Chinas Past Chinas Future Asias Transformationscritical Asian Scholarship:

China's Past, China's Future Vaclav Smil,2004-03-01 China has a population of 1.3 billion people which puts strain on her natural resources. This volume by one of the leading scholars on the earth's biosphere is the result of a lifetime of study and provides the fullest account yet of the environmental challenges that China faces. The author examines China's energy resources, their uses, impacts, and prospects from the 1970s oil crisis to the present day, before analysing the key question of how China can best produce enough food to feed its enormous population. Transnational Trajectories in East Asia

Yasemin Nuhoğlu Soysal,2014-11-20 In recent decades East Asia has become increasingly interconnected through trade, investment, migration, and popular culture at regional and global levels. At the same time, the region has seen renewed national assertiveness and nationalist impulses. The book interrogates these seemingly contradictory developments as they bear on the transformations of the nation and citizenship in East Asia. Conventionally, studies on East Asia juxtapose these developments, focusing on the much exercised dichotomy of the national and transnational. In contrast, this book suggests a different orientation. First, it moves beyond the simplistic view that demarcates the transnational as the West. Second, it does not view the national and transnational as distinct or contradictory spheres of influence and analysis, but rather focuses on the interactions between the two, with a view on how these interactions work to transform the ideals and practices of the good nation, good society, and good citizen. The chapters cover a broad range of empirical research: education, science, immigration, multicultural policy, human rights, gender, and youth, orientations, art, and food flows, politics of values, and regional identity, which highlight the ways in which the nation is reconfigured and the relationship between the citizen and national collective is redefined in relation to transnational dynamics and frameworks. Transnational Trajectories in East Asia provides a new perspective on and original analysis of transnational processes, bringing a fresh understanding to developments of the nation and citizenship in the region. It will be of great interest to students and scholars of transnationalization and globalization, comparative citizenship, migration, and multiculturalism, and Asian politics, society, and regionalism. **Japan's Quiet Transformation**

Jeff Kingston,2004 The 1990s have been termed as Japan's lost decade to describe how the phenomenal growth in the Japanese economy ground to a halt and the country was crippled by enormous and ongoing political, economic, and social problems. In responding to these unprecedented difficulties, wide-ranging reforms have been adopted, including NPO, information disclosure, and judicial reform legislation. Controversially, this book argues that such reforms are creating a more robust civil society and demonstrate that Japan is far more dynamic than is generally recognized. *The Battle for Asia*

Mark T. Berger,2004-03 This book is a history of the Asian region from 1945 to the present day, which delineates the various ideological battles over Asia's development. **The Resurgence of East Asia**

Giovanni Arrighi, Takeshi Hamashita, Mark Selden,2004-02-24 The East Asian expansion since the 1960s stands out as a global power shift with few historical precedents. The Resurgence of East Asia examines the rise of the region as one of the

world's economic power centres from three temporal perspectives 500 years 150 years and 50 years each denoting an epoch in regional and world history and providing a vantage point against which to assess contemporary developments

Ethnicity in Asia Colin Mackerras, 2003-09-02 This book is designed as a comprehensive comparative introduction to ethnicity in East and Southeast Asia since 1945 Each chapter covers a particular country looking at such core issues as the ethnic minorities or groups in the country of concern how many ethnic groups population language and culture group they belong to traditional religions and arts government policy towards the ethnic minorities or groups the economies of the ethnic minorities or groups and the relation with the national economy problems of national integration caused by the ethnic minorities or groups the impact of ethnic issues on the country's overall foreign relations *Chinese Society* Elizabeth J. Perry, Henry Rosovsky Professor of Government Elizabeth J Perry, Mark Selden, 2003-09-02 Written by an interdisciplinary and international team of Chinese scholars this book offers an authoritative analysis of contemporary Chinese society protest and resistance

Singapore Carl A. Trocki, 2006 This volume examines Singapore's culture of control exploring the city state's colonial heritage as well as the forces that have helped to mould its current social landscape Taking a comparative approach Trocki demonstrates the links between Singapore's colonial past and independent present focusing on the development of indigenous social and political movements In particular the book examines the efforts of Lee Yew Kuan leader of the People's Action Party from 1959 until 1990 to produce major economic and social transformation Trocki discusses how Singapore became a workers paradise but what the city gained in material advancement it paid for in intellectual and cultural sterility Based on the latest research Singapore addresses the question of control in one of the most prosperous and dynamic economies in the world providing a compelling history of post colonial Singapore

China, East Asia and the Global Economy Takeshi Hamashita, 2013-05-13 Takeshi Hamashita arguably Asia's premier historian of the longue durée has been instrumental in opening a new field of inquiry in Chinese East Asian and world historical research Engaging modernization Marxist and world system approaches his wide ranging redefinition of the evolving relationships between the East Asia regional system and the world economy from the sixteenth century to the present has sent ripples throughout Asian and international scholarship His research has led him to reconceptualize the position of China first in the context of an East Asian regional order and subsequently within the framework of a wider Euro American Asian trade and financial order that was long gestating within and indeed contributing to the shape of the world market This book presents a selection of essays from Takeshi Hamashita's oeuvre on Asian trade to introduce this important historian's work to the English speaking reader It examines the many critical issues surrounding China and East Asia's incorporation to the world economy including Maritime perspectives on China Asia and the world economy Intra Asian trade Chinese state finance and the tributary trade system Banking and finance Maritime customs

Remaking China's Great Cities Samuel Y. Liang, 2014-07-25 China's rapid urbanization has restructured the great socialist cities Beijing Shanghai and Guangzhou into mega cities that embrace global capitalism This book focuses on the urban transformations of these three cities Beijing is the nation's political and cultural capital Shanghai is the economic and financial powerhouse and Guangzhou is the capital of Guangdong Province and the regional center of south China All are historical cities with rich imperial colonial and regional heritages and all have been drastically transformed in the last six decades This book examines the cities continuous urban legacies since 1949 in relation to state governance economic reforms and cultural production By adopting local historical perspectives it offers more nuanced accounts of the current urban change than the modernization globalization paradigm and conceptualizes the change in the context of the cities socialist colonial and imperial legacies Specifically Samuel Y Liang offers an overview of the urban planning and territorial expansion of the great cities since 1949 explores the production and consumption of urban housing its spatial forms media representations and socio political implications and examines the state led redevelopment of old urban cores and residential neighborhoods and the urban conservation movement Remaking China's Great Cities will be of great interest to students and scholars working across a range of fields including Chinese studies Chinese culture and society urban studies and architecture

Confronting the Bush Doctrine Melvin Gurtov, Peter Van Ness, 2005 Accessibly written and including satirical cartoons this remarkable book focuses on the Bush Doctrine in Asia and examines how the Bush initiatives are received and reacted to in Asia

Working in China Ching Kwan Lee, 2006-10-03 After a quarter of a century of market reform China has become the workshop of the world and the leading growth engine of the global economy Its immense labour force accounts for some twenty nine per cent of the world's total labour pool but all too little is known about Chinese labour beyond the image of workers toiling under appalling sweatshop conditions for extremely low wages Working in China introduces the lived experiences of labour in a wide range of occupations and work settings The chapters of this book cover professional employees such as engineers and lawyers service workers such as bar hostesses domestic maids and hotel workers and industrial workers in a variety of factories The mosaic of human faces organizational dynamics and workers voices presented in the book reflect the complexity of changes and challenges taking place in the Chinese workplace today Based on extraordinary and thorough field research this book will have a wide readership at undergraduate level and beyond appealing to students and scholars from a myriad of disciplines including Chinese studies labour studies sociology and political economy

The San Francisco System and Its Legacies Kimie Hara, 2014-11-20 In September 1951 Japan signed a peace treaty with forty eight countries in San Francisco in April 1952 the treaty came into effect The San Francisco Peace Treaty is an international agreement that in significant ways shaped the post World War II international order in the Asia Pacific With its associated security arrangements it laid the foundation for the regional structure of Cold War confrontation the San Francisco System fully

reflected the strategic interests and policy priorities of the peace conference's host nation the United States. The treaty fell far short of settling outstanding issues in the wake of the Pacific War or facilitating a clean start for the post-war period. Rather, critical aspects of the settlement were left equivocal and continue to have significant and worrisome implications for regional international relations. This book examines the key developments of the contentious political and security issues in the Asia Pacific that share a common foundation in the post-war disposition of Japan, particularly the San Francisco Peace Treaty. These include both tangible and intangible issues such as disputes over territories and history problems. Taking the San Francisco System as its conceptual grounding, the authors examine how these issues developed and have remained contentious long after the San Francisco arrangements. To provide bases for producing solutions, the chapters offer comprehensive accounts that explain and deepen our understanding of these complex regional issues and the San Francisco System as a whole. By closely and systematically examining the legacy and various ramifications of the San Francisco System, this fascinating book adds to our understanding of current and growing tensions in the region. As such, it will be of great interest to students and scholars of Asian studies, history, international relations, and politics.

Genders, Transgenders and Sexualities in Japan Mark McLelland, Romit Dasgupta, 2005-12-20. Incorporating Japanese language materials and field-based research, this compelling collection of essays takes a comparative look at the changing notions of gender and sexual diversity in Japan, considering both heterosexual and non-heterosexual histories, lifestyles, and identities. Written by key Japanese authors and Western scholars, the volume examines how non-conformist individuals have questioned received notions and challenged social norms relating to sex and gender. The chapters depict the plurality of gender positions from housewives opposed to gender roles within marriage to heterosexual men wishing to be more involved in family life. Including material not previously published in English, this volume gives an overview of the important changes taking place in gender and sexuality studies within Japanese scholarship.

The Body in Postwar Japanese Fiction Douglas Slaymaker, 2004-08-02. This book explores one of the crucial themes in postwar Japanese fiction. Through an examination of the work of a number of prominent twentieth-century Japanese writers, the book analyses the meaning of the body in postwar Japanese discourse, the gender constructions of the imagery of the body, and the implications for our understanding of individual and national identity. This book will be of interest to all students of modern Japanese literature.

China Joseph Esherick, C.X. George Wei, 2013-12-17. The Qing dynasty was China's last, and it created an empire of unprecedented size and prosperity. However, in 1911 the empire collapsed within a few short months, and China embarked on a revolutionary course that lasted through most of the twentieth century. The 1911 Revolution ended two millennia of imperial rule and established the Republic of China, but dissatisfaction with the early republic fuelled further revolutionary movements, each intended to be more thoroughgoing than the last, from the National Revolution of the 1920s to the Communist Revolution, and finally the Cultural Revolution. On the centenary of the 1911 Revolution, Chinese scholars debated the causes and significance of the empire's

collapse and this book presents twelve of the most important contributions Rather than focusing on Sun Yat sen s relatively weak and divided revolutionary movement as much previous scholarship has these studies examine the internal dynamics of political and socio economic change in China The chapters reveal how reforms in education army organization and constitutional rule created new social forces and political movements that undermined dynastic legitimacy within China and on its frontiers Through detailed analyses using new archival memoir diary and newspaper sources the authors cast new light on the sudden collapse of an empire that many thought was at last embarked on a road to reform and national rejuvenation China How the Empire Fell will be of huge interest to students and scholars of modern Chinese history as well as those of contemporary China

Technology, Gender and History in Imperial China Francesca Bray, 2013-06-19 What can the history of technology contribute to our understanding of late imperial China Most stories about technology in pre modern China follow a well worn plot in about 1400 after an early ferment of creativity that made it the most technologically sophisticated civilisation in the world China entered an era of technical lethargy and decline But how are we to reconcile this tale which portrays China in the Ming and Qing dynasties as a dying giant that had outgrown its own strength with the wealth of counterevidence affirming that the country remained rich vigorous and powerful at least until the end of the eighteenth century Does this seeming contradiction mean that the stagnation story is simply wrong or perhaps that technology was irrelevant to how imperial society worked Or does it imply that historians of technology should ask better questions about what technology was what it did and what it meant in pre modern societies like late imperial China In this book Francesca Bray explores subjects such as technology and ethics technology and gendered subjectivities both female and male and technology and statecraft to illuminate how material settings and practices shaped topographies of everyday experience and ideologies of government techniques of the self and technologies of the subject Examining technologies ranging from ploughing and weaving to drawing pictures building a house prescribing medicine or composing a text this book offers a rich insight into the interplay between the micro and macro politics of everyday life and the workings of governmentality in late imperial China showing that gender principles were woven into the very fabric of empire from cosmology and ideologies of rule to the material foundations of the state and the everyday practices of the domestic sphere This authoritative text will be welcomed by students and scholars of Chinese history as well as those working on global history and the histories of gender technology and agriculture Furthermore it will be of great use to those interested in social and cultural anthropology and material culture

China's Past, China's Future Vaclav Smil, 2004-03 China has a population of 1.3 billion people which puts enormous strain on her natural resources This volume by one of the leading scholars on the earth s biosphere provides the fullest account yet of the environmental challenges that China faces

The Political Economy of Affect and Emotion in East Asia Jie Yang, 2014-05-09 When thinking about the culture and economy of East Asia many attribute to the region a range of dispositions including a preference for consensus and social harmony loyalty and respect towards superiors and

government family values collectivism and communitarianism Affect is central to these concepts and yet the role of affect and its animated or imagined potentialities in the political economy of East Asia has not been systematically studied The book examines the affective dimensions of power and economy in East Asia It illuminates the dynamics of contemporary governance and ways of overcoming common Western assumptions about East Asian societies Here affect is defined as felt quality that gives meaning and imagination to social political and economic processes and as this book demonstrates it can provide an analytical tool for a nuanced and enriched analysis of social political and economic transformations in East Asia Through ethnographic and media analyses this book provides a framework for analyzing emerging phenomena in East Asia such as happiness promotion therapeutic governance the psychologization of social issues the rise of self help genres transnational labor migration new ideologies of gender and the family and mass mediated affective communities Through the lens of affect theory the contributors explore changing political configurations economic engagements modes of belonging and forms of subjectivity in East Asia and use ethnographic research and discourse analysis to illustrate the affective dimensions of state and economic power and the way affect informs and inspires action This interdisciplinary book will be of great interest to students and scholars of Asian studies anthropology sociology media studies history cultural studies and gender and women s studies
