David Arase

China Dreams 20 Visions Of The Future:

China Dreams William Callahan, 2013-06-06 To understand how China is shaping the twenty first century China Dreams eavesdrops on conversations between officials scholars bloggers novelists film makers and artists Rather than pitting Confucian China against the democratic west Callahan weaves Chinese and American ideals together to describe a new Chimerican dream

China Dreams William A. Callahan, 2015 To understand how China is shaping the twenty first century William Callahan s China Dreams eavesdrops on conversations between officials scholars bloggers novelists film makers and artists Rather than pitting Confucian China against the democratic west Callahan weaves Chinese and American ideals together to describe a new Chimerican dream

China's Many Dreams D. Kerr, 2016-04-30 China s new leader Xi Jinping has announced that the China Dream of great rejuvenation of the Chinese nation is now closer than ever This book discusses the meaning and progress of Chinese national rejuvenation from multiple perspectives It discusses critically China s progress towards becoming a strong prosperous and well governed country

The Chinese Dream: Educating the Future Michael A. Peters, 2019-08-02 This edited collection is based on a series of articles written by Michael A Peters as Editor in Chief of Educational Philosophy and Theory to explore the concept of The Chinese Dream first introduced by President Xi in 2012 This seventh volume in the Editor s Choice series provides a philosophical and historical analysis of The Chinese Dream by analyzing its major intersecting narratives liberal Confucian and Marxist With chapters covering higher education strategy social governance socialist rule of law the US China trade war technological unemployment and the emergence of the Chinese techno state this volume also offers an introduction to Chinese philosophy and history and its narrative re crafting that presents China as a global power The author calls this process and the emerging Chinese narratives Educating the Future

Afterlives of Chinese Communism Christian Sorace, Ivan Franceschini, Nicholas Loubere, 2019-06-25 Afterlives of Chinese Communism comprises essays from over fifty world renowned scholars in the China field from various disciplines and continents It provides an indispensable guide for understanding how the Mao era continues to shape Chinese politics today Each chapter discusses a concept or practice from the Mao period what it attempted to do and what has become of it since The authors respond to the legacy of Maoism from numerous perspectives to consider what lessons Chinese communism can offer today and whether there is a future for the egalitarian politics that it once promised

Chinese Student Migration and Selective Citizenship Lisong Liu, 2015-08-20 Since China began its open door and reform policies in 1978 more than three million Chinese students have migrated to study abroad and the United States has been their top destination The recent surge of students following this pattern along with the rising tide of Chinese middle and upper classes emigration out of China have aroused wide public and scholarly attention in both China and the US This book examines the four waves of Chinese student migration to the US since the late 1970s showing how they were shaped by the profound changes in both nations and by US China relations It discusses how student migrants with high socioeconomic status

transformed Chinese American communities and challenged American immigration laws and race relations The book suggests that the rise of China has not negated the deeply rooted American dream that has been constantly reinvented in contemporary China It also addresses the theme of selective citizenship a way in which migrants seek to claim their autonomy proposing that this notion captures the selective nature on both ends of the negotiations between nation states and migrants It cautions against a universal or idealized dual citizenship model which has often been celebrated as a reflection of eroding national boundaries under globalization This book draws on a wide variety of sources in Chinese and English as well as extensive fieldwork in both China and the US and its historical perspective sheds new light on contemporary Chinese student migration and post 1965 Chinese American community Bridging the gap between Asian and Asian American studies the book also integrates the studies of migration education and international relations Therefore it will be of interest to students of these fields as well as Chinese history and Asian American history more generally

Soft Power Made in China
Claire Seungeun Lee, 2018-09-25 This book analyzes the ways in which China's soft power growth faces dilemmas in East Asia through both online and offline platforms One dilemma for China's transnational soft power field expansion lies in the intersection of its source and receiving countries The author discusses how transnational audiences consumption and reception of Chinese television series are shaped by domestic factors with interpretations of and desires for different forms of capital further inhibiting the foreign export of these series Another dilemma is the outsourced soft power While Hong Kong and Taiwan play significant roles as outsourced soft power mediators their under established emerging digital media platforms have yet to meet the expectations of transnational audiences in a virtual transnational soft power field Grounded in the author's multi site field research focused on television spheres *Soft Power Made in China* argues that China's soft power paradox in South Korea and Japan two quasi Sinophone countries is not due to a lack of state level strategy but linked to soft power pathways that rely on production in one source country and both distribution and reception in a receiving country

Television Drama in Contemporary China Shenshen Cai, 2016-09-13 Due to high audience numbers and the significant influence upon the opinions and values of viewers the political leadership in China attributes great importance to the impact of television dramas Many successful TV serials have served as useful conduits to disseminate official rhetoric and mainstream ideology and they also offer a rich area of research by providing insight into the changing Chinese political social and cultural context This book examines a group of recently released TV drama serials in China which focus upon and to various degrees represent topical political social and cultural phenomena Some of the selected TV serials reflect the present ideological proclivities of the Chinese government whilst others mirror social and cultural occurrences or provide coded and thought provoking messages on China's socio economic and political reality Through in depth textual analysis of the plots scenes and characters of these selected TV serials the book provides timely interpretations of contemporary Chinese society its political inclinations social fashions and cultural tendencies The book also demonstrates how popular media narratives of

TV drama serials engage with sensitive civic issues and cultural phenomena of modern day China which in turn encourages a broader social imagination and potential for change Advancing our understanding of contemporary China this book will appeal to students and scholars of contemporary Chinese culture society and politics as well as those with research interests in television studies more generally China's Relations with Central and Eastern Europe Weiqing Song,2017-10-04 As China rises as an economic and an international power new relationships are being forged with all areas of the world including Central and Eastern Europe This book explores how this relationship is developing It considers how China s links with Central and Eastern Europe fit in to China s overall international relations strategies It looks at economic and trade ties diplomatic initiatives and the role of the European Union and examines China s bilateral relations with the different states of the region These relationships are particularly interesting because before the end of communism in Eastern Europe China had many direct links with the countries of the region *Slogan Politics* Jinghan Zeng,2020-07-20 This book studies the three most important Chinese foreign policy concepts under Xi Jinping s leadership New Type of Great Power Relations Belt and Road Initiative and Community of Shared Future for Mankind Those signature concepts are often considered as China s well thought out strategic plans reflecting Beijing s concrete geopolitical vision This book however argues that these views are mistaken It develops a slogan politics approach to study Chinese foreign policy concepts The overarching argument is that those concepts should be understood as multifunctional slogans for political communication on the domestic and international stages This book shows how those concepts function as political slogans to 1 declare intent 2 assert power and test domestic and international support 3 promote state propaganda and 4 call for intellectual support The slogan politics approach highlights the critical role of China s academic and local actors as well as international actors in shaping China s foreign policy ideas It provides critical insights to understand how Chinese domestic actors exert their influence and voice their narratives to influence China s policy agenda and debate It suggests that the existing analyses vastly exaggerate Beijing s capacity to coordinate domestic actors including forging coherent Chinese foreign policy narratives and unifying use of China s policy concepts **Regional Institutions, Geopolitics and Economics in the Asia-Pacific** Steven B. Rothman,Utpal Vyas,Yoichiro Sato,2017-04-21 This volume discusses the relationship between economic interests motivations of state action and the interaction of states in the potential for regional institutional development in the Asia Pacific region **Decoding the Rise of China** Tse-Kang Leng,Rumi Aoyama,2018-05-17 This edited collection provides a synthetic analysis of the rise of contemporary China and its impact on the current global system from a range of Asian and Western perspectives Highlighting Taiwanese and Japanese viewpoints the book considers a macro integrated vision of the rise of China and examines the vital cultural factors which link domestic politics and foreign policy in the Sino Japanese relationship The book addresses key policy matters such as the internationalization of the Chinese currency and Arctic diplomacy and provides a key reference on contemporary Chinese foreign policy and the Sino Japanese relationship for

students academics experts and policy makers in the field of Area Studies History and International Relations **Screening China's Soft Power** Paola Voci, Luo Hui, 2017-10-02 Promoting China's cultural soft power by disseminating modern Chinese values is one of the policies of President Xi Jinping. Although it is usually understood as a top-down initiative implemented willingly or unwillingly by writers, filmmakers, artists and so on, and often manifesting itself in clumsy and awkward ways, for example the concept of the Chinese dream intended to rival and perhaps appeal more strongly than the American dream, modern Chinese values are in fact put forward in many ways by many different cultural actors. Through analyses of film festivals, CCTV, Confucius Institutes, auteurs, blockbusters, reality TV and online digital cultures, this book exposes the limitations of China's officially promoted soft power in both conception and practice and proposes a pluralistic approach to understanding Chinese soft power in local, regional and transnational contexts. As such, the book demonstrates the limitations of existing theories of soft power and argues that the US-derived concept of soft power can benefit from being examined from a China perspective.

Assessing China's Power Jae Ho Chung, 2015-10-07 The topic of China's rise and what it really means for the global and regional order is the subject of intense debate. In this volume, top scholars address China's power today, compare China's power with that of the USA and forecast China's power in 2025.

China's Ethical Revolution and Regaining Legitimacy Shaoying Zhang, Derek McGhee, 2017-05-11 This book examines the many ways in which the Communist Party in China is still revolutionary by focusing on how in recent years it has attempted to mobilize Party members to become ethical subjects. In the context of the Party's history of the military revolution, Cultural Revolution and Economic Reform or economic revolution, the authors argue that under President Xi Jinping the Party has launched an ethical revolution within the Party for the sake of sustaining its legitimacy. This book examines the various combined components of this ethical revolution, including anti-corruption, anti-four undesirable working styles and Mass Line Education programme, from the perspective of the fifty current Communist Party officials.

China's Rise and Changing Order in East Asia David Arase, 2017-01-05 This book discusses the impact of China's rise on regional order at three levels: Sino-US relations, East Asia's contested sub-regions and regional institutions. Sino-US relations provide a framework to examine macro-regional relations. In East Asia's contested sub-regions, Northeast Asia, Southeast Asia and the eastern Indian Ocean region, the author explores the crucial role regional powers and local states play in maintaining effective governance and stability. The author shows how regional institutions attempt to develop cooperation and shared norms that work toward regional community. The inclusion of leading experts from China, the US, South Korea, Japan, Vietnam, Singapore and India gives this collection a unique viewpoint and reveals how China's rise looks from inside and outside China as well as inside and outside the region.

China's Public Diplomacy Ingrid d'Hooghe, 2015-01-08 In China's Public Diplomacy, author Ingrid d'Hooghe contributes to our understanding of what constitutes and shapes a country's public diplomacy and what factors undermine or contribute to its success. China invests heavily in policies aimed at improving its image, guarding itself against international criticism and

advancing its domestic and international agenda This volume explores how the Chinese government seeks to develop a distinct Chinese approach to public diplomacy one that suits the country's culture and authoritarian system Based on in depth case studies it provides a thorough analysis of this approach which is characterized by a long term vision a dominant role for the government an inseparable and complementary domestic dimension and a high level of interconnectedness with China's overall foreign policy and diplomacy

China, the UN, and Human Protection Rosemary Foot, 2020-05-27 Over a relatively short period of time Beijing moved from dismissing the UN to embracing it How are we to make sense of the People's Republic of China's PRC embrace of the UN and what does its engagement mean in larger terms This study focuses directly on Beijing's involvement in one of the most contentious areas of UN activity human protection contentious because the norm of human protection tips the balance away from the UN's Westphalian state based profile towards the provision of greater protection for the security of individuals and their individual liberties The argument that follows shows that as an ever more crucial actor within the United Nations Beijing's rhetoric and some of its practices are playing an increasingly important role in determining how this norm is articulated and interpreted In some cases the PRC is also influencing how these ideas of human protection are implemented At stake in the questions this book tackles is both how we understand the PRC as a participant in shaping global order and the future of some of the core norms which constitute that order

China's Digital Presence in the Asia-Pacific Michael Keane, Haiqing Yu, Elaine J. Zhao, Susan Leong, 2020-12-15 China's Digital Presence in the Asia Pacific explores China's digital presence in the Asia Pacific region Drawing on political economy of the media industry analysis platform studies and cultural policy studies the book shows that China's commercial digital platforms are increasingly recognized outside China and can disseminate Chinese culture more effectively than government supported media It illustrates how these platforms are contributing to Chinese cultural influence their perceived reputation and obstacles in the region while pursuing a combined approach of culture industry internet and platform In considering the multi layered rise of the China argument the book considers its growing technological status as an innovative nation through four policy approaches culture industry Internet and platform Other characterizations include intelligent and social These characterizations show how China is rejuvenating drawing technological knowhow from the region and adding to its cultural and soft power The book focuses on six locations Hong Kong Taiwan Singapore Malaysia Australia and New Zealand The authors analyse Beijing's changing policies towards the governance of culture Internet technologies and digital platforms as well as examining consumer perceptions of China and Chinese products in the Asia Pacific region In using the characterizations the authors provide a comprehensive analysis of how Chinese cultural and creative industries became digital as well as investigating the key players and the leading platforms including Alibaba Tencent ByteDance TikTok Baidu iQiyi and Meituan

Pacific Automobility Gijss Mom, 2022-09-13 The beginning of the 21st century has seen important shifts in mobility cultures around the world as the West's media driven car culture has contrasted with existing local

mobilities from rickshaws in India and minibuses in Africa to cycling in China In this expansive volume historian Gijs Mom explores how contemporary mobility has been impacted by social political and economic forces on a global scale as in light of local mobility cultures the car as an adventure machine seems to lose cultural influence in favor of the car s status character
