The Clash of Civilizations and the Remaking of World Order Samuel P. Huntington,2007-05-31 The classic study of post Cold War international relations more relevant than ever in the post 9 11 world with a new foreword by Zbigniew Brzezinski Since its initial publication The Clash of Civilizations and the Remaking of World Order has become a classic work of international relations and one of the most influential books ever written about foreign affairs An insightful and powerful

analysis of the forces driving global politics it is as indispensable to our understanding of American foreign policy today as the day it was published As former National Security Adviser Zbigniew Brzezinski says in his new foreword to the book it has earned a place on the shelf of only about a dozen or so truly enduring works that provide the quintessential insights necessary for a broad understanding of world affairs in our time Samuel Huntington explains how clashes between civilizations are the greatest threat to world peace but also how an international order based on civilizations is the best safeguard against war Events since the publication of the book have proved the wisdom of that analysis The 9 11 attacks and wars in Iraq and Afghanistan have demonstrated the threat of civilizations but have also shown how vital international cross civilization cooperation is to restoring peace As ideological distinctions among nations have been replaced by cultural differences world politics has been reconfigured Across the globe new conflicts and new cooperation have replaced the old order of the Cold War era The Clash of Civilizations and the Remaking of World Order explains how the population explosion in Muslim countries and the economic rise of East Asia are changing global politics These developments challenge Western dominance promote opposition to supposedly universal Western ideals and intensify intercivilization conflict over such issues as nuclear proliferation immigration human rights and democracy The Muslim population surge has led to many small wars throughout Eurasia and the rise of China could lead to a global war of civilizations Huntington offers a strategy for the West to preserve its unique culture and emphasizes the need for people everywhere to learn to coexist in a complex multipolar multivilizational world

Criminology and Criminal Policy Movements Eugenio Raúl Zaffaroni,Edmundo Oliveira,2013-04-03 These studies recover the historical roots of thinking that are in conflict with and critical of present day tendencies Criminological theory over the last few decades has oscillated between extremes on one side there are calls for increasing the state exercise of punitive power as the only means of providing security in the face of both urban and international crime while the other side highlights the need for reducing the exercise of punitive power because of the paradoxical effects that it produces Useful for academics practitioners professionals and students this book will certainly contribute to a wider awareness in crime prevention and criminal justice

La Guerra Fría del Siglo XXI Miguel Campos Robles,2019-10-25 En el escenario político internacional el poder que un estado posee es en gran parte consecuencia de su capacidad militar En lo que llevamos de siglo Rusia no ha dudado en hacer uso de la fuerza militar para defender sus intereses geopolíticos como en Georgia 2008 Ucrania 2014 y Siria 2015 La posición de Rusia en estos conflictos y las tensiones con Occidente recuerdan un modelo similar al que tuvo lugar durante la Guerra Fría La desintegración de la URSS convirtió a Rusia en la heredera principal de sus fuerzas armadas con su historia tradicional y su arsenal nuclear La historia de Rusia incluida su breve etapa soviética est llena de grandes adversidades pero el pueblo ruso ha demostrado ser capaz de soportar terribles privaciones y está acostumbrado a grandes acciones de resistencia especialmente sus fuerzas armadas que en las circunstancias más adversas fueron capaces de vencer a la Grande Armée de Napoleón y derrotar a la Wehrmacht de Hitler en la Segunda Guerra Mundial

REIS - Enero/Marzo 2002 , Civilización y violencia Rojas, Cristina,Maldonado, Elvira,2023-02-20 A primera vista la civilización y la violencia parecen conceptos opuestos De hecho podría pensarse que la violencia evita los avances de la civilización con lo que se explicaría por qué en ciertos países como los del denominado tercer mundo parece haber una correlación entre un bajo desarrollo económico político cultural y social y altos niveles de inseguridad conflicto y mortalidad Sin embargo este libro plantea que estos conceptos no son necesariamente antagonistas sino que de hecho en el siglo XIX colombiano se entrelazaron y se apoyaron mutuamente Para demostrarlo aborda la trama cultural de las violencias de ese momento histórico y problematiza la racionalidad de la dominación que legitimó muchas de las formas de exclusión de las poblaciones negras indígenas y de las mujeres en estas comunidades
