Functional Architecture International Style 1925 1940:

Functional Architecture, 1990 *Architecture In Use* DJM van der Voordt, HBR van Wegen, 2007-06-01 This unique book discusses programming design and building evaluation providing a joined up approach to building design By linking the functional and architectonic qualities of a building the authors show the practical implications of the utility value of buildings Starting by looking at how the relationship between form and function has been dealt with by different approaches to architecture from a historical perspective it goes on to discuss how the desired functional quality and utility value of a building can be expressed in a brief and given a physical form by the architect Finally it advises on how to carry out post occupancy evaluation and provides the architect with methods and techniques for testing whether the intended utility value of a building has been achieved

The Oxford Dictionary of Architecture James Stevens Curl, Susan Wilson, 2015 With over 6 000 entries this is the most authoritative dictionary of architectural history available [Bibliographic Guide to Art and Architecture](#) New York Public Library. Art and Architecture Division, 1994

Cultural Mobility in the Interwar Avant-Garde Art Network Michał Wenderski, 2018-07-27 This book explores the issue of cultural mobility within the interwar network of the European avant garde focusing on selected writers artists architects magazines and groups from Poland Belgium and Netherlands Regardless of their apparent linguistic cultural and geographical remoteness their mutual exchange and relationships were both deep and broad and of great importance for the wider development of interwar avant garde literature art and architecture This analysis is based on a vast research corpus encompassing original often previously overlooked periodicals publications and correspondence gathered from archives around the world

Photography, Modern Architecture, and Design Vitra Design Museum, 2005-01-01 Examining the photographic collection that Alberto Sartoris donated to the Swiss federal government this text throws light on a poorly understood aspect of 20th century architecture namely the mechanisms behind the creation and diffusion of the image of modern architecture

Making Dystopia James Stevens Curl, 2018-08-23 In *Making Dystopia* distinguished architectural historian James Stevens Curl tells the story of the advent of architectural Modernism in the aftermath of the First World War its protagonists and its astonishing almost global acceptance after 1945 He argues forcefully that the triumph of architectural Modernism in the second half of the twentieth century led to massive destruction the creation of alien urban landscapes and a huge waste of resources Moreover the coming of Modernism was not an inevitable seamless evolution as many have insisted but a massive unparalleled disruption that demanded a clean slate and the elimination of all ornament decoration and choice Tracing the effects of the Modernist revolution in architecture to the present Stevens Curl argues that with each passing year so called iconic architecture by supposed star architects has become more and more bizarre unsettling and expensive ignoring established contexts and proving to be stratospherically remote from the aspirations and needs of humanity In the elite world of contemporary architecture form increasingly follows finance and in a society in which the haves have more and more and

the have nots are ever more marginalized he warns that contemporary architecture continues to stack up huge potential problems for the future as housing costs spiral out of control resources are squandered on architectural bling and society fractures This courageous passionate deeply researched and profoundly argued book should be read by everyone concerned with what is around us Its combative critique of the entire Modernist architectural project and its apologists will be highly controversial to many But it contains salutary warnings that we ignore at our peril And it asks awkward questions to which answers are long overdue *The Pool Group and the Quest for Anthropological Universality* Betsy van Schlun, 2016-11-21

Pool was an avant garde group that originated in 1927 in Britain and was active under this name until 1933 The group consisted of the well known modernist poet H D the English writer Bryher and the young Scottish writer and artist Kenneth Macpherson All three were first and foremost writers who at one point discovered film as another modern experimental medium of artistic expression Pool associated with almost all the iconic modernists of their time with Ezra Pound Gertrude Stein Ernest Hemmingway James Joyce Marianne Moore William Carlos Williams T S Eliot and Virginia Woolf to name only a few In addition due to their interest in film they were also befriended with such influential filmmakers as Sergei Eisenstein and Georg Wilhelm Pabst and became closely associated with Weimar Berlin film culture Pool unites classical Modernism and modernity two directions that are usually considered to be contradictory The Pool phenomenon opens a new perspective onto Modernism and prompts a reconsideration of its canonical texts and figures Contrary to many artists of Modernism who devised highly individualistic aesthetic styles the artists of Pool strove towards a universal art of humanity that was rooted in all human nature and psychology *Women Architects in the Modern Movement* Carmen Espegel, 2017-12-22 Heroines of Space looks at four groundbreaking women architects Eileen Gray Lilly Reich Margarethe Schütte Lihotzky and Charlotte Perriand You ll see the parts they played in the history of modern architecture and get a clearer view of the recent past The book explains the social and historical setting behind their coming into being and includes research on the factors around their roles as space makers to show you how they practiced architecture despite pressure not to New in English the Spanish edition won the 2006 Milka Blinakov Prize granted by the International Archive of Women in Architecture Includes 150 black and white images and bibliographies for each architect **Functional architecture**, 1990 *Functional architecture* Peter Gössel, 1990 Eksempler p begrebet funktionel arkitektur som det blev formuleret af de to amerikanske arkitekter Henry R Hitchcock og Philip Johnson i 1932 *International Style* Hasan-Uddin Khan, 1998 Traces various currents in twentieth century architecture that shared an international outlook and pursues inquiry from both European and North American perspectives Cover *Guide to the Literature of Art History 2* Max Marmor, Alex Ross, 2005 This bibliography supplements the greatest of modern art bibliographies Etta Arntzen and Robert Rainwater s *Guide to the literature of art history* ALA 1980 Preface *The International Style, Funktionale Architektur, Le Style International, 1925-1940*, 1990 **Encyclopedia of 20th Century Architecture** R. and contributors a generous selection of sample pages and more visit the Encyclopaedia of 20th Century Architecture website Focusing on architecture from all regions of the world this three volume set profiles the twentieth century's vast chronicle of architectural achievements both within and well beyond the theoretical confines of modernism Unlike existing works this encyclopedia examines the complexities of rapidly changing global conditions that have dispersed modern architectural types movements styles and building practices across traditional geographic and cultural boundaries **Greece Savas**

Condaratos, Wilfried Wang, 1999 This handsomely illustrated book outlines recent developments in Greek architecture

Heroínas del espacio Carmen Espegel Alonso, 2007 The book reviews the life and architectural legacy of 4 exceptional women architects of the beginning of the 20th century and their proposals to make habitable the cold and abstract modern architecture undertaken by Le Corbusier and J J P Oud The European women architects were Eileen Gray b Great Britain Lilly Reich b Germany Margarete Schütte-Lihotzky b Germany and Charlotte Perriand b France Carmen Espegel is a Spanish architect at the Escuela Técnica Superior de Arquitectura *Temas de composición arquitectónica. 3. Uso y actividad de las utilidades a la función* Joan Caldúch Cervera, 2000 La teoría de la arquitectura en la actualidad lejos de constituir un conjunto uniforme y coherente se constituye por un conglomerado de aspectos dispersos que forman un mosaico entrelazado El espacio la memoria el uso la técnica la luz la percepción son algunos de los campos de interés que constituyen el rizoma caótico sobre el que se asienta el pensamiento arquitectónico La Composición arquitectónica entendida como el conjunto de disciplinas que configuran el substrato sobre el que se asienta la práctica de la arquitectura se va organizando a partir de estas piezas en cierta medida autónomas asentando de este modo el saber de la arquitectura **Ernst Plischke**

August Sarnitz, Eva B. Ottlinger, Ernst A. Plischke, 2004 This volume presents a comprehensive survey on an Austrian architect *Heroínas del espacio* Carmen Espegel, 2021-06-01 Las excepcionales precursoras que aquí se han distinguido sobre la base de una elección personal relacionada con ciertas afinidades y simpatías han demostrado con sus vidas y sobre todo con sus obras una alta dosis de coraje creatividad excelencia y coherencia Las asumió al mismo tiempo de compromisos y riesgos les ha conferido un estatus de heroínas homéricas valientes y extraordinarias que quizá nunca persiguieron Sus elecciones fueron tomadas de acuerdo a unos intensos principios éticos que debieran servirnos de estímulo a los futuros herederos Su sabiduría demostrada a la hora de iniciar nuevas visiones del espacio nos ayuda a mirar y observar el mundo con una perspectiva más generosa donde lo femenino o lo masculino no sea excluyente Las obras de estas arquitectas suficientemente valiosas abarcables programáticas complejas poco conocidas y por fortuna nada mitificadas con sus múltiples significados cristalizados en un sentido y sus múltiples sentidos cristalizados en alguna verdad son a su vez la razón interna y esencial del proyecto de calidad Este es su drama su poética y su grandeza Los proyectos expuestos son grandes obras desconocidas del Movimiento Moderno y profundizar en su conocimiento ha requerido una investigación extensa paulatina esforzada y celosa
