

# Code and Construction Guide for Housing

## 1 Start-Up

This chapter provides information essential to the successful start-up of the construction project. The scope of the Code as well as a number of general Code requirements that apply to house construction are reviewed here, including proper installation of materials, appliances, systems and equipment, design requirements, and climatic data. In addition, a detailed discussion of the plans, permits, and inspections process, is included. Finally, the chapter explains general Code requirements that relate to building materials as well as other design and construction considerations.

### Administration and Definition

#### BUILDING CODE REFERENCES - ADMINISTRATION AND DEFINITION

##### 2.7.2.4. Tests

##### 9.2.1.1. Defined Words

The [Ontario Building Code](#) is administered according to the provisions of the [Building Code Act](#). The Act is intended to enforce a minimum level of health and safety in all buildings, including housing. The Act may be purchased at any location selling government publications, and is also available in most public libraries and municipal offices.

A number of definitions are provided for words and phrases used in the Code. These definitions form the construction industry basis for interpretation of the Code and should be carefully understood and distinguished from more common, but undefined, nomenclature.

Abbreviations and symbols used in the Code are also provided after the definitions.

### Registration and Enrollments

The [Building Code Act](#) requires all builders to be registered under the Ontario New Home Warranties Plan Act. All new homes for sale must be enrolled upon the issuance of a building permit. Each dwelling unit and units in a townhouse or condominium project must be enrolled so that each home-buyer is
