the evidence base and analyse current challenges and issues It examines person centredness from the different roles people take in health systems as individual service users care managers taxpayers or active citizens The evidence presented will not only provide invaluable policy advice to practitioners and policymakers working on the design and implementation of person centred health systems but will also be an excellent resource for academics and graduate students researching health systems in Europe This title is available as Open Access on Cambridge Core
