Confronting Penal Excess David Hayes,2019-11-14 This monograph considers the correlation between the relative success of retributive penal policies in English speaking liberal democracies since the 1970s and the practical evidence of increasingly excessive reliance on the penal State in those jurisdictions It sets out three key arguments First that increasingly excessive conditions in England and Wales over the last three decades represent a failure of retributive theory Second that the penal minimalist cause cannot do without retributive proportionality at least in comparison to the limiting principles espoused by rehabilitation restorative justice and penal abolitionism Third that another retributivism is therefore necessary if we are to confront penal excess The monograph offers a sketch of this new approach late retributivism as both a theory of punishment and of minimalist political action within a democratic society Centrally criminal punishment is approached as both a political act and a policy choice Consequently penal theorists must take account of contemporary political contexts in designing and advocating for their theories Although this inquiry focuses primarily on England and Wales its models of retributivism and of academic contribution to democratic penal policy making are relevant to other jurisdictions too

The 2007 Iran Nuclear Estimate Revisited Robert Jervis,James J. Wirtz,2022-05-11 The 2007 Iran Nuclear Estimate Revisited Anatomy of a Controversy explores both the contents and reaction to the U S intelligence community's IC National Intelligence Estimate NIE that Iran had suspended its clandestine program to develop nuclear weapons The volume offers insights into the art of intelligence analysis and the issues encountered when estimates run counter to policy or partisan preferences In November 2007 the U S National Intelligence Council issued an NIE entitled Iran's Nuclear Intentions and Capabilities that contained a surprising finding Analysts concluded that Iran had probably suspended its clandestine effort to develop a nuclear weapon This assessment created a

political firestorm despite the fact that analysts went to great lengths to assess the accuracy of their sources and to offer nuanced judgments about the complex issues surrounding Iran's civilian and military nuclear programs. In this edited volume, former intelligence professionals and leading intelligence scholars describe and assess the factors that shaped this NIE and the course of events that sparked an international controversy. These chapters make a valuable contribution to the understanding of the state of the art when it comes to intelligence analysis and the challenges that emerge when intelligence estimates address significant foreign and defence policy issues and on-going political debates. One of the chapters in this volume was originally published in the book titled *Routledge Companion to Intelligence Studies* edited by Robert Dover Michael Goodman Claudia Hillebrand. Other chapters were originally published in the journals *Intelligence* and *National Security and Comparative Strategy*.

Angiogenesis William D. Figg, Judah Folkman, 2008-05-24 Dr Judah Folkman, father of angiogenesis. 1933-2008 was the Director of the Vascular Biology Program, Andrus Professor of Pediatric Surgery and Professor of Cell Biology at Harvard University's Boston Children's Hospital. In the 1971 issue of *The New England Journal of Medicine*, he proposed the theory that tumor growth is angiogenesis dependent. This premise was the basis of this field of research and has become the focus of scientists worldwide. Because of Folkman's discovery and research, the possibilities of antiangiogenic and angiogenic therapy have broadened beyond cancer to many noncancerous diseases. This book represents the first collection in a volume of which Dr Folkman is co-editor. Dr Folkman authored nearly 400 original papers and more than 100 book chapters. Dr William Figg is the chief of the Molecular and Clinical Pharmacology Program at the National Cancer Institute, National Institutes of Health. Over the past 15 years, his laboratory and clinic at the NCI have focused on the development of angiogenesis inhibitors. Dr Figg has published more than 380 publications.

Dimensions of Yahwism in the Persian Period Gard Granerød, 2016-07-25 What was Judaeo-Persian religion in the Persian period like? Is it necessary to use the Bible to give an answer to the question? Among other things, the study argues that the religion practiced in the 5th c. BCE Elephantine community and which is reflected in the so-called Elephantine documents represents a well-attested manifestation of lived Persian-period Yahwism. As religious historical sources, the Elephantine documents reveal more

about the actual religious practice of the Elephantine Judaeans than what the highly edited and canonised texts of the Bible reveal about the religious practice of the contemporary Yahwistic coreligionists in Judah and the image of the Elephantine Judaism emerging from the Elephantine documents can revise the canonised image of Judaeans religion in the Persian period of A Assmann The Elephantine Yahwism should not be interpreted within a framework dependent upon theological conceptual and spatial concepts alien to it such as biblical ones The study proposes an alternative framework by approaching the Elephantine documents on the basis of N Smart s multidimensional model of religion Elephantine should not be exoticised but brought to the very centre of any discussion of the history of Judaism **Life Is ____**.
