Human Biology Cecie Starr, Beverly McMillan, 2010. Starr and McMillan's HUMAN BIOLOGY 8th Edition presents the core areas of human biology with an emphasis on not only the internal world but how we impact our external world. Highlighting biology's relevance, each chapter opens with an Impacts/Issues reading on a human biology-related issue currently in the news. Within the chapter, users then learn the basic concepts which help them think critically about these issues. In addition, each chapter's How Would You Vote? question invites users to explore current issues and deepen their understanding through online exercises. By the end of the chapter, learners are asked to Explore on Your Own and participate in activities showing the impact of the content on their lives. Benefits NEW Connections feature. Each human systems chapter has a full-page homeostasis element showing integration of body systems and highlighting the role of the system being considered. Eleven icons are accompanied by summaries of how the features system works with and impacts other systems. NEW Infectious diseases coverage is integrated throughout rather than in a separate chapter. The topic is introduced in Chapter 1 as a global health issue. Subsequent chapters, especially the

systems chapters have greatly expanded coverage of diseases and disorders including a new section on infectious disease concerns related to the chapter's main topic. NEW Ecology topics are in two chapters: one on basic principles and a second chapter that focuses on environmental issues related to human activity, including loss of biodiversity, global warming, and the geographic spread of infectious disease organisms. NEW Cengage Human Biology Sylvia S. Mader, 1999-07 Emphasizing the relationship of humans to other living things, this fifth edition of the text includes Bioethics boxes that highlight a situation and ask the student to think about questions often controversial in real life.
