## **Code Fiscal 2015 Jacques Malherbe:**

*Droit fiscal de l'Union européenne* Alexandre Maitrot de la Motte, 2022-03-30 1 heure 0 la fiscalité internationale connaît de profonds bouleversements l'achèvement du marché intérieur et au-delà du projet européen n'cessite l'limitation de tous les obstacles fiscaux qui résultent de l'exercice de leurs souverainetés fiscales par les Etats membres. L'action ferme et résolue qui doit alors être menée par les autorités européennes comme par ces Etats inscrit dans un cadre dont les contours longtemps incertains ont progressivement précisés le droit fiscal de l'Union européenne. Le droit fiscal de l'Union européenne présente deux modalités d'intégration des fiscalités nationales : l'intégration négative qui suppose l'interdiction des restrictions fiscales, la libre circulation des marchandises, la prohibition des restrictions fiscales, la libre circulation des personnes, des services et des capitaux et l'encadrement des aides d'Etat sous forme fiscale ; et l'intégration positive qui passe par l'harmonisation des droits fiscaux nationaux, l'limitation des doubles impositions et la coordination administrative et politique en matière fiscale. En termes de question de la création d'un impôt européen, devra bien entendu être posée. Cette question renouvelée par la nécessité de financer le plan Next Generation EU montre quel point le droit fiscal de l'Union européenne est une matière essentielle passionnante et hautement symbolique. Pris avec une grande simplicité par l'un de ses meilleurs connaisseurs, la construction de l'Europe fiscale reste une question complexe qui témoigne de la forte intégration des droits et des économies nationales mais aussi des importants progrès qui doivent encore être accomplis.

*International Taxation of Cloud Computing* Alexander Weisser, 2020-10-07. Cloud computing may be borderless but taxes are territorial. It is easy to imagine how the two concepts can clash. Much effort has gone into harmonizing tax rules across borders with the result that many jurisdictions have very similar tax rules. Even so, taxation remains a basic expression of national sovereignty. The goal of this thesis is to examine how international tax law applies to the cross border cloud computing business. Both multinational providers and customers of cloud computing services are analyzed. Reflecting three traditional areas of international tax scholarship, the goal could be stated in three questions: Which jurisdictions have the right to tax? What kinds of cloud computing transactions can be taxed? What amount of the profit is taxable? In more technical terms, this means enquiring into how the use of cloud computing affects the permanent establishment status of taxpayers, how the different kinds of cloud computing transactions are characterized under international double taxation treaties, and how the calculation of taxable cloud computing profit is affected by transfer pricing. In light of the current political events, the thesis also offers recommendations de lege lata through a systematic approach. Its first part assesses the current taxation of cloud computing. The second part evaluates whether the findings of this initial assessment conform to various superior principles of good rulemaking. It identifies which of the present tax rules ought to be adapted. The final part considers how the rules could be amended to become more compliant with the superior principles. In this way, Part I embodies the thesis, Part II the antithesis, and Part III seeks a synthesis.
