China In The Era Of Deng Xiaoping

Robert S. Ross, Jo Inge Bekkevold

China In The Era Of Deng Xiaoping:

China in the Era of Deng Xiaoping: A Decade of Reform M.Y.M. Kau, Susan H. Marsh, Michael Ying-mao Kau, 2016-09-16

This is a reference on the ten years 1978 to 1987 of Deng Xiaoping's power in China. It also offers the views of Sinologists of the time. The concluding section examines policy implications arising from Deng's rule for the four great East Asian powers.

Deng Xiaoping Alexander V. Pantsov, Steven I. Levine, 2015-04-01 Deng Xiaoping joined the Chinese Communist movement as a youth and rose in its ranks to become an important lieutenant of Mao's from the 1930s onward. Two years after Mao's death in 1976, Deng became the de facto leader of the Chinese Communist Party and the prime architect of China's post-Mao reforms. Abandoning the Maoist socio-economic policies he had long fervently supported, he set in motion changes that would dramatically transform China's economy, society, and position in the world. Three decades later, we are living with the results: China has become the second largest economy and the workshop of the world. And while it is essentially a market economy, socialism with Chinese characteristics. Deng and his successors ensured the continuation of CCP rule by severely repressing the democratic movement and maintaining an iron grip on power. When Deng died at the age of 92 in 1997, he had set China on the path it is following to this day. Alexander Pantsov and Steven Levine's new biography of Deng Xiaoping does what no other biography has done: based on newly discovered documents, it covers his entire life from his childhood and student years to the post-Tiananmen era. Thanks to unprecedented access to Russian archives containing massive files on the Chinese Communist Party, the authors present a wealth of new material on Deng dating back to the 1920s. In a long and extraordinary life, Deng navigated one epic crisis after another. Born in 1904, Deng like many Asian revolutionary leaders spent part of the 1920s in Paris where he joined the CCP in its early years. He then studied in the USSR just as Stalin was establishing firm control over the Soviet Communist Party. He played an increasingly important role in the troubled decades of the 1930s and 1940s that were marked by civil war and the Japanese invasion. He was commissar of a communist-dominated area in the early 1930s, loyal henchman to Mao during the Long March, regional military commander in the anti-Japanese war, and finally a key leader in the 1946-49 revolution. During Mao's quarter-century rule, Deng oscillated between the heights and the depths of power. He was purged during the Cultural Revolution only to reemerge after Mao's death to become China's paramount leader until his own death in 1997. This objective, balanced, and unprecedentedly rich biography changes our understanding of one of the most important figures in modern history.

Deng Xiaoping and the Transformation of China Ezra F. Vogel, 2013-10-14 No one in the twentieth century had a greater impact on world history than Deng Xiaoping. And no scholar is better qualified than Ezra Vogel to disentangle the contradictions embodied in the life and legacy of China's boldest strategist, the pragmatic, disciplined force behind China's radical economic, technological, and social transformation.

On Reform Xiaoping Deng, 2013 Since 1978, China's economy has gone from poverty level to the second highest GDP in the world. How has China freed itself from the shadow of the Cultural Revolution, turning the page to a bright new future?

Deng Xiaoping who led the second generation of Chinese leaders and was the architect of what would become the China we know was integral in China's rise. His theories inspired his people and his influence is seen everywhere in China today. This book collects his thoughts on a wide range of topics including economics, politics, education, and science. On Reform provides insight for scholars, researchers, and other interested readers into Deng Xiaoping's thinking and ultimately the thinking of modern China.

Sowing the Seeds of Democracy in China Merle Goldman, 1994. When they found their efforts had produced negligible results, they tried to introduce new institutions such as a free press, a legislature with real power, the rule of law, and truly competitive elections.

The Nanxun Legacy And China's Development In The Post-deng Era John Wong, Yongnian Zheng, 2001-06-14. In the spring of 1992, Deng Xiaoping made a historical tour of south China, popularly known as the Nanxun southern tour. During the tour, he boldly called for more radical economic reform and further opening up of China. The Nanxun has become a political landmark in the history of the People's Republic of China, much like great events such as the Great Leap Forward, the Cultural Revolution, and the 1989 Tiananmen crackdown. Deng Xiaoping has left his own legacy for the country. The Nanxun belongs to Deng just as the 1911 revolution belongs to Sun Yat-sen and the communist revolution to Mao Zedong. In this collection of articles, leading China scholars and experts analyze how the Nanxun has sparked off dynamic economic growth in China and drastically changed the political and social landscape of the country.

Continuities Between Mao Zedong's China and Deng Xiaoping's China Julian Ostendorf, 2011-07. Essay from the year 2011 in the subject History Asia, grade 2.0. University of Warwick, Department of History course. China since 1900. Language: English. Abstract: Das Essay untersucht die politische Entwicklung Chinas seit Gründung der PRC unter Mao Zedong bis zur Öffnung Chinas und seiner Modernisierung unter Deng Xiaoping. Dazu werden die Rolle des Staates bzw. der Kommunistischen Partei, die zentrale Frage der Wirtschaftspolitik sowie die Rolle Chinas in den internationalen Beziehungen und seine Strategie in einer sich ändernden weltpolitischen Lage untersucht.

China in the Era of Xi Jinping Robert S. Ross, Jo Inge Bekkevold, 2016-05-12. Since becoming president of China and general secretary of the Chinese Communist Party, Xi Jinping has emerged as China's most powerful and popular leader since Deng Xiaoping. The breathtaking economic expansion and military modernization that Xi inherited has convinced him that China can transform into a twenty-first century superpower. In this collection, leading scholars from the United States, Asia, and Europe examine both the prospects for China's continuing rise and the emergent and unintended consequences posed by China's internal instability and international assertiveness. Contributors examine domestic challenges surrounding slowed economic growth, Xi's anti-corruption campaign, and government efforts to maintain social stability. Essays on foreign policy range from the impact of nationalist pressures on international relations to China's heavy-handed actions in the South China Sea that challenge regional stability and US-China cooperation. The result is a comprehensive analysis of current policy trends in Xi's China and the implications of these developments for his nation, the United States, and Asia Pacific.

China in the Era of Teng

Hsiao-p'ing (Deng Xiaoping) Michael Ying-mao Kau, Stuart E. Marsh, Xiaoping Deng, 1993 *China's State Ideology and the Three Gorges Dam* Yuen-ching Bellette Lee, 2025-06-13 This book uses the case of the Three Gorges Dam project to explore the Chinese state's use of ideology namely the political theodicy of development as a governing tactic in the reform era. Presenting observations from fieldwork collected after the dam's completion it reveals communities who not only embraced their improved livelihoods but also expressed support for the mega project and the Party's leadership. However the research also indicates that the effects of the ideological dissemination surrounding the project were not monolithic with the development process involving extensive struggles and contradictions including locals facing unemployment and the fragmentation of their social networks. This disjuncture between the state ideology and social reality thus revealed flaws in the official imperative of political theodicy. Displaying how the authoritarian rule of the Chinese state can be adaptive in modifying its mode of governance especially when faced with the unintended consequences of failures this book will be a valuable resource to students and scholars of Asian environment development politics and Chinese politics history and society.

China in the Era of Xi Jinping Robert S. Ross, Jo Inge Bekkevold, 2016 In this collection scholars examine the prospects for China's rise and the emergent and unintended consequences posed by China's internal challenges and international assertiveness. The result is a comprehensive analysis of current policy trends in Xi's China and the implications of these developments for his nation the US and East Asia.

Following the Leader David M. Lampton, 2019-04-09 With unique access to Chinese leaders at all levels of the party and government best selling author David M Lampton tells the story of China's political elites from their own perspectives. Based on over five hundred interviews Following the Leader offers a rare glimpse into how the attitudes and ideas of those at the top have evolved over the past four decades. Here China's rulers explain their strategies and ideas for moving the nation forward share their reflections on matters of leadership and policy and discuss the challenges that keep them awake at night. As the Chinese Communist Party installs its new president Xi Jinping for a presumably ten year term questions abound. How will the country move forward as its explosive rate of economic growth begins to slow. How does it plan to deal with domestic and international calls for political reform and to cope with an aging population not to mention an increasingly fragmented bureaucracy and society. In this insightful book we learn how China's leaders see the nation's political future as well as about its global strategic influence.

China's Military Procurement in the Reform Era Yoram Evron, 2015-06-26 The decisions that shape the policy of weapons procurement are an important area of national security policy. This is all the more true for China which during recent decades has vacillated between different sources and directions of military build up. This book explores the politics of military procurement in China under the successive leaderships of Deng Xiaoping Jiang Zemin and Hu Jintao. It shows how China's political and military leaders have sought to adjust military procurement policy to meet China's strategic objectives to relate it to non military needs to strike a balance between the import of weapons and indigenous production and to determine the connections

between hardware and other components of military power Exploring in detail five major shifts in the nation's military procurement it traces the considerations and negotiations among China's civilian and military leaderships By doing so it offers both a conceptual framework and empirical grounds for evaluating the factors that shape China's military procurement directions as well as their limitations prospects and operational implications As the first book to study comprehensively and systematically the attributes shaping China's military procurement it will be of great interest to students and scholars of Chinese politics Chinese history and military and strategic studies

Deng Xiaoping and the Chinese Revolution David Goodman, 2002-09-11 To the outside world Deng Xiaoping represents a contradiction he is both China's most successful moderniser and the Butcher of Beijing China's supreme leader who must take responsibility for the events surrounding Tiananmen Square in June 1989 However Deng the politician has no such contradiction only the Chinese Communist Party can bring modernisation to China For Deng any threat to the Communist Party is a threat to the project of China's modernisation This book attempts to reach beyond the spectacular economic success of recent years to understand Deng's own particular role and the sources of his political power Deng Xiaoping was involved with the communist movement before there was even a Communist Party of China and his entire career has been shaped by both the party and the network of relationships and people within it David Goodman explores the way in which Deng has survived being purged three times via his contacts with key politicians Zhou Enlai in Paris in the early 1920s and Mao Zedong from 1933 to the early 1960s His close relationship with the military from the Sino Japanese War of 1937 through to the present day has also enabled him to survive difficult political periods Indeed Deng's wartime experience in the Taihang Mountains plays a central but often overlooked role in his later career particularly as a source of political support David Goodman has been able to draw on the substantial documentary sources that have become available from China since 1989 as well as the analysis of Deng's political life that has proliferated inside the People's Republic in recent years In addition there is included a catalogue and analysis of the speeches and writings of Deng Xiaoping since 1938 that will prove to be an invaluable reference aid to his years of influence and power The result is a balanced evaluation of Deng the politician that provides fresh insights into the career of one of the twentieth century's greatest political survivors

China After Deng Xiaoping Willy Wo-Lap Lam, 1995-08-08 China After Deng Xiaoping This book gives bold and thought provoking answers to the question What will happen after Deng Xiaoping's death by analysing major political and economic trends in China since the June 4 1989 crackdown The intriguing career of patriarch Deng after the Tiananmen Square massacre and his place in history is assessed with the help of previously unpublished internal documents and hundreds of interviews with key players The lively story telling and incisive judgements are buttressed by generous quotations from the speeches and writings of the politicians who will shape China's future China After Deng Xiaoping looks at developments in six crucial areas from 1989 to late 1994 and forecasts their progress into the next decade a Deng Xiaoping's contributions and legacy b economic reform the quasi capitalist road and

the rules of the game in the socialist market economy c the residual influence of the Maoists d the expanding role of the People's Liberation Army e political reform and the future of the Chinese Communist Party f the post Deng Xiaoping leadership tension between Beijing and the regions and the rise of private entrepreneurs China After Deng Xiaoping examines the crisis ridden country that Deng will leave behind After the June 4 tragedy Deng made valiant efforts to mend heaven by resuscitating economic reform By early 1995 China seemed on the threshold of integration with the global economic order However the political system remains feudal and corrupt Economic liberalisation has reached a bottleneck The socio economic costs of reform are becoming prohibitive unless commensurate steps are taken to modernise the political structure Will Deng's anointed successors led by President Jiang Zemin Premier Li Peng and Vice Premier Zhu Rongji shepherd the country towards a novel phase of reform Will China take the leap into the international market place Will the Shanghai Faction led by Jiang and Zhu continue to ride high What role will the army play Or has the balance of power been tipped in favor of new forces such as the regional warlords the private entrepreneurs and an intelligentsia that has been reawakened by the information revolution China After Deng Xiaoping gives clues to the outcome of the slugfest within the Communist party that will break out after the paramount leader's demise The book also looks at how the urge to get rich first has transformed the mentality of cadres as well as ordinary people Infinite possibilities most of them non Marxist and non socialist are beckoning for those who want to embrace the opportunities of the Asia Pacific century A new chapter for the world's longest continuous civilisation opens as its last patriarch gives up the ghost

China Review 1998 Joseph Y. S. Cheng, 1998 Critical reviews of various developments in China and the Hong Kong Special Administrative Region Western Perspectives On The People's Republic Of China: Politics, Economy And Society Colin Mackerras, 2015-03-05 How have Westerners seen the People's Republic of China over the years The question raises many important issues which this book aims to present analyze and explain The basic conclusion is that Western perspectives are somewhat more complex than simply viewing China's realities Involved also are politics and power relations trends in journalism and scholarship as well as individual and group personalities and psychologies Based on extensive personal experiences in China dating back to 1964 and wide ranging travel in Tibet and ethnic regions since the 1980s the author attempts to distinguish trends in different Western countries However most of the material will concern the United States which has been the dominant contributor to Western perspectives during the whole period of concern to this book The perspectives are taken up by topic including politics economy society and ethnic minorities Inherent in each topic is the way cultures see and react towards each other Images and perspectives can affect policy and have done so many times in the past which adds to the importance of this book It also takes up questions of the sources of Western perspectives both in terms of direct sources such as newspapers television or the internet and deeper ones such as social values and temperament

China's Diplomacy Responding to World Transformation in the New Era Honghua Men, 2025-07-25 This book delves into the innovative thinking new and

key agendas and practical evolution of China's diplomacy in the new era. As the world has entered a new epoch, the once-in-a-century world transformation is accelerating and great power rivalry becomes increasingly prominent with the Sino-US strategic competition emerging as the driving force behind the tremendous shifts in international relations. The interaction between China and the world has undergone significant changes, and China's diplomatic adjustments have captured global attention. This book elucidates the underlying logic behind these diplomatic adjustments, summarizes the manifestations of China's diplomatic concepts and innovative practices, highlights the numerous new issues arising from China's interaction with the world, analyzes the challenges and dilemmas faced by Chinese diplomacy, and explores new directions for China's diplomatic breakthroughs. This book serves as a theoretical guide for professional researchers, including experts, scholars, research personnel, and students, while also offering a systematic understanding for a wide range of readers interested in China-related issues, including those in the business world, policy circles, and international activists. The translation was done with the help of artificial intelligence. A subsequent human revision was done primarily in terms of content.

Culture and Social Transformations in Reform Era China Tian Yu Cao, Xueping Zhong, Liao Kebin, 2010-05-31. In face of rapid social and economic changes since the late 1970s, where is China transforming toward? If culture in the form of values, ideals, and ideological struggles plays a key role in China's latest round of social transformations, what are the cultural legacies and resources that are at play, and in what ways do they do so? This collection of essays aims at addressing these questions. Written by some of the leading intellectuals and thinkers in and outside of contemporary China, these essays in different ways re-examine and reflect on the extent to which three major cultural legacies—namely traditional Chinese culture, May Fourth, and socialism—can function as cultural resources under the changed and changing social and economic conditions of the reform era.

Deng Xiaoping and the Making of Modern China Richard Evans, 1997. Chronicles the Chinese leader's life in the context of twentieth-century turmoil, recounting the Japanese invasion, the ascent of communism, Mao's Cultural Revolution, and other events.
