Fundamental Concepts Of Language Teaching Stern:

Fundamental Concepts of Language Teaching H. H. Stern, 1983-03-24 Professor Stern puts applied linguistics research into its historical and interdisciplinary perspective. He gives an authoritative survey of past developments worldwide and establishes a set of guidelines for the future. There are six parts: Clearing the Ground, Historical Perspectives, Concepts of Language, Concepts of Society, Concepts of Language Learning, and Concepts of Language Teaching. Fundamental Concepts of Language Teaching Hans Heinrich Stern, 2009 Fundamental Concepts of Language Teaching H. H. Stern, 1984 *Fundamental Concepts of Language Teaching* H. H. Stern, 2001 English Language Teaching in Its Social Context Christopher Candlin, Neil Mercer, 2001 *English Language Teaching in its Social Context* offers sociolinguistic, ethnographic, and social psychological perspectives on TESOL teaching and learning and introduces the relevant literature on second language acquisition. Together with its companion volumes, it presents English language teaching in a variety of specific institutional, geographic, and cultural contexts. The articles, a range of seminal and specially commissioned pieces, have been carefully chosen to present four major principles of English language teaching: they focus on the roles played by teachers and learners, recognise the individuality of language learners, support teachers in the provision of active guidance for students learning, and examine both positive and negative patterns of interaction between learners and teachers. This Reader offers people unfamiliar with research in this field an overall impression of English language teaching issues while allowing the more experienced reader the opportunity to relate his or her own experiences to the theories presented. Routledge Encyclopedia of Language Teaching and Learning Michael Byram, Adelheid Hu, 2013-06-26 The Routledge Encyclopedia of Language Teaching and Learning is an authoritative reference dealing with all aspects of this increasingly important field of study. Offering a comprehensive range of articles on contemporary language teaching and its history, it has been produced specifically for language teaching professionals and as a reference work for academic studies at postgraduate level. In this new edition, every single entry has been reviewed and updated with reference to new developments and publications. Coverage has been expanded to reflect new technological, global, and academic developments, with particular attention to areas such as online and distance learning, teacher and learner cognition, testing, assessment, and evaluation, global English, and teacher education. Themes and disciplines covered include Methods and materials, including new technologies and materials development; Contexts and concepts, such as mediation, risk taking in language learning, and intercomprehension; Influential figures from the early days of language teaching to the contemporary; Related disciplines, such as psychology, anthropology, and corpus linguistics. It covers the teaching of specific languages, including Japanese, Chinese, Arabic, and African languages, as well as English, French, German, and Spanish. There are thirty-five overview articles dealing with issues such as communicative language teaching, early language learning, teacher education, and syllabus and curriculum design. A further 160 entries focus on topics such as bilingualism, language laboratories, and study abroad. Numerous shorter items
