China's Coercion of States in the Asia-Pacific Region Maximilian Ernst, 2025-02-11 This book explains why China chooses to coerce Asia Pacific regional states despite the risk of such actions creating a backlash and complicating its strategic calculus China's coercion of neighboring states often a variation of heavy informal economic sanctions combined with diplomatic pressure and gray zone coercive measures has been increasingly observable in the past decade It has become an important tool in China's foreign policy toolbox and is frequently used by Beijing to shape the security political environment of the Asia Pacific The book begins with an appreciation of China's complicated geopolitical exposition and an understanding that such coercion creates backlash since the target state will likely be alienated and pushed into closer security cooperation with the United States China's main geopolitical rival Through two in depth case studies of Chinese coercion targeting the Philippines and South Korea respectively the book demonstrates that first the reason China coerces is that the secondary state engages in actions that fundamentally threaten China's security interests and second it will coerce these states only if other policy options geared to change the secondary state's course of action have not worked Employing balance of power theory and particularly wedge strategies the book solves a pertinent research question and improves our knowledge of contemporary security politics in the Asia Pacific This book will be of interest to students scholars and practitioners of Asia Pacific security Chinese foreign policy and international relations

**China's Futures** Daniel C. Lynch, 2015-03-11 China's Futures cuts through the sometimes confounding and unfounded speculation of international pundits and commentators to provide readers with an important yet overlooked set of complex views concerning China's future views originating within China itself Daniel Lynch seeks to answer the simple but rarely asked question how do China's own leaders and other elite figures assess their country's future Many Western social scientists business leaders journalists technocrats analysts and policymakers convey confident predictions about the future of China's rise Every day the business political and even entertainment news is filled with stories and commentary not only on what is happening in China now but also what Western experts confidently think will happen in the future Typically missing from these accounts is how people of power and influence in China itself imagine their country's developmental course Yet the assessments of elites in a still super authoritarian country like China should make a critical difference in what the national trajectory eventually becomes In China's Futures Lynch traces the varying possible national trajectories based on how China's own specialists are evaluating their country's current course and his book is the first to assess the strengths and weaknesses of predictioneering in Western social science as applied to China It does so by examining Chinese debates in five critical issue areas concerning China's trajectory the economy domestic political processes and institutions communication and the Internet arrival of the network society foreign policy strategy and international soft power cultural competition

*The Russia-Ukraine War and the Global South's Sovereignty Paradox* Raj Verma, 2025-06-04 This book examines the sovereignty paradox in the Global South within the context of the Russia Ukraine war It illustrates the contradiction that countries which helped establish the post World War II norm of equal sovereignty entitling all nations to the same respect for sovereignty and territorial integrity as the West are reluctant to publicly condemn Russia's infringement on Ukraine's sovereignty The chapters in this volume further highlight the Global South's duplicity because the Global South has been extremely critical of the US led West for

violating the United Nations Charter international law and compromising on the sovereignty and territorial integrity of countries in the Global South Through the analysis of nine countries the contributions discuss each nation s foreign policy tenets and how they have been violated in their stance on the Russia Ukraine war and the justifications for such deviations It also illustrates that cherry picking is the norm that states have adopted in employing the concept of sovereignty and this is likely to continue in the future This book will be of interest to students scholars analysts and policymakers in the fields of international relations political science geopolitics and Global South studies The chapters in this book were originally published as a special issue of Contemporary Security Policy

The Formation of Japan-ROK Security Relations Kyungwon Choi,2024-12-31 This open access book argues that Japan ROK security relations were formed in the process of adjusting the threat perception gap and policy conflict between the two countries Conventional analyses using a cooperation or conflict dichotomy are too limited to capture the complex coordination of interests that security relations entail In comparison this book focuses on how as they interacted on security concerns Japan and the ROK had different threat perceptions and foreign policy orientations that resulted in friction over the means and methods of responses and shines a light on the changes apparent in the adjustment process The author aims to elucidate how Japan and the ROK approached security cooperation over the period from the late 1960s to the mid 1970s As Japan and the ROK looked to reconcile the differing political positions involved in these security and d tente requirements they explored and began to show new developments in bilateral security cooperation This book provides a new perspective on Japan ROK security relations and through this lens a broader view of international relations in East Asia It also proves useful in understanding bilateral cooperation in the security field following the normalization of diplomatic relations between the two countries

*Hu Jintao* Kerry Brown,2012 Over the six month period from late 2012 to early 2013 Hu Jintao the President of the People s Republic of China Chair of the Central Military Commission and Party Secretary of the Chinese Communist Party CCP will relinquish at least two of his three positions According to the constitution of the CCP his time as Party head will come to an end given that he has already served for two terms Well over the supposed retirement age of 68 he will have to hand over the leadership of China to a new generation of leaders at the 18th Party Congress in Beijing In Chinese politics the act of retirement is surprisingly difficult but Hu Jintao is widely known for his reserve and reticence there is little doubt that he could disappear into a quiet and anonymous retirement if he so desires This timely volume thus aims to provide an analytical assessment of Hu s period in charge of the world s most populous country It concentrates briefly on his early life and entry into politics then considers and evaluates his stewardship of the economy and of international affairs as well as his ideological contribution and leadership of the communist party In the process the reader will also be afforded a broad overview of China s rapid developments over the last decade since 2002
