Cracking the China Conundrum Yukon Huang, 2017-06-22 China s rise is altering global power relations reshaping economic debates and commanding tremendous public attention Despite extensive media and academic scrutiny the conventional wisdom about China s economy is often wrong Cracking the China Conundrum provides a holistic and contrarian view of China s major economic political and foreign policy issues Yukon Huang trenchantly addresses widely accepted yet misguided views in the analysis of China s economy He examines arguments about the causes and effects of China s possible debt and property market bubbles trade and investment relations with the Western world the links between corruption and political liberalization in a growing economy and Beijing s more assertive foreign policies Huang explains that such misconceptions arise in part because China s economic system is unprecedented in many ways namely because it s driven by both the market and state which complicates the task of designing accurate and adaptable analysis and research Further China s size regional diversity and uniquely decentralized administrative system poses difficulties for making generalizations and comparisons from micro to macro levels when trying to interpret China s economic state accurately This book not only interprets the ideologies that experts continue building

misguided theories upon but also examines the contributing factors to this puzzle Cracking the China Conundrum provides an enlightening and corrective viewpoint on several major economic and political foreign policy concerns currently shaping China's economic environment

China's Crisis of Success William H. Overholt, 2018-01-11 Explores how China has reached a threshold where continued success requires re-invention of its economy and politics

Shadow Banking in China Andrew Sheng, Ng Chow Soon, 2016-05-09 An authoritative guide to the rise of Chinese shadow banking and its systemic implications Shadow Banking in China examines this rapidly growing sector in the Chinese economy and what it means for your investments Written by two world class experts in Chinese banking including the Chief Advisor to the China Banking Regulatory Commission and former Chairman of the Securities and Futures Commission in Hong Kong this book is unique in providing true first hand perspectives from authorities within the world's largest economy There is little widely available information on China's shadow banking developments and much of it is rife with disparate data inaccuracies and overblown risks due to definitional and measurement differences This book clears the confusion by supplying accurate information on the ground context and invaluable national balance sheet analysis you won't find anywhere else Shadow banking has grown to be a key source of credit in China and a major component of the economy This book serves as a primer for analysts and investors seeking real useful information about the sector to better inform investment decisions Discover what's driving the growth of shadow banking in China Learn the truth about both real and inflated risks Dig into popular rhetoric and clarify common misconceptions Access valuable data previously not published in English Despite shadow banking's critical influence on the Chinese economy there have been very few official studies and even fewer books written on the subject Understanding China's present day economy and forecasting its future requires an in-depth understanding of shadow banking and its inter-relationship with the banking system and other sectors Shadow Banking in China provides authoritative reference that will prove valuable to anyone with financial interests in China

House Prices: Changing the City World Pengfei Ni, Marco Kamiya, Haibo Wang, 2019-11-20 This report was jointly launched by the National Academy of Economic Strategy of the Chinese Academy of Social Sciences and UN HABITAT Using the indicator system and objective data the competitiveness of 1035 global cities was evaluated in detail The report measures the development pattern of global urban competitiveness as a whole and the gap between the relevant parties and the ideal state It has refreshed people's past perceptions of urban rankings and confirmed that the science and technology innovation center cities and central cities of emerging economies have begun to break the inherent global cities and they have entered the ranks of the most urban competitiveness While paying attention to the comparison of competitiveness among cities this report further promotes the perspective to the pattern and trend change of global economic and social development from the perspective of city The followings are new findings First information technology has increasingly become the primary driving force for urban development Second it is the three meridians that divide the global urban population and economic differentiation Third the soft links between cities

gradually dominate the global urban system Fourth the formation of new global cities is beginning Peri-Urban China Li Tian,Yan Guo,2019-04-02 The urban rural relationship in China is key to a sustainable global future This book is particularly interested in peri urbanization in China the process by which fringe areas of cities develop Recent institutional change has helped clarify property rights over collective land facilitating peri urban area development Chapters in this book explore how rural industrialization has changed the landscape and rules about land use in peri urban areas It looks at the role of rural industrialization and provides a detailed exploration of peri urbanization theory policy and its evolution in China Leading discussions find out how fragmented bottom up industrialization urbanization and lax governance have led to a series of social and environmental problems The progress in redevelopment of peri urban areas was initially slow due to the spatial lock in effect This book offers practical solutions to environmental issues and explains how policymakers have the potential to redevelop a future collaborative inclusive and sustainable approach to peri urban areas This in depth approach to urbanization will be useful to academics in urban planning and governmental organizations It will also be advantageous to NGOs and professionals involved in urban planning public administration as well as land use work in China and other developing countries **The China Boom** Ho-fung Hung,2015-10-20 Many thought China s rise would fundamentally remake the global order Yet much like other developing nations the Chinese state now finds itself in a status quo characterized by free trade and American domination Through a cutting edge historical sociological and political analysis Ho fung Hung details the competing interests and economic realities that temper the dream of Chinese supremacy forces that are stymieing growth throughout the global South Hung focuses on four common misconceptions that China could undermine orthodoxy by offering an alternative model of growth that China is radically altering power relations between the East and the West that China is capable of diminishing the global power of the United States and that the Chinese economy would restore the world s wealth after the 2008 financial crisis His work reveals how much China depends on the existing order and how the interests of the Chinese elites maintain these ties Through its perpetuation of the dollar standard and its addiction to U S Treasury bonds China remains bound to the terms of its own prosperity and its economic practices of exploiting debt bubbles are destined to fail Hung ultimately warns of a postmiracle China that will grow increasingly assertive in attitude while remaining constrained in capability The Creation of Wing Chun Benjamin N. Judkins,Jon Nielson,2015-07-16 This book explores the social history of southern Chinese martial arts and their contemporary importance to local identity and narratives of resistance Hong Kong s Bruce Lee ushered the Chinese martial arts onto an international stage in the 1970s Lee s teacher Ip Man master of Wing Chun Kung Fu has recently emerged as a highly visible symbol of southern Chinese identity and pride Benjamin N Judkins and Jon Nielson examine the emergence of Wing Chun to reveal how this body of social practices developed and why individuals continue to turn to the martial arts as they navigate the challenges of a rapidly evolving environment After surveying the development of hand combat traditions in Guangdong Province from

roughly the start of the nineteenth century until 1949 the authors turn to Wing Chun noting its development the changing social attitudes towards this practice over time and its ultimate emergence as a global art form **Handbook on Transport and Urban Transformation in China** Chia-Lin Chen,Haixiao Pan,Qing Shen,James J.Wang,2020-03-28 Since 1978 when China embarked on a new period of economic reforms and introduced open door policies it has experienced a great urban transformation The role of transport has proved indispensable in this unprecedented rapid urbanisation and economic growth As the first research focused book dedicated to this important topic the Handbook on Transport and Urban Transformation in China offers new insight into the various opportunities and challenges brought by fast paced motorization and urban development and explores them in broad spatial economic environmental social and institutional dimensions

China's Railway Transformation Junjie Xi,Paco Mejias Villatoro,2022-12-30 This book investigates China's railway transformation through history along with culture changes and urban development The book begins by looking at the background of China and the history and growth of railway development in China through five key phases followed by assessing the cultural changes in the railway carriage and exploring how these are linked to social equality and national provisions The core of this book aims to analyse the Chinese urban transformation through the development of the high speed rail HSR infrastructure in China Eleven important new HSR stations in mainland China plus the new Hong Kong West Kowloon Station have been selected to contextually explore how HSR infrastructures have affected the development of the Chinese urban context The selected case studies are the stations of Beijing South Wuhan Shanghai Hongqiao Guangzhou South Xi'an North Nanjing South Chengdu East Tianjin West Zhengzhou East Hangzhou East and Hong Kong West Kowloon All of these were built between 2008 and 2018 In these case studies the location and the intentions and success of promoting urban development are analysed and assessed Following this the book further investigates the peculiarities of the new HSR stations in China in comparison with stations in Europe An assessment framework is established to evaluate the Chinese case studies comparatively with significant cases in Europe attending to the urban structure of the area the architectural quality the functional diversity and the quality of the public space generated in the surrounding area **ICEMME 2022** Nikolaos Freris,Qinghai Li,Harsh Kumar,2023-02-15 It is our great pleasure to have you at the 2022 4th International Conference on Economic Management and Model Engineering ICEMME 2022 which was held in Nanjing China from November 18th to 20th virtual event It is an international forum for academic communications between experts and scholars in the fields of economic management and model engineering The main objective of ICEMME 2022 is to provide a platform to deliberate latest developments and future directions in the fields of economic management and model engineering The conference provided opportunities for the delegates to exchange research ideas and scientific information and established business or research relations for all participants to find global partners for future collaboration Emperor and Ancestor David Faure,2007-03-01 This book summarizes twenty years of the author's work in historical anthropology and documents his

argument that in China ritual provided the social glue that law provided in the West The book offers a readable history of the special lineage institutions for which south China has been noted and argues that these institutions fostered the mechanisms that enabled south China to be absorbed into the imperial Chinese state first by introducing rituals that were acceptable to the state and second by providing mechanisms that made group ownership of property feasible and hence made it possible to pool capital for land reclamation projects important to the state Just as taxation defense and recognition came together with the emergence of powerful lineages in the sixteenth century their disintegration in the late nineteenth century signaled the beginnings of a new Chinese state **The Making of Cantonese Society in Late Imperial China** Wing-Kai To,1996

Honorable Merchants Richard John Lufrano,1997-01-01 In light of East Asia s current economic success it has become increasingly clear that Confucian social thought long assumed in Western scholarship to be a major stumbling block to economic development can under the proper circumstances have exactly the opposite effect Lufrano s study is the most sustained and sophisticated of recent reevaluations of Confucianism s role in the rapid commercial development in the late Ming to mid Qing period It will be of great interest and value to scholars in the growing field of Chinese business history and should be welcomed by those interested in the Confucian roots of Pacific Rim business practice *China's Greater Bay Area* Jerry Patchell,2023-10-31 China s Greater Bay Area GBA previously referred to as the Pearl River Delta is one of the world s largest mega city regions and China s foremost technological economic social and cultural node Patchell integrates agglomeration concepts with the GBA s distinctive features to explain the region s rise innovativeness and resilience He reveals how the GBA works as differentiated and interdependent systems providing a window into the GBA and China while also providing the basis for a comparative approach to mega cities and mega regions Key topics discussed in the book include The early development of the GBA its mix of indigenous and exogenous investments and expertise and the forces that compelled its upgrading from process manufacturing The regional strengths in clusters transportation networks and regional innovation system The role of multi level governance in balancing national directives municipal autonomy and regional complementarities Consequences of the GBA s agglomeration for land allocation planning social structure and mobility communities sustainable development and resilience for the future Written in an accessible yet rigorous manner this textbook is ideal for a course on this important region for comparative courses on agglomeration and large scale urban development and for people wanting a greater understanding of urban processes and China **Beyond Urbanism** Peter Herrle,Josefine Fokdal,Detlev Ipsen,2014 Accompanying DVD contains the short documentary film The Village and the megacity directed by Jacob Ipsen Detlev Ipsen idea concept Detlev Ipsen [A.T.A. Journal](#) ,2002 [East Asia in the World](#) Anne Prescott,2015-05-15 From the Foundations in Global Studies series this text offers students a fresh comprehensive multidisciplinary entry point to East Asia After a brief introduction to the study of East Asia the early chapters of the book survey the essentials of East Asian history important historical narratives and the region s languages religions and global

connections Students are guided through the material with relevant maps resource boxes and text boxes that support and guide further independent exploration of the topics at hand The second half of the book features interdisciplinary case studies each of which focuses on a specific country or region and a particular issue Each chapter gives a flavor for the cultural distinctiveness of the particular country yet also draws attention to global linkages Readers will come away from this book with an understanding of the larger historical political and cultural frameworks that shaped East Asia as we know it today and of current issues that have relevance in Asia and beyond
