Curriculum Leadership Development Carol A. Mullen, 2012-11-12 Curriculum Leadership Development is an up to date user friendly textbook offering unique approaches to help readers understand the complexity of curriculum leadership. It is grounded in current and relevant theory, research, legislation and application in the closely related areas of curriculum leadership development and scholarship. The text solidifies the concepts of curriculum and leadership in experiential learning contexts and promotes democratic action and critical thinking. Author Carol A. Mullen uses a descriptive qualitative approach that integrates case study, data analysis, personal reflection and lessons learned. Among the most important elements of the book are the inclusion of the voice and curricular experiences of the professional student who is a seasoned teacher or beginning administrator, detailed illustrations of practitioners' experiences as curriculum makers and action researchers, an articulation of the links among curriculum development, constructivist curricula and mentoring scaffolds, and practical exercises to accompany case studies. Graduate and advanced undergraduate students in education will find this textbook of value in their coursework as will curriculum professionals who teach practicing teachers. **Perez, Brady, Halperin, and Wazer's Principles and Practice of Radiation Oncology** Edward C.
