Ying-kit Chan, Chang-Yau Hoon, 2022-11-28 As part of China's south Southeast Asia has historically assumed a peripheral position when juxtaposed against the power of the Chinese state In the existing scholarly literature the power asymmetry is reflected in the ostensible bias where most studies are about China's presence in or engagement with Southeast Asia rather than the reverse studies on the presence or influence of Southeast Asia in China have been a marginal enterprise The present volume aims to fill this void by exploring the historical entanglements and contemporary engagements of Southeast Asians in China through a Southeast Asian perspective As China seeks to understand Southeast Asia's presence in the country on its own terms it is also engaged in a process of self discovery and defining where and how it should stand in relation to the region Departing from the discourse of China as the a priori center dominating the scholarship on China Southeast Asia relations the present volume hopes to subvert such power relations in order to bring fresh perspectives on the historical and contemporary contributions of Southeast Asians in China ASEAN-China Relations Saw Swee-Hock, Sheng Lijun, Chin Kin Wah, 2005 The past decade has witnessed rapid development in ASEAN China relations Both sides now have more in common than before though differences still exist ASEAN and China have established a promising strategic partnership ensuring peace stability co operation as well as prosperity for the region New challenges will however continue to emerge to test the resolve of the partnership This book examines some of the areas of convergence and divergence and the possible trajectories of the development of ASEAN China relations The Sociology of Chinese Capitalism in Southeast Asia Yos Santasombat, 2018-07-10 Set within the context of ASEAN integration this book considers how Capitalism from China interacts with the ASEAN Economic Community considering the issue from a variety of sociological cultural and economic perspectives It examines some of the creative strategies de sinicization re sinicization and re balancing employed by local Chinese communities and ASEAN countries to cope with the pressures of Chinese capitalism The book addresses the phenomenon of Chinese ethnic economic migration particularly the social capital of being Chinese in South East Asia as well as community building the interplay between domestic politics and globalization and the rise of Chinese tourism related entrepreneurship *China, India and the International Economic Order* Muthucumaraswamy Sornarajah, Jiangyu Wang, 2010-08-26 With contributions by a variety of internationally distinguished scholars on international law world trade business law and development this unique examination of the roles of China and India in the new world economy adopts the perspectives of international economic law and comparative law The two countries are compared with respect to issues concerning trade and development the World Trade Organization international dispute settlement regional free trade agreements outsourcing international investment foreign investment corporate governance competition law and policy and law and development in general The findings demonstrate that though their domestic approaches to economic issues diverge

China and India adopt similar stances at the international level on many major issues recapturing images which existed during the immediate post colonial era Cooperation between China and India could provide leadership in the struggle for economic development in developing countries

Non-Traditional Security Issues and the South China Sea Shicun Wu, Keyuan Zou, 2016-05-23 While there is abundant literature discussing non traditional security issues there is little mention of such issues existing in the South China Sea This area is vulnerable to natural hazards and marine environmental degradation The marine ecosystem is threatened by various adverse sources including land based pollution busy shipping lanes and over exploitation activities which threaten the security of the surrounding population This area is also threatened by piracy and maritime crimes but law enforcement becomes difficult due to unclear maritime boundaries This volume is designed to explore the security cooperation and regional approaches to these non traditional security issues in the hope to build a peaceful environment and maintain international and regional security and order in the South China Sea region

Borderlands of Southeast Asia: Geopolitics, Terrorism, and Globalization , China-ASEAN Relations Jing Dong Yuan, 2006 Dr Yuan traces the evolution of China ASEAN relations since the early 1990s and examines some of the key factors that have contributed to the positive developments in bilateral ties Specifically he describes and analyzes how China and ASEAN have managed the territorial disputes through negotiation and compromises looks at the expanding economic ties between China and ASEAN member states and examines the politico strategic as well as economic rationales for establishing a free trade area and evaluates the emerging yet still limited defense and security ties between the two Next he provides detailed analyses of ASEAN s dual strategy of engagement and hedging and looks at China s bilateral relationships with seven ASEAN member states Indonesia Malaysia Myanmar the Philippines Singapore Thailand and Vietnam and examines how each ASEAN state adopts a particular mix of policies due to its unique historical and geostrategic circumstances and its threat perceptions Finally Professor Yuan assesses the implications of the growing China ASEAN ties for U S interests in the region and dispels some of the misperceptions and exaggeration of both Beijing s intentions and influence Washington retains much of the influence but does need to develop and adopt creative approaches to both individual member states and ASEAN as a group

Foreword Vietnam and the South China Sea Do Thanh Hai, 2016-12-01 Studies of the escalating tensions and competing claims in the South China Sea overwhelmingly focus on China and its increasingly assertive approach while the position of the other claimants is overlooked This book focuses on the attitude of Vietnam towards the South China Sea dispute It examines the position from a historical perspective shows how Vietnam s position is affected by its wish to maintain good relations with China on a range of issues and outlines how Vietnam has occasionally made overtures to both the United States and Japan in order to bolster its position and considered the possibility so far resisted of taking China to formal arbitration under the auspices of the United Nations Convention on the Law of the Sea The book concludes by assessing the future prospects for Vietnam s position in the dispute

China's Coming War with Asia Jonathan Holslag,2015-03-17 China s ambition is to rise peacefully Avoiding fierce conflicts with its Asian neighbors is essential to this goal Jonathan Holslag makes a brilliant case for the geopolitical dilemma facing the rising China and his argument that China will likely enter into major conflict with Asia is compelling and thoughtful Both Chinese experts and decision makers will find this book illuminating reading Asia is set for another great power war As China s influence spreads beyond its territorial borders and its global aspirations gain momentum so tensions with its neighbors are reaching breaking point In this clear sighted book Jonathan Holslag debunks the myth of China s peaceful rise arguing instead that China s policy of shrewd intransigence towards other Asian countries will inevitably result in serious conflict China s ambitions are not malicious But what China wants namely to maximize its security and prosperity will lead to a huge power imbalance where China towers above her neighbors impels them into unequal partnerships and is increasingly able to seize disputed territory At present China s focused and uncompromising pursuit of its own interests is bearing fruit Many of China s neighbors are still too weak to counter Beijing s influence and China has ably exploited divisions between them to divide and rule But several regional powers are now joining forces to stop China With the PRC unlikely to back down and nationalism riding high China s coming war with Asia is already in the making

Charm Offensive Kurlantzick, Joshua,2013-05-24 At the beginning of the twenty first century China is poised to become a major global power And though much has been written of China s rise a key aspect of this transformation has gone largely unnoticed the way that China is using soft power and diplomacy to appeal to its neighbours and distant countries alike In this provocative book Joshua Kurlantzick examines the significance of China s recent reliance on soft power diplomacy trade incentives cultural and educational exchange opportunities and other techniques to project a benign national image position itself as a model of social and economic success and develop stronger international alliances Drawing on years of on the ground experience tracking China s policies in Southeast Asia Latin America and Africa Kurlantzick shows how China has wooed the world with a charm offensive that has largely escaped the world s attention In his persuasively argued conclusion he considers a future in which China may be the first nation since the Soviet Union to rival the United States in international influence
