Performing Arts and the Royal Courts of Southeast Asia, Volume One ,2023-12-04 This publication brings together current scholarship that focuses on the significance of performing arts heritage of royal courts in Southeast Asia Royal courts have long been sites for the creation exchange maintenance and development of myriad forms of performing arts and other distinctive cultural expressions The first volume *Pusaka as Documented Heritage* consists of historical case studies contexts and developments of royal court traditions particularly in the nineteenth and twentieth centuries **Beyond Sectarianism** Tehseen Thaver,2024-05-14 In this groundbreaking book Tehseen Thaver offers a fundamental reevaluation of how one should think about the relationship between the Qur an Shi ism and religious identity *Beyond Sectarianism* focuses on the

literary Arabic Qur'an exegesis of the highly influential yet less studied poet-historian and exegete al-Sharīf al-Rāḍī d. 1015. Al-Rāḍī's fascinating interpretations sought to resolve Qur'anic ambiguities or *mutashabihat*. Through a philologically layered and historically attuned analysis Thaver argues that al-Rāḍī's efforts at resolving Qur'anic ambiguities were interlocked with the project of the canonization of the Arabic language. Although he was marked as a Shi'i scholar, the interpretive and political horizons that informed al-Rāḍī's scholarly endeavors could not be reduced to predetermined templates of sectarian identity. Rather, Thaver argues, al-Rāḍī was an active participant and beneficiary of critical intellectual currents and debates that animated the wider Muslim humanities during his life, especially on questions of language, poetry, and theology. Thaver thus leads her readers to reconsider their assumptions about the interaction of sectarian identity and scriptural interpretation in the study of Islam and religion. Though centered on the context of late tenth and eleventh century Baghdad under the Buyid dynasty, *Beyond Sectarianism* raises and addresses crucial questions of religious thought and identity with major ramifications for how we imagine the narrative of Islam and the place of sectarianism in it today.

Buddhism in Iran M. Muwašṣaḥ, Zajal, Kharja Henk Heijkoop, Otto Zwartjes, 2004-05-01 This book is a comprehensive bibliography of publications on strophic poetry and music which originated in the urbanized society of al-Andalus in the 9th century and spread over the Iberian Peninsula, Southern France, North Africa, Egypt, and the Near East. It contains an alphabetic catalogue of 2800 titles, books, articles, congress papers, reviews, CD's, and a movie. Some titles have annotations. The catalogue is followed by a register of *kharjas* and two useful indices of names and subjects. A short introductory guide precedes the catalogue, and a selective discography ends the volume. The bibliography is the first fully comprehensive list of publications on the theme after the pioneering discovery of the *kharja* endings of strophic compositions *muwaḥa* and *zajal* by Samuel Miklos Stern in 1948.

Two Essays on Baloch History and Folklore Sabir Badal Khan, 2013 During the early 19th century the British came in direct contact with the Baloch, first with those living in the Punjab and Sind, and later with those in Balochistan proper. Soon after their arrival in the region they began studying the Baloch as an ethno-national group, their language, literature, folklore, tribal structure, physical features, and so on, forming theories and suggesting hypotheses regarding their origins and relations with other nations and peoples. While some maintained that the Baloch originated from north-western Iran, others believed they came from Central Asia, from Arabia, or from elsewhere. 1. Among the early British writers, some also opined that while some tribes might have a foreign origin, bulk of the Baloch were the autochthonous population of the country. With the passage of time, however, other theories were abandoned, and a north-west Iranian origin came to be the widely accepted one. This thesis was established on three basic grounds: first, from the Balochi oral tradition

which claims that the Baloch came from a place called Alab Alap identified as Aleppo in Syria by Western writers and later followed by some local writers too secondly their mention in the Shahnameh of Ferdowsi where they are sometimes shown along with the people of Gilan and Dilam regions situated on the Caspian Sea regions and thirdly on the basis of their language which is classified as belonging to the northwestern group of Iranian languages having close affinities with Kurdish and other languages of that branch

Volume 16, Tome I: Kierkegaard's Literary Figures and Motifs Katalin Nun,Dr Jon Stewart,2014-10-28 While Kierkegaard is perhaps known best as a religious thinker and philosopher there is an unmistakable literary element in his writings He often explains complex concepts and ideas by using literary figures and motifs that he could assume his readers would have some familiarity with This dimension of his thought has served to make his writings far more popular than those of other philosophers and theologians but at the same time it has made their interpretation more complex Kierkegaard readers are generally aware of his interest in figures such as Faust or the Wandering Jew but they rarely have a full appreciation of the vast extent of his use of characters from different literary periods and traditions The present volume is dedicated to the treatment of the variety of literary figures and motifs used by

Kierkegaard The volume is arranged alphabetically by name with Tome I covering figures and motifs from Agamemnon to Guadalquivir

The Application of Islamic Criminal Law in Pakistan Tahir Wasti, 2009 No legal system in the world has aroused as much public interest as Sharia However the discourse around Sharia law is largely focussed on its development and the theories principles and rules that inform it Less attention has been given to studying the consequences of its operation particularly in the area of Islamic criminal law Even fewer studies explore the actual practice of Islamic criminal law in contemporary societies This book aims to fill these gaps in our understanding of Sharia law in practice It deals specifically with the consequences of enforcing Islamic criminal law in Pakistan providing an in depth and critical analysis of the application of the Islamic law of Qisas and Diyat retribution and blood money in the Muslim world today The empirical evidence adduced more broadly demonstrates the complications of applying traditional Sharia in a modern state **Orient**, 2013

Black Terror White Soldiers David Livingstone, 2013-06-16 Far too ignorant of the histories of the rest of the world being aware of only the accomplishments of Greece Rome and Europe Westerners have been made to believe that their societies represent the most superior examples of civilization However the Western value system stems from a misconception that as in nature human society too is evolving The idea derives from the hidden influence of secret societies who followed the belief in spiritual evolution of the Kabbalah which taught that history would attain its fulfillment when man would become God and make his own laws Therefore the infamous Illuminati gave its name to the Enlightenment of the eighteenth century which claimed that human progress must abandon superstition meaning Christianity in favor of reason Thus the Illuminati succeeded in bringing about the French and American revolutions which instituted the separation of Church and State and from that point forward the Western values of Humanism seen to include secularism human rights democracy and capitalism have been celebrated as the culmination of centuries of human intellectual evolution This is the basis of the propaganda which has been used to foster a Clash of Civilizations where the Islamic world is presented as stubbornly adhering to the anachronistic idea of theocracy Where once the spread of Christianity and civilizing the world were used as pretexts for colonization today a new White Man's Burden makes use of human rights and democracy to justify imperial aggression However because after centuries of decline the Islamic world is incapable of mobilizing a defense the Western powers as part of their age old strategy of Divide and Conquer have fostered the rise of Islamic fundamentalism to both serve as agent provocateurs and to malign the image of Islam These sects known to scholars as Revivalists opposed the traditions of classical Islamic scholarship in order to create the opportunity to rewrite the laws of the religion to better serve their sponsors Thus were created the Wahhabi and Salafi sects of Islam from which were derived the Muslim Brotherhood which has been in the service of the West ever since But the story of the development of these Islamic sects involves the bizarre doctrines and hidden networks of occult secret societies being based on a Rosicrucian myth of Egyptian Freemasonry which see the Muslim radicals as inheritors of an ancient mystery tradition of the Middle East which was passed on to the Knights

Templar during the Crusades thus forming the foundation of the legends of the Holy Grail These beliefs would not only form the cause for the association of Western intelligence agencies with Islamic fundamentalists but would fundamentally shape much of twentieth century history
