Relics James B. Grove, Max Grove, 2021-10-26 A fact filled illustrated exhibit of four billion years of history in 133 objects from Pangaea to ancient Rome to Dracula s home to the iPhone This amazing book tells the story of our planet as you ve never seen it before The Mini Museum is a collection of treasures gathered from across space and time and shared by tens of thousands of people in more than 120 countries Each item in the collection is inspired by a childhood dream of sharing all the wonders the universe has to offer while bringing all of us closer together In this book the Mini Museum team shares the stories of real objects that have shaped our very existence across billions of years of history Beginning with the birth of our solar system and the very building blocks of life you ll explore our dynamic planet from the constant shifting of continents to dramatic and violent upheavals that have changed the course of all life again and again You ll visit mighty civilizations with cultures spanning millennia as well as modern symbols of creativity and innovation and the march of humanity as we reach toward the stars Every item is photographed and presented in detail and there are also wild tales of adventure as the crew travels the world and prepares one of the most complex collections ever assembled      Catalog Sears, Roebuck and Company, 1929      The House Divided Barnaby Rogerson, 2024-07-02 An incisive look at the past present and future of the religious divide that lies at the heart of the Middle East At the heart of the Middle East with its regional conflicts and proxy wars is a 1400 year old schism between Sunni and Shia To understand this divide and its modern resonances we need to revisit its origins which go back to the death of the Prophet Muhammad in 632 the accidental coup that set aside the claims of his son Ali and the slaughter of Ali s own son Husayn at Karbala These events known to every Muslim have created a slender faultline in the Middle East The House Divided follows these narratives from the first Sunni and Shia caliphates through the medieval empires of the Arabs Persians and Ottomans to the contemporary Middle East It shows how a complex range of identities and rivalries religious ethnic and national have shaped the region jolted by the seismic shift of the Iranian Revolution of 1979 Rogerson s original approach takes the modern chessboard of nation states and looks at each through its

particular history of empires and occupiers minorities and resources sheikhs and imams The result is wide ranging empathy understanding and insight a book that is vital for anyone wishing to understand many of the current tensions in the Middle East today
