Language Testing in Practice Lyle F. Bachman,Adrian S. Palmer,1996-09-19 This book relates language testing practice to current views of communicative language teaching and testing It builds on the theoretical background expounded in Bachman s Fundamental Considerations in Language Testing and examines the design planning and organization of tests The book is divided into three sections which discuss 1 objectives and expectations the context of language testing and the abilities to be tested 2 the process of test development including blueprints resources operationalization and scoring methods and 3 ten examples which illustrate the principles discussed in Parts One and Two   *Another Generation of Fundamental Considerations in Language Assessment* Gary J. Ockey,Brent A. Green,2020-11-23 This edited book is a collection of papers written by language assessment professionals to reflect the guidance of Professor Lyle F Bachman one of the leading second language assessment experts in the field for decades It has three sub themes assessment of evolving language ability constructs validity and validation of language assessments and understanding internal structures of language assessments It provides theoretical guidelines for practical language assessment challenges Chapters are written by language assessment researchers who graduated from the University of California Los Angeles where Professor Bachman trained them including the book editors   **Fundamental Considerations in Language Testing** Lyle F. Bachmann,1997   **Fundamental Considerations in Technology Mediated Language Assessment** Karim Sadeghi,Dan Douglas,2023-04-27 Fundamental Considerations in Technology Mediated Language Assessment aims to address issues such as how the forced integration of technology into second language assessment has shaped our understanding of key traditional concepts like validity reliability washback authenticity ethics fairness test security and more Although computer assisted language testing has been around for more than two decades in the context of high stakes proficiency testing much of language testing worldwide has shifted to at home mode and relies heavily on the mediation of digital technology making its widespread application in classroom settings in response to the COVID 19 outbreak unprecedented Integration of technology into language assessment has brought with it countless affordances and at the same time challenges both theoretically and practically One major theoretical consideration requiring attention is the way technology has contributed to a reconceptualization of major assessment concepts constructs There is very limited literature available on the theoretical underpinnings of technology mediated language assessment This book aims to fill this gap This book will appeal to academic specialists practitioners or professionals in the field of language assessment advanced and or graduate students and a range of scholars or professionals
