*Doctors Behind Borders* Yusuf Yuksekdog, 2019-05-27 This doctoral thesis within applied ethics consists of four articles together with a cover essay All articles concern the ethics of skilled health worker emigration from under served and resourcepoor regions often referred to as medical brain drain Methodologically the thesis utilizes normative ethical theory to analyse the justifiability of temporary or long term emigration restrictions such as compulsory health service programmes that are employed by developing countries with the aim of safeguarding their needs for health care provision Such programmes restrict the mobility of individual health workers and give rise to conflicts between different types of rights and interests The ethics of skilled worker emigration warrants an exploration of the ethical implications of such restrictive programmes for different stakeholders such as the under served countries and health workers and a clarification of the rights and duties of the concerned parties This thesis provides a thorough analysis and clarification of such rights restrictions and offers theoretically and empirically grounded recommendations as to how they ought to be managed Rights theory and accounts of individual responsibilities are employed to assess the acceptability of restrictive

health service programmes In brief the thesis a discusses the conditions under which individual health workers may have responsibilities to attend to the basic health needs of a population b explicates the rights at stake such as the freedom of movement and the right to exit c offers insight into what it means to restrict one s right and its implications and d suggests ways for conflicting rights and interests to be balanced and resolved Taken together the thesis presents a nuanced approach towards individual responsibilities in under served contexts and an improved understanding of the right to exit as well as the implications of restricting the right The thesis also contributes to the ethics of skilled worker emigration with a discussion on the responsibilities of skilled workers when the other parties do not fulfil their fair share of responsibilities Denna avhandling i till mpad etik best r av fyra artiklar j mte en l ngre introduktion Samtliga artiklar behandlar etiska aspekter p emigrationen av h gutbildad v rdpersonal fr n utvecklingsl nder och resursfattiga regioner ett fenomen som ofta beskrivs som medicinsk kunskapsflykt Medical Brain Drain Utifr n normativ etisk teori analyseras i vilken utstr ckning om alls utvecklingsl nder ansatser att s kerst lla nationella v rd och omsorgsbehov med hj lp av begr nsningar av v rdpersonals mobilitet kan anses vara etiskt f rsvarbara I avhandlingen analyseras ocks olika intressenters skyldigheter och r ttigheter utifr n teorier om ansvar och r ttigheter Det g ller bland annat fr gan om sjukv rdspersonalens individuella ansvar att stanna i hemlandet f r att tillgodose grundl ggande v rdbehov hos befolkningen Avhandlingen bidrar med ett klarg rande av i argument f r och emot begr nsningar av v rdpersonals r tt att l mna landet ii relaterade r ttighets och intressekonflikters natur och iii teoretiskt f rankrade rekommendationer f r hur denna typ av konflikter b r hanteras Avhandlingen synligg r etiskt relevanta f ljder av obligatoriska v rdprogram f r olika intressegrupper stakeholders som stater v rdgivare v rdpersonal och v rdtagare liksom vilka r ttigheter och skyldigheter som st r p spel som exempelvis r tten att fritt l mna sitt land och r tten till grundl ggande h lso och sjukv rd Sammantaget bidrar avhandlingen med en grundlig analys av sk l f r och emot begr nsningar av den fundamentala men sparsamt analyserade m nskliga r ttigheten att l mna det egna landet

A Culture of Engagement

Cathleen Kaveny, 2016-03-01 Religious traditions in the United States are characterized by ongoing tension between assimilation to the broader culture as typified by mainline Protestant churches and defiant rejection of cultural incursions as witnessed by more sectarian movements such as Mormonism and Hassidism However legal theorist and Catholic theologian Cathleen Kaveny contends there is a third possibility a culture of engagement that accommodates and respects tradition It also recognizes the need to interact with culture to remain relevant and to offer critiques of social political legal and economic practices Kaveny suggests that rather than avoid the crisscross of the religious and secular spheres of life we should use this conflict as an opportunity to come together and to encounter challenge contribute to and correct one another Focusing on five broad areas of interest Law as a Teacher Religious Liberty and Its Limits Conversations about Culture Conversations about Belief and Cases and Controversies Kaveny demonstrates how thoughtful and purposeful engagement can contribute to rich constructive and difficult discussions between moral and cultural traditions This provocative collection

of Kaveny's articles from Commonweal magazine substantially revised and updated from their initial publication provides astonishing insight into a range of hot button issues like abortion assisted suicide government sponsored torture contraception the Ashley Treatment capital punishment and the role of religious faith in a pluralistic society At turns masterful and inspirational A Culture of Engagement is a welcome reminder of what can be gained when a diversity of experiences and beliefs is brought to bear on American public life
