the attention of a much wider array of specialists beyond agriculture and soil science as it was proven to be one of the most crucial components of the earth's climate system which has a great potential to be managed by humans. Soils as a carbon pool are one of the key factors in several Sustainable Development Goals in particular Goal 15. Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification and halt and reverse land degradation and halt biodiversity loss, with the SOC stock being explicitly cited in Indicator 15.3.1. This technical manual is the first attempt to gather in a standardized format the existing data on the impacts of the main soil management practices on SOC content in a wide array of environments including the advantages, drawbacks and constraints. This manual presents different sustainable soil management (SSM) practices at different scales and in different contexts supported by case studies that have been shown with quantitative data to have a positive effect on SOC stocks and successful experiences of SOC sequestration in practical field applications. Volume 5 includes 24 practices that have a direct impact on SOC sequestration and maintenance in forestry, wetlands and urban soils.

Once Upon an Outreach Teacher Ginny Brown, 2024-03-27 An outreach teacher's job is full of challenges, questions and surprises. *Once Upon an Outreach Teacher* is a collection of stories about young people with special educational needs and disabilities at the heart of mainstream schools and about the people who support them and help them succeed. The authentic, insightful and sometimes humorous stories explore themes ranging from the learning environment, pupil independence and the importance of self-esteem to working with parents and other professionals. Each chapter is accompanied by checklists or helpful tips drawn from real-life situations to increase understanding, offer solutions and provoke further thought. The stories and anecdotes which follow the author's life as an outreach teacher span from nursery to secondary settings and share both the struggles and the triumphs of children and young people. The author goes on to consider inclusion more broadly and what the future may hold. This unique and informative collection will appeal to anyone who works in mainstream or special schools who is looking for an entertaining read which will also enable them to better support their pupils. It will be of particular interest to working and aspiring outreach teachers, special educational needs coordinators, teachers and teaching assistants and anyone who is interested in what is happening in our schools today.
