Coon Hunting

Coon hunting has deep roots in the Ozark Mountains that trace back to the early days of the settlers in this region. The Ozarks, known for their dense forests and abundant wildlife, provided the perfect place for the emergence of coon hunting as a necessity and as a tradition.

As pioneers settled in the Ozarks, they quickly discovered the abundance of raccoons in the dense woods. Raccoons were a common sight and a valuable resource for their fur and meat. Coats made from the fur of raccoons were very popular in the 1800s and a single pelt could be sold for twenty-five cents. This fashion trend led to a rise in both pelts prices and the hunting and trapping of raccoons. One type of coon hunting is done by setting traps that are periodically checked. Another type of coon hunting is typically done at night with specially trained dogs such as the Treeing Walker, Black and Tan, and

Blacks. These dogs are trained as young as 6 weeks old to follow a hunter's lead and follow only when the dogs have to track the coon. Once the dogs have located the coon, the hunter will follow them and then kill the raccoon for use for its

Research Raccoons, pt. 1

What are some physical characteristics of raccoons?	
What types of environments do they inhabit?	
How do raccoons adapt to different habitats?	
What role do raccoons play in the local ecosystem?	

Coon Trap STEM Challenge

On our tour we just walked outside to take out the garbage and discovered a huge mess. A possum had gotten into your garbage can again, and you're fed up enough. You decide to take matters into your own hands by designing a raccoon trap and designing a device to trap the raccoon and set it free in the woods.

Your Task

Design a trap that you can use to solve the problem! What do you need to know about raccoons to solve the problem? What do you need to know about traps? How many traps and what design constraints might you have? If your design that includes traps, design a trap that you can use to solve the problem!

Summary

Write a minimum of 1-2 sentences to describe the design process you and your group worked through from start to finish. Use some of the prompts and sentence starters to help you write your summary.

What problem were you trying to solve?

"My group and I were trying to design a _____ that would _____."

What research did you have to conduct and why?

"We had to research to learn more about _____ This helped us _____."

What did you learn from your research, and how did this research help the process?

"We learned that _____ This research helped us brainstorm and develop our design solution _____."

What was the solution you finally decided on, and why?

"The solution we finally decided on was to create _____ because _____."

What were some of the design constraints you faced?

"Some of the constraints we faced with our design were _____."

What was your favorite part about your group's design?

"My favorite part about our group's design was _____ because _____."
