Chinas Unruly Journalists Professionals Contemporary Ebook:

China's Unruly Journalists Jonathan Hassid, 2015-12-22 Despite operating in one of the most tightly controlled media environments in the world Chinese journalists sometimes take extraordinary risks braving the perils of job loss or imprisonment to report sensitive stories As a result a group of journalists stands at the forefront of some of China's most dramatic social and political changes This book is the first to systematically explore why some Chinese journalists decide to challenge Communist Party power holders and the censorship system Based on 18 months of fieldwork interviews with over 70 Chinese journalists and academics and analysis of nearly 20 000 Chinese newspaper articles it investigates the motivation behind news workers who often brave the perils of challenging an authoritarian system Rather than being driven by commercial pressures or financial inducements the book suggests that many aggressive journalists push the limits of acceptable coverage because of their sense of public spirit and their professional role orientation It argues that ultimately these advocate journalists matter because they challenge specific policies and are changing China one article at a time By investigating these path breaking journalists the book engages with literature across the social sciences on contentious politics and social movements political communication media theory and the sociology of professions Therefore it will be of great interest to students and scholars of Chinese Studies Politics and Media Studies **China's Unruly Journalists**

Jonathan Hassid, 2016 Despite operating in one of the most tightly controlled media environments in the world Chinese journalists sometimes take extraordinary risks braving the perils of job loss or imprisonment This book addresses why this group of journalists choose to challenge their bosses and at times even the immense power of the Chinese Communist Party It argues that news workers often brave the perils of challenging an authoritarian system not because of market concerns but because they are driven by a particular professional orientation the author calls advocacy professionalism Ultimately these journalists matter because they challenge specific policies and are changing China *Media Politics in China* Maria

Repnikova, 2017-06-15 Maria Repnikova offers an innovative analysis of the media oversight role in China by examining how a volatile partnership is sustained between critical journalists and the state **China Ink** Judy Polumbaum, Lei

Xiong, 2008-05-29 This lively book explores changes in contemporary China through the compelling personal accounts of young Chinese journalists Through a series of engaging oral histories Judy Polumbaum puts a human face on vital issues of freedom of expression and information that will chart China's future *The Chinese Journalist* Hugo Burgh, 2004-03 An

intriguing introduction to Chinese journalists and their roles within society offering a background history of journalists and the media in Communist China and examining the origins and development of Chinese journalism Reporting for China Pál

Nyíri, 2017-04-11 While Western media are shrinking their foreign correspondent networks Chinese media for the first time in history are rapidly expanding worldwide The Chinese government is financing most of this growth hoping to strengthen its influence and improve its public image But do these reporters willingly serve formulated agendas or do they follow their own

interests And are they changing Chinese citizens views of the world Based on interviews and informal conversations with over seventy current and former correspondents Reporting for China documents a diverse group of professionals who hold political views from nationalist to liberal but are constrained in their ability to report on the world by China s media control audience tastes and the declining market for traditional media **Changing Media, Changing China** Susan L.

Shirk,2010-12-07 Thirty years ago the Chinese Communist Party CCP made a fateful decision to allow newspapers magazines television and radio stations to compete in the marketplace instead of being financed exclusively by the government The political and social implications of that decision are still unfolding as the Chinese government media and public adapt to the new information environment Edited by Susan Shirk one of America s leading experts on contemporary China this collection of essays brings together a who s who of experts Chinese and American writing about all aspects of the changing media landscape in China In detailed case studies the authors describe how the media is reshaping itself from a propaganda mouthpiece into an agent of watchdog journalism how politicians are reacting to increased scrutiny from the media and how television newspapers magazines and Web based news sites navigate the cross currents between the open marketplace and the CCP censors China has over 360 million Internet users more than any other country and an astounding 162 million bloggers The growth of Internet access has dramatically increased the information available the variety and timeliness of the news and its national and international reach But China is still far from having a free press As of 2008 the international NGO Freedom House ranked China 181 worst out of 195 countries in terms of press restrictions and Chinese journalists have been aptly described as dancing in shackles The recent controversy over China s censorship of Google highlights the CCP s deep ambivalence toward information freedom Covering everything from the rise of business media and online public opinion polling to environmental journalism and the effect of media on foreign policy Changing Media Changing China reveals how the most populous nation on the planet is reacting to demands for real news **The Contentious Public Sphere** Ya-Wen

Lei,2019-09-03 Using interviews newspaper articles online texts official documents and national surveys Lei shows that the development of the public sphere in China has provided an unprecedented forum for citizens to organize influence the public agenda and demand accountability from the government **The Chinese Journalist** Hugo de Burgh,2003 *Journalism*

and Communication in China and the West Bing Tong,2021-01-24 This book sheds new light on the study of journalism and communication considering why and how journalism is studied in the 21st century It notably offers both an international and interdisciplinary comparison of journalism and communication examining the history of Chinese and Western journalism and addressing the similarities and differences between them Focusing on the education and training of future journalists it also provides a comprehensive study of news coverage systems in China and in Western countries including the processing of news sources attitudes towards news communication and comparative communication scholarship Researchers of media and journalism will find this a key read as well as practicing journalists and students of journalism
