Yellowlees Douglas, 2000 J Yellowlees Douglas looks at the new light that interactive narratives may shed on theories of reading and interpretation and the possibilities for hypertext novels World Wide Web based short stories and cinematic interactive narratives on CD ROM She confronts questions that are at the center of the current debate Does an interactive story demand too much from readers Does the concept of readerly choice destroy the author's vision Does interactivity turn reading fiction from play into work too much work Will hypertext fiction overtake the novel as a form of art or entertainment And what might future interactive books look like
