Chinese Collaboration with Japan, 1932-1945 David P. Barrett, Lawrence N. Shyu, 2001 Recent release of archival material in China and Taiwan has made possible this book the first comprehensive treatment of Sino Japanese collaboration at the level of both state and of society

Contested Memories in Chinese and Japanese Foreign Policy Matteo Dian, 2017-01-10 *Contested Memories in Chinese and Japanese Foreign Policy* explores the issue of memory and lack of reconciliation in East Asia As main East Asian nations have never achieved a common memory of their pasts in particular the events of the Second World War and Sino Japanese War this book locates the issue of memory within International Relations theory exploring the theoretical and practical link between the construction of a country's identity and the formation and contestation of its historical memory and foreign policy Provides an innovative theoretical framework Draws connections between the role of memory and foreign policy Uses the interpretative theory of international relations Gives comparative perspective using the cases of China and Japan Presents in depth analysis of the construction and contestation of national memory in China and Japan

China's Muslims and Japan's Empire Kelly A. Hammond, 2020-09-30 In this transnational history of World War II Kelly A Hammond places Sino Muslims at the center of imperial Japan's challenges to Chinese nation building efforts Revealing the little known story of Japan's interest in Islam during its occupation of North China Hammond shows how imperial Japanese aimed to defeat the Chinese Nationalists in winning the hearts and minds of Sino Muslims a vital minority population Offering programs that presented themselves as protectors of Islam the Japanese aimed to provide Muslims with a viable alternative and at the same time to create new Muslim consumer markets that would the Japanese hoped act to subvert the existing global capitalist world order and destabilize the Soviets This history can be told only by reinstating agency to Muslims in China who became active participants in the brokering and political jockeying between the Chinese Nationalists and the Japanese Empire Hammond argues that the competition for their loyalty was central to the creation of the ethnoreligious identity of Muslims living on the Chinese mainland Their wartime experience ultimately helped shape the formation of Sino Muslims religious identities within global Islamic networks as well as their incorporation into the Chinese state where the conditions of that incorporation remain unstable and contested to this day

The Wars for Asia, 1911-1949 S. C. M. Paine, 2014-10-09 *The Wars for Asia 1911 1949* shows that the Western treatment of World War II the Second Sino Japanese War and the Chinese Civil War as separate events misrepresents their overlapping connections and causes The Chinese Civil War precipitated a long regional war between China and Japan that went global in 1941 when the Chinese found themselves fighting a civil war within a regional war within an overarching global war The global war that consumed Western attentions resulted from Japan's peripheral strategy to cut foreign aid to China by attacking Pearl Harbour and Western interests throughout the Pacific in 1941 S C M Paine emphasizes the fears and ambitions of Japan China and Russia and the pivotal decisions that set them on a collision course in the 1920s and 1930s The resulting wars

together yielded a viscerally anti Japanese and unified Communist China the still angry rising power of the early twenty first century

Chinese Government Leaders in Manchukuo, 1931-1937 Jianda Yuan,2023-04-21 Drawing on historiography of the Japanese occupation in the Chinese Japanese and English languages this book examines the politics of the Manchukuo puppet state from the angle of notable Chinese who cooperated with the Japanese military and headed its government institutions The war in Asia between 1931 and 1945 and particularly the early years of the conflict from 1931 to 1937 is a topic of world history that is often glossed over or misinterpreted Much of the research and public opinion on this period in China Japan and the West deem these Chinese figures to be traitors particles of Japanese colonialism and collaborators under occupation In contrast this book highlights the importance of analyzing the national ideas of Manchukuo s Chinese government leaders as a method of understanding Manchukuo s operating mechanisms Sino Japanese interactions and China s turbulent history in the early twentieth century Chinese Government Leaders in Manchukuo 1931 1937 fills a gap in this research and is an ideal resource for scholars studying wartime Asia and Europe as well as non specialist readers who are interested in collaboration in general

The Currents of War Sidney L. Pash,2014-01-28 From 1899 until the American entry into World War II U S presidents sought to preserve China s territorial integrity in order to guarantee American businesses access to Chinese markets a policy famously known as the open door Before the Russo Japanese War in 1904 Americans saw Japan as the open door s champion but by the end of 1905 Tokyo had replaced St Petersburg as its greatest threat For the next thirty six years successive U S administrations worked to safeguard China and contain Japanese expansion on the mainland The Currents of War reexamines the relationship between the United States and Japan and the casus belli in the Pacific through a fresh analysis of America s central foreign policy strategy in Asia In this ambitious and compelling work Sidney Pash offers a cautionary tale of oft repeated mistakes and miscalculations He demonstrates how continuous economic competition in the Asia Pacific region heightened tensions between Japan and the United States for decades eventually leading to the attack on Pearl Harbor on December 7 1941 Pash s study is the first full reassessment of pre World War II American Japanese diplomatic relations in nearly three decades It examines not only the ways in which U S policies led to war in the Pacific but also how this conflict gave rise to later confrontations particularly in Korea and Vietnam Wide ranging and meticulously researched this book offers a new perspective on a significant international relationship and its enduring consequences

Chinese Capitalists in Japan's New Order Parks Coble,2003-04-01 In this probing and original study Parks M Coble examines the devastating impact of Japan s invasion and occupation of the lower Yangzi on China s emerging modern business community Arguing that the war gravely weakened Chinese capitalists Coble demonstrates that in occupied areas the activities of businessmen were closer to collaboration than to heroic resistance He shows how the war left an important imprint on the structure and culture of Chinese business enterprise by encouraging those traits that had allowed it to survive in uncertain and dangerous times Although historical memory emphasizes the

entrepreneurs who followed the Nationalists armies to the interior most Chinese businessmen remained in the lower Yangzi area. If they wished to retain any ownership of their enterprises they were forced to collaborate with the Japanese and the Wang Jingwei regime in Nanjing. Characteristics of business in the decades prior to the war including a preference for family firms and reluctance to become public corporations, distrust of government, opaqueness of business practices and reliance of personal connections (*guanxi*) were critical to the survival of enterprises during the war and were reinforced by the war experience. Through consideration of the broader implications of the many responses to this complex era, Chinese Capitalists in Japan's New Order makes a substantial contribution to larger discussions of the dynamics of World War II and of Chinese business culture.

Re-understanding Japan Lu Yan, 2004-04-30. To many Chinese the rise and expansion of Japanese power during the years between the two Sino-Japanese wars, 1895-1945, presented a paradox. With its successful modernization, Japan became a model to be emulated, yet as the country's imperial ambitions on the continent grew, it posed an ever-increasing threat. Drawing on an extraordinary array of source materials, Lu Yan shows that this attraction to and apprehension of Japan prompted the Chinese to engage in a variety of long-term relationships with the Japanese. *Re-understanding Japan* examines transnational and transcultural interactions between China and Japan during those five dramatic and tragic decades at the intimate level of personal lives and behavior. At the center of Lu's inquiry are four diverse yet significant case studies: military strategist Jiang Baili, literary critic and essayist Zhou Zuoren, Guomindang leader Dai Jitao, and romantic poet turned Communist Guo Moruo. In their public and private lives, these influential Chinese formed lasting ties with Japan and the Japanese. While their writings reached the Chinese public through the print mass media and served to enhance popular understanding of Japan and its culture, their activities in political, cultural, and diplomatic affairs paralleled significant turns in Sino-Japanese relations. Based on archival documents, personal memoirs, correspondence, interviews, and contemporary literary works, *Re-understanding Japan* delineates diverse approaches in Chinese efforts to engage Japan in China's modern reforms.

Sino-Japanese Transculturation Richard King, Cody Poulton, Katsuhiko Endo, 2012-01-01. This is a multi-author work which examines the cultural dimensions of the relations between East Asia's two great powers, China and Japan, in a period of change and turmoil from the late nineteenth century to the end of the Second World War. This period saw Japanese invasion of China, the occupation of China's North-east Manchuria and Taiwan, and war between the two nations from 1937-1945. The scars of that war are still evident in relations between the two countries today. In their quest for modernity, the rulers and leading thinkers of China and Japan defined themselves in contradistinction to the other, influenced both by traditional bonds of classical culture and by the influx of new Western ideas that flowed through Japan to China. The experiences of intellectual and cultural awakening in the two countries were inextricably linked, as our studies of poetry

fiction philosophy theatre and popular culture demonstrate The chapters explore this process of transculturation the sharing and exchange of ideas and artistic expression not only in Japan and China but in the larger region which Joshua Fogel has called the Sinosphere an area including Korea and parts of Southeast Asia with a shared heritage of Confucian statecraft and values underpinned by the classical Chinese language The authors of the chapters who include established senior academics and younger scholars and employ a range of disciplines and methodologies were selected by the editors for their expertise in particular aspects of this rich and complex cultural relationship As for the editors Richard King and Cody Poulton are scholars and translators of Chinese literature and Japanese theatre respectively each taking a historical and comparative perspective to the study of their subject Katsuhiko Endo is an intellectual historian dealing with both Japan and China

Minorities in Global History Holger Weiss,2024-04-04 This collection analyses the concept of minority and minorities in global history Taking transnational transregional and comparative approaches it explores narratives of inclusion and exclusion both conceptually and through case studies Exploring examples of marginalization in Imperial Russia early 20th century Korea WWII China and Postcolonial Africa amongst others the chapters in this volume seek to understand the entanglements of fluid minorities and native populations in various historical settings They explore dynamics between nation states and empires minority majority processes in post imperial and post Soviet contexts fourth world perspectives and transnational minority movements Taken together the contributions to this collection address the exposure to and challenge of historical and contemporary treatments of marginalization exclusion belonging and inclusion in global history

The United States and China Dong Wang,2021-07-28 Now fully revised and updated The United States and China offers a comprehensive synthesis of US Chinese relations from initial contact to the present Balancing the modern 1784 1949 and contemporary 1949 present periods Dong Wang retraces centuries of interaction between two of the world s great powers from the perspective of both sides She examines state to state diplomacy as well as economic social military religious and cultural interplay within varying national and international contexts As China itself

continues to grow in global importance so too does the US Chinese relationship and this book provides an essential grounding for understanding its past present and possible futures *The Logic of Chinese Politics* Sabrina Ching Yuen Luk, Peter W. Preston, 2016-09-30 Europe and China have a long intermingled history reaching back to the earliest phases of the shift to the modern world In the twenty first century Europe and China are rediscovering their interlinked histories and reestablishing relationships One aspect of this process involves cutting through received images of China and this book presents a clear concise scholarly review of the logic of Chinese politics **The Japanese Empire** S. C. M. Paine, 2017-03-06 The Japanese experience of war from the late nineteenth to the mid twentieth century presents a stunning example of the meteoric rise and shattering fall of a great power As Japan modernized and became the one non European great power its leaders concluded that an empire on the Asian mainland required the containment of Russia Japan won the First Sino Japanese War 1894 5 and the Russo Japanese War 1904 5 but became overextended in the Second Sino Japanese War 1931 45 which escalated with profound consequences into World War II A combination of incomplete institution building an increasingly lethal international environment a skewed balance between civil and military authority and a misunderstanding of geopolitics explains these divergent outcomes This analytical survey examines themes including the development of Japanese institutions diversity of opinion within the government domestic politics Japanese foreign policy and China's anti Japanese responses It is an essential guide for those interested in history politics and international relations

V.K. Wellington Koo and the Emergence of Modern China Stephen G. Craft, 2021-09-15 Chinese diplomat V K Wellington Koo 1888 1985 was involved in virtually every foreign and domestic crisis in twentieth century China After earning a Ph D from Columbia University Koo entered government service in 1912 intent on revising the unequal treaty system imposed on China in the nineteenth century believing that breaking the shackles of imperialism would bring China into the family of nations His pursuit of this nationalistic agenda was immediately interrupted by Chinese civil war and Japanese imperialism during World War I In the 1930s Koo attempted to use international law to force western powers to honor their treaty obligations to punish Japanese expansion Koo also participated in creating the League of Nations and later the United Nations in the hope that collective security would become reality *Victorious in Defeat* Alexander V. Pantsov, 2023-01-01 An extensively researched comprehensive biography of Chinese Nationalist leader Chiang Kai shek one of the twentieth century's most powerful and controversial figures Chiang Kai shek 1887 1975 led the Republic of China for almost fifty years starting in 1926 He was the architect of a new republican China a hero of the Second World War and a faithful ally of the United States Simultaneously a Christian and a Confucian Chiang dreamed of universal equality yet was a perfidious and cunning dictator responsible for the deaths of over 1.5 million innocent people This critical biography is based on Chiang Kai shek's unpublished diaries his extensive personal files from the Russian archives and the Russian files of his relatives associates and foes Alexander V Pantsov sheds new light on the role played by the Russians in Chiang's rise to

power in the 1920s and throughout his political career and indeed the Russian influence on the Chinese revolutionary movement as a whole as well as on Chiang's complex relationship with top officials of the United States. It is a detailed portrait of a man who ranks with Stalin, Roosevelt, Hitler, Churchill, and Gandhi as leaders who shaped our world. **Peace Studies** Matthew Evangelista, 2005. The academic field of Peace Studies emerged during the Cold War to address the nature and sources of interstate and internal conflict and methods to prevent it and deal with its consequences.

Democratization in China, Korea and Southeast Asia? Kate Xiao Zhou, Shelley Rigger, Lynn T. White III, 2014-01-21. Rapid economic pluralization in East Asia has empowered local and media groups and with this change comes the need to rethink usual notions regarding ways in which democracies emerge or citizens gain more power. Careful examination of current developments in China, Korea, and Southeast Asia shows a need for expansion of our understandings of democracy and democratization. This book challenges traditional ways in which political regimes in local as well as national polities are conceived and labeled. It shows from Asian experiences that democracy and its precursors come in more forms than most liberals have yet imagined. In reviewing recent experiences of countries across East Asia, these chapters show that actual democracies and ostensible democratizations there are less like those in the West than the surprisingly consensual and standard political science of democratization suggests. This book first examines the extreme variation of democracy's meaning in many Asian states that hold contested elections: South Korea, Taiwan, Indonesia, Malaysia, the Philippines, and Thailand. Then it focuses on China. It analyzes a range of grassroots forces driving political change in the People's Republic and it finds both accelerators and brakes in China's political reform process. The contributors show that models for China's political future exist both within and outside the PRC, including in other East Asian states, in localities, and in sectors that already are pushing the limits of the powerful but no longer all-powerful Chinese party-state. With contributions from leading academics in the field, *Democratization in China, Korea and Southeast Asia* will be of interest to students and scholars of Asian politics, comparative politics, and democratization more broadly. Iconographies of Occupation Jeremy E. Taylor, 2021-02-28. *Iconographies of Occupation* is the first book to address how the collaborationist Reorganized National Government (RNG) in Japanese-occupied China sought to visualize its leader Wang Jingwei (1883-1944), the Chinese people, and China itself. It explores the ways in which this administration sought to present itself to the people over which it ruled at different points between 1939, when the RNG was first being formulated, and August 1945, when it folded itself out of existence. What sorts of visual tropes were used in regime iconography and how were these used? What can the intertextual movement of visual tropes and motifs tell us about RNG artists and intellectuals and their understanding of the occupation and the war? Drawing on rarely before used archival records relating to propaganda and a range of visual media produced in occupied China by the RNG, the book examines the means used by this client regime to carve out a separate visual space for itself by reviving prewar Chinese methods of iconography and by adopting techniques, symbols, and visual tropes from the

occupying Japanese and their allies Ultimately however the occupied gaze that was developed by Wang's administration was undermined by its ultimate reliance on Japanese acquiescence for survival In the continually shifting and fragmented iconographies that the RNG developed over the course of its short existence we find an administration that was never completely in control of its own fate or its message *Iconographies of Occupation* presents a thoroughly original visual history approach to the study of a much maligned regime and opens up new ways of understanding its place in wartime China It also brings China under the RNG into dialogue with broader theoretical debates about the significance of the visual in the cultural politics of foreign occupation
