shared context bridging research on experience and perspective with research on variation and change and tackling the methodological complexities that this empirical approach to mental categorization entails help us determine how the meaningful units that make up language are categorized and structured in the bi and multilingual mind and by extension in any human mind Together the ten papers in this volume reveal the complexities of the interaction between usage meaning and mind in contact induced variation and change which we hope will inspire future research exploring the possibilities of the cross fertilization we have labeled Cognitive Contact Linguistics   *Cognitive Linguistics - Foundations of Language* Ewa Dąbrowska,Dagmar Divjak,2019-07-08 Cognitive foundations of language introduces the reader to the abilities and processes in which research in Cognitive Linguistics is grounded The book looks at key concepts such as embodiment salience entrenchment construal categorization and collaborative communication and discusses their genesis and implications for cognitive linguistic research   **Handbook of Cognitive Linguistics** Ewa Dabrowska,Dagmar Divjak,2015-05-19 Cognitive Linguistics is an approach to language study based on the assumptions that our linguistic abilities are firmly rooted in our cognitive abilities that meaning is essentially conceptualization and that grammar is shaped by usage The Handbook of Cognitive Linguistics provides state of the art overviews of the numerous subfields of cognitive linguistics written by leading international experts which will be useful for established researchers and novices alike It is an interdisciplinary project with contributions from linguists psycholinguists psychologists and computer scientists which will emphasise the most recent developments in the field in particular the shift towards more empirically based research In this way it will we hope help to shape the field encouraging methodologically more rigorous research which incorporates insights from all the cognitive sciences Editor Ewa D browska was awarded the Alexander von Humboldt Professorship 2018   **A Cognitive Perspective on Spatial Prepositions** Maria Brenda,Jolanta Mazurkiewicz-Sokołowska,2022-10-15 A Cognitive Perspective on Spatial Prepositions Intertwining networks is devoted to the issue of the relation between language and thought approached from the perspective of spatial relations encoded by four equivalent spatial prepositions English to German zu Polish do and Russian Regarding these prepositions as path prepositions the authors show that the prepositional semantic structures are conceptually grounded in the PATH and the MOTION EVENT frames and explain that prepositional senses emerge as a result of the PATH image schema transformations and metaphorical mappings related to the EVENT STRUCTURE metaphor Based on their findings the authors show how senso motoric functioning life experience individual knowledge imagery and different ways in which people conceptualize the world influence the relation between language and conceptualization   The Bloomsbury Companion to Cognitive Linguistics Jeannette Littlemore,John R. Taylor,2014-06-19 The Bloomsbury Companion to Cognitive Linguistics is a comprehensive and accessible reference resource to research in contemporary cognitive linguistics Written by leading figures in the field the volume provides readers with an authoritative overview of methods and current research topics and future directions The volume covers all the most important issues concepts movements and

Janda,2021-08-16 The studies in the present volume illustrate the current state of the art in the corpus based approach in cognitive linguistics which seeks to motivate linguistic phenomena through the combination of quantitative and qualitative analysis By focusing on language use in different contexts from a variety of perspectives each of the contributions in this volume presents its own unique take on the intertwined relationship between language thought and communication Thus each article shows how a combination of quantitative and qualitative analytical techniques helps shed new light on old issues reflecting the usage based nature of cognitive linguistics and illustrating the explanatory adequacy of corpus based methods Originally published as special issue of Review of Cognitive Linguistics 17 1 2019   *New Approaches to Contrastive Linguistics* Renata Enghels,Bart Defrancq,Marlies Jansegers,2020-07-20 The practice of comparing languages has a long tradition characterized by a cyclic

pattern of interest Its meeting with corpus linguistics in the 1990s has led to a new sub discipline of corpus based contrastive studies The present volume tackles two main challenges that had not yet been fully addressed in the literature namely an empirical assessment of the nature of the data commonly used in cross linguistic studies e g translation data versus comparable data and the development of advanced methods and statistical techniques suitably adapted to contrastive research settings The papers collected in this volume endeavour to find out what new types of data are most useful for what kind of contrastive questions and which advanced statistical techniques are most suited to deal with the multidimensionality of contrastive research questions Answers to these questions are provided through the contrastive analysis of various language pairs or groups and a wide variety of phenomena situated at almost all linguistic levels In sum this book provides an update on new methodological and theoretical insights in empirical contrastive linguistics and will stimulate further research within this field   Constructicography Benjamin Lyngfelt,Lars Borin,Kyoko Ohara,Tiago Timponi Torrent,2018-07-17 In constructionist theory a constructicon is an inventory of constructions making up the full set of linguistic units in a language In applied practice it is a set of construction descriptions a dictionary of constructions The development of constructicons in the latter sense typically means combining principles of both construction grammar and lexicography and is probably best characterized as a blend between the two traditions We call this blend constructicography The present volume is a comprehensive introduction to the emerging field of constructicography After a general introduction follow six chapters presenting constructicon projects for English German Japanese Brazilian Portuguese Russian and Swedish respectively often in relation to a framenet of the language In addition there is a chapter addressing the interplay between linguistics and language technology in constructicon development and a final chapter exploring the prospects for interlingual constructicography This is the first major publication devoted to constructicon development and it should be particularly relevant for those interested in construction grammar frame semantics lexicography the relation between grammar and lexicon or linguistically informed language technology   *The Routledge Handbook of Metaphor and Language* Elena Semino,Zsófia Demjén,2016-11-03 The Routledge Handbook of Language and Metaphor provides a comprehensive overview of state of the art interdisciplinary research on metaphor and language and maps out future directions of research and practice in a variety of contexts in this field   **Change of Paradigms – New Paradoxes** Jocelyne Daems,Eline Zenner,Kris Heylen,Dirk Speelman,Hubert Cuyckens,2015-10-16 In Paradigm and Paradox Dirk Geeraerts formulated many of the basic tenets that were to form what Cognitive Linguistics is today Change of Paradigms New Paradoxes links back to this seminal work exploring which of the original theories and ideas still stand strong which new questions have arisen and which ensuing new paradoxes need to be addressed It thus reveals how Cognitive Linguistics has developed and diversified over the past decades   **Chinese Lexical Semantics** Jia-Fei Hong,Qi Su,Jiun-Shiung Wu,2018-11-25 This book constitutes the thoroughly refereed post workshop proceedings of the 19th Chinese Lexical Semantics Workshop CLSW 2018 held in Chiayi
