China Environment Development Review Globalization:

How China is Reshaping the Global Economy Rhys Jenkins, 2022-06-16 China's growing economic involvement in Sub-Saharan Africa and Latin America has been a source of major controversy. The official Chinese position maintains that the growth of bilateral relations is of mutual benefit and provides a good example of South-South cooperation. Critics on the other hand see the economic relations between China and other developing countries as highly unequal with most of the benefits accruing to China and a few local elites. They also point to negative socio-economic, political and environmental consequences. *How China is Reshaping the Global Economy: Development Impacts in Africa and Latin America* throws more light on these controversies through a comparative study of China's impact on the two regions. It looks not just at bilateral relations between China and the two regions but also analyses the changes in the global economy brought about as a result of the shift in economic activity from North America and Western Europe to Asia. This book looks at the factors which led to rapid economic growth in China and the way in which this has affected global manufacturing, commodity markets, the international presence of Chinese companies and financial flows. It examines the different forms of Chinese economic involvement in Sub-Saharan Africa and Latin America, the main drivers and economic, social, political and environmental consequences. It ends with a comparison of the two regions that highlights the importance of different histories and political and institutional contexts in determining the impacts of China. Since the first edition of *How China is Reshaping the Global Economy: Development Impacts in Africa and Latin America*, China's role in the global economy has continued to expand and the Chinese government's foreign policy has become more assertive. The global presence of China has been marked by the expansion of the Belt and Road Initiative to almost 150 countries and the trade war between the US and China as well as increased Western concerns over the activities of major Chinese companies such as Huawei. This new edition documents these changes and their implications for SSA and LAC.

[China Environment and Development Review](#) [China's Environment and Development in the Era of Globalization](#) Zhang Xiao, 2015-11-30 This book focuses on climate change and China as well as international trade and China's environmental issues. It investigates the impact of globalization on sustainable development. As a new public issue, climate change has placed the whole world in two dilemmas: commercial rationality dominating our world cannot resolve such dilemmas; therefore, greater wisdom is desperately needed, e.g. establishing new civilized norms and value system. The relationship between trade and poverty is discussed and further effects of globalization on worldwide both environment and natural resource usage are analyzed by those quantitative analysis methods. The consequence of globalization is not only economic and income growth in some countries but also ecological and social imbalance between countries, e.g. poverty. Highlighting the fragility of the ecological environment and needy groups, how to understand and address the impacts of trade on China's resource consumption and environment is the question that this book intends to answer.

1. There was never a book in English on China's environment and development

under globalization background 2 The book is exclusively concerned with the social imbalance e g poverty in consequence of globalization 3 More quantitative analysis methods are employed and more international comparisons are used in the book

Globalization and Environmental Reform Arthur P. J. Mol, 2003 A balanced look at globalization and its potential environmental effects both destructive and beneficial **How China is Reshaping the Global Economy** Rhys Owen Jenkins, 2019 China's growing economic involvement in Sub Saharan Africa and Latin America has been a source of major controversy This book sheds light on these controversies through a comparative study of China's impact on the two regions

China in the Global Economy Governance in China OECD, 2005-09-07 While China's economy has shown impressive dynamism following the increased reliance on market based policies the governance structures themselves will have to be reformed deeply for this growth to be sustainable This report examines the many challenges of governance which China is facing *China and Globalization* Doug Guthrie, 2012 An accessible introductory text on contemporary China this book covers the social economic and political factors responsible for China's revolutionary changes and interweaves this structural analysis with a consideration of social changes at the micro and macro levels

OECD Environmental Performance Reviews: China 2007 OECD, 2007-07-18 OECD's first review of China's environmental situation and policies systematically reviews issues including air water waste and biodiversity examines the environment economic and environmental social policy interfaces and makes a series of recommendations **China in the Global Economy China in the World Economy The Domestic Policy Challenges** OECD, 2002-04-23 Drawing on the experiences of OECD Members over the past 50 years and the Organisation's extensive work with non Member economies around the world this landmark study provides readers with a comprehensive view of the interrelated domestic policy issues at stake and specific recommendations

OECD Rural Policy Reviews: China 2009 OECD, 2009-05-05 Analyses the key socio economic forces at work in China's rural areas and discusses the current government strategy for rural development *Chinese Environmental Governance* Bingqiang Ren, 2013-12-05 In this edited volume leading environmental policy experts from China USA and Europe provide a contemporary view of Chinese environmental policy analyzing current discussions among various actors

and agencies The book covers a wide range of topics including the gap between national policy goals and their local implementation cultural and social factors shaping political behavior legal and political systems affecting environmental policy creation and execution new societal forces participating in environmental policymaking and governance and local state strategies tasked with navigating a mix of political legal and societal forces Featuring in depth empirically grounded analyses with interdisciplinary approaches the book is ideal reading for scholars interested in the complex nature of balancing Chinese environmental sustainability and economic growth Handbook of Migration and Globalisation Anna

Triandafyllidou,2024-04-12 This thoroughly revised and updated Handbook brings together an international range of contributors to highlight the deep interdependence between migration and globalisation and explore the impact of economic social and political globalisation on international population flows It provides an interdisciplinary perspective on a discussion that has been intensifying and diversifying over the past 25 years This title contains one or more Open Access chapters

China and the Global Economy Since 1840 L. Aiguo,2016-04-30 This is a study of the long run evolution of the relationship between China and the world economy The book presents an original interpretation of the country s socio economic processes in the past 150 years focusing on China s interaction with the expanding capitalist world economy The author argues that the general thrust of China s quest for development or modernization has been to catch up with the wealthy nations of the West and goes on to explain the changing paths and outcomes The book proceeds chronologically from China s mid nineteenth century incorporation to the world economy starting from a semi colonial state to the Maoist state led industrialization after 1949 and to the post Mao liberalization and reintegration By carefully examining the patterns of development in these three major periods of the nation s history it addresses fundamental issues pertaining to the making of modern China This rigorously argued book will be a timely and much debated contribution as the rise of China in the twenty first century has become an issue of our time **Border Crossing in Greater China** Jenn-hwan Wang,2014-07-25 China s transformation from a poor and underdeveloped country into a global market power has profoundly altered its socioeconomic power relations with the other countries in the Greater China region namely Taiwan and Hong Kong Indeed this economic shift has resulted in the massive flow of capital and people from Taiwan as well as Hong Kong to China to seek business opportunities and new lifestyles These flows have in turn completely transformed longstanding borderlines in the region This book examines the transformation of Taiwan and Hong Kong s socioeconomic relationships with China as their economies have become more deeply integrated into Greater China Across three key sections it explores the impact of increasing social interaction and the shrinking of existing borderlines to ask whether these changes will bring about a convergence of identity among the people involved Production examines how investments from Taiwan and Hong Kong to China have transformed production networks Community explores the impact of cross boundary mobility and the integration of migrants into Chinese communities and finally Identity engages with what is one of the most important issues in contemporary Taiwanese society

Border Crossing in Greater China contributes not only to theoretical debates on border crossing issues but also provides valuable insights on the practical concerns regarding social and political integration and tensions in the region As such it will be of great interest to students and scholars of Taiwan studies Chinese studies Chinese society and Chinese economics

Globalization and the Chinese City Fulong Wu, 2006-05-09 Introducing readers to the far reaching global orientation that is now taking place in urban China an international team of contributors examine the impact of globalization on Chinese cities including the economic cultural and political impact **Assessing Treaty Performance in China** Pitman B. Potter, 2014-03-10 Closer and more frequent contact among states brought about by globalization has led to an increase in trade and human rights disputes that can challenge economic relations and cloud political relationships Preventing and managing these disputes requires a better understanding of the cross cultural dimensions of treaty performance on trade and human rights especially for increasingly important actors in the international system such as China Assessing Treaty Performance in China outlines a new approach for understanding China s treaty performance around international standards on trade and human rights using the paradigms of selective adaptation and institutional capacity Selective adaptation reveals how local interpretation and implementation of international treaty standards are affected by normative perspectives derived from perception complementarity and legitimacy Institutional capacity explains how operational dimensions of legal performance are affected by structural and relational dynamics of institutional purpose location orientation and cohesion The book focuses on legal performance rather than technical compliance to provide a more comprehensive perspective on China s interaction with international treaty standards It also offers policy suggestions for more effective engagement with China on trade and human rights issues *Rules without Rights* Tim Bartley, 2018-02-08 Activists have exposed startling forms of labor exploitation and environmental degradation in global industries leading many large retailers and brands to adopt standards for fairness and sustainability This book is about the idea that transnational corporations can push these standards through their global supply chains and in effect pull factories forests and farms out of their local contexts and up to global best practices For many scholars and practitioners this kind of private regulation and global standard setting can provide an alternative to regulation by territorially bound gridlocked or incapacitated nation states potentially improving environments and working conditions around the world and protecting the rights of exploited workers impoverished farmers and marginalized communities But can private voluntary standards actually create meaningful forms of regulation Are forests and factories around the world actually being made into sustainable ecosystems and decent workplaces Can global norms remake local orders This book provides striking new answers by comparing the private regulation of land and labor in democratic and authoritarian settings Case studies of sustainable forestry and fair labour standards in Indonesia and China show not only how transnational standards are implemented on the ground but also how they are constrained and reconfigured by domestic governance Combining rich multi method analyses a powerful comparative approach and a new theory of private

regulation Rules without Rights reveals the contours and contradictions of transnational governance Transformations in Governance is a major new academic book series from Oxford University Press It is designed to accommodate the impressive growth of research in comparative politics international relations public policy federalism environmental and urban studies concerned with the dispersion of authority from central states up to supranational institutions down to subnational governments and side ways to public private networks It brings together work that significantly advances our understanding of the organization causes and consequences of multilevel and complex governance The series is selective containing annually a small number of books of exceptionally high quality by leading and emerging scholars The series targets mainly single authored or co authored work but it is pluralistic in terms of disciplinary specialization research design method and geographical scope Case studies as well as comparative studies historical as well as contemporary studies and studies with a national regional or international focus are all central to its aims Authors use qualitative quantitative formal modeling or mixed methods A trade mark of the books is that they combine scholarly rigour with readable prose and an attractive production style The series is edited by Liesbet Hooghe and Gary Marks of the University of North Carolina Chapel Hill and Walter Mattli of the University of Oxford

Geographical Dynamics and Firm Spatial Strategy in China Shengjun Zhu, John Pickles, Canfei He, 2017-01-07 This book offers the first detailed account of the complex geographical dynamics currently restructuring China's export oriented industries The topics covered are relevant to post socialist geography development studies economics economic sociology and international studies It offers academics international researchers postgraduate and advanced undergraduate students in these fields an accessible grounded yet theoretically sophisticated account of the geographies of global production networks value chains and regional development in developing countries and emerging economies It is of particular interest to economic geographers and economic sociologists involved in the growing debates over local clusters embeddedness global sourcing and global production and over the global value chain global production network It also appeals to national policymakers since it directly addresses economic and industrial policy issues such as industrial competitiveness regional and national development industrial and employment restructuring and trade regulation

Climate Governance in China Lina Li, Maia Haru Hall, 2023-05-03 This book explores how and why innovative climate policies spread across subnational regions and between governance levels in China Despite the significance of emerging economies in a pathway to a zero carbon future research to date on China's transformation governance remains limited Drawing on a theoretical framework for policy diffusion and based on extensive data from expert interviews with Chinese decisionmakers and policy practitioners Lina Li and Maia Haru Hall focus on the policy of emissions trading systems ETS and two key case studies Shanghai and Hubei The authors examine the role of the national government and how much freedom the subnational regions have in developing ETS policy as well as pinpointing key actors and the role of policy and knowledge diffusion mechanisms Overall this book sheds light on the competition between China and the West in the transition to

climate friendly societies and economies highlighting opportunities for cooperation between them This book will be of great interest to students and scholars of environmental politics and policy climate change urban studies and Chinese studies more broadly

Pandemic Crossings Guobin Yang,Bingchun Meng,Elaine J. Yuan,2024-01-01 Throughout the COVID 19 crisis nation states found new ways to assert power under the guise of public health from closing or tightening borders to expanding the boundaries of acceptable citizen surveillance As these controls increased in intensity citizens passions to cross borders seemed to grow in proportion Pandemic Crossings explores how these processes of boundary making and crossing often mediated by digital technology despite inequity of access had profound and often contradictory consequences on individual lives national politics and U S China relations This rich and geographically diverse collection of studies informed by everyday individual experiences contribute new insights to the interplay between digital technologies and state governance during the covid 19 pandemic It opens up new avenues of research not only on the covid 19 pandemic but also on global health crises more broadly
