Learning the Ways of Democracy, 2012-05-01 Commitment, Character, and Citizenship Hanan A. Alexander, Ayman K. Agbaria, 2012-05-31 As liberal democracies include increasingly diverse and multifaceted populations the longstanding debate about the role of the state in religious education and the place of religion in public life seems imperative now more than ever The maintenance of religious schools and the planning of religious education curricula raise a profound challenge Too much state supervision can be conceived as interference in religious freedom and as a confinement of the right to cultural liberty Too little supervision can be seen as neglecting the development of the liberal values required to live and work in a democratic society and as abandoning those who within their communities wish to attain a more rigorous education for citizenship and democracy This book draws together leading educationalists philosophers theologians and social scientists to explore issues problems and tensions concerning religious education in a variety of international settings The contributors explore the possibilities and limitations of religious education in preparing citizens in multicultural and multi religious democratic societies

Local Civics with National Purpose J. Spencer Clark, 2021-02-04 This book examines the development of civic education in the United States through the lives of two teachers at Shortridge High School SHS in Indianapolis around 1900 After situating civic education at the turn of the century the book describes the career of Laura Donnan her influences teaching extracurriculars and civic life through the lens of her unique epistemology shaped by negotiating the gendered ideologies of her era Then the book re examines Arthur W Dunn s career focusing on his ten years at SHS and the influence

of Donnan on his popular community civics curriculum and subsequently the 1916 report *The Social Studies in Secondary Education*. Previous scholars have overlooked Dunn's time at SHS viewing it simply as a stepping stone for the progressive educator's career. This book argues that Dunn's time at SHS was pivotal to his career due to influential colleagues primarily Donnan. To conclude Clark discusses the implications of Donnan's epistemology in shaping civic education in the United States.

Making Civics Count David E. Campbell, Meira Levinson, Frederick M. Hess, 2012-10-01 By nearly every measure Americans are less engaged in their communities and political activity than generations past. So write the editors of this volume who survey the current practices and history of citizenship education in the United States. They argue that the current period of creative destruction when schools are closing and opening in response to reform mandates is an ideal time to take an in-depth look at how successful strategies and programs promote civic education and good citizenship. *Making Civics Count* offers research-based insights into what diverse students and teachers know and do as civic actors and proposes a blueprint for civic education for a new generation that is both practical and visionary.

Essential Civic Education for Senior Secondary Schools (SS1, SS2 & SS3) Gbenga M. Babalola, Igbinobu Chuks, 2015 **Vertical File Index**, 2002

We the People--, 1988 Civics textbook with an emphasis on the U.S. Constitution and Bill of Rights.

The Future of Civic Education Elizabeth Yeager Washington, Keith C. Barton, 2024-10-07 Speaking to the need to move beyond traditional formulations, this textbook presents radical visions for transforming civic education in the United States. Drawing on the experience of educators and scholars including those rooted in feminist, queer, abolitionist, global, and race-conscious perspectives, this work offers new practical ideas for civic education reform. Responding to recent political crises, many scholars, educators, and public commentators have called for a rebirth of civic education, but these all are grounded in the premise that the goal of civic education should be to teach students about the U.S. Constitutional system and how to operate within it. This book argues that the U.S. governmental system, including the Constitution, is infused with racist and anti-democratic premises and procedures. It asks: How can we seek a new path, one that is more democratic, more equitable, and more humane? A diverse range of leading civic educators who are willing not just to push the boundaries of civic education but to operate outside its assumptions altogether explore what future possibilities for civic education might look like and how these innovative ideas could be implemented in the classroom. Combining theory with practice, *The Future of Civic Education* will be important reading for those studying or researching in Social Studies Methods, Social Studies Issues, Citizenship, and Civic Education. It will also be beneficial to social studies teachers at elementary and secondary levels as well as policymakers and NGOs.
