Ethics Persuasion And Truth International Library Of Philosophy:

Ethics, Persuasion, and Truth John Jamieson Carswell Smart, 1984-01-01 **Towards a Theory of Relativity of Truth in Morality and Religion** Charles Goossens, 1990 This study argues for a model in which moral truth is presented as truth in the perspective of certain social commitments while religious truth is interpreted as truth in the perspective of religious experience It theorizes that relativity need not conflict with universality Truth from the perspective of the outsider is therefore truth without qualification *Philosophical Inquiry*, 1989 **Books in Series**, 1985 Vols for 1980 issued in three parts Series Authors and Titles **International Library of the Philosophy of Education** Charles Bailey, 2021-07-09 International Library of the Philosophy of Education reprints twenty four distinguished texts published in this field over the last half century and includes works by authors such as Reginald D Archambault Charles Bailey Robin Barrow Norman J Bull D E Cooper R F Dearden Kieran Egan D W Hamlyn Paul H Hirst Glenn Langford D J O Connor T W Moore D A Nyberg R W K Paterson R S Peters Kenneth A Strike I A Snook John and Patricia White and John Wilson Themes discussed include Liberal education moral education the aims of education the education of teachers adult continuing education and the philosophical analysis of education *American Book Publishing Record*, 2004 *Subject Guide to Books in Print*, 2001 *The British National Bibliography* Arthur James Wells, 2005 *Choice*, 2002 *Persuasion and Compulsion in Democracy* Jacquelyn Kegley, Krzysztof Piotr Skowronski, 2013-01-25 This collection of essays focuses on the roles that coercion and persuasion should play in contemporary democratic political systems or societies A number of the authors advocate new approaches to this question offering various critiques of the dominant classical liberalism views of political justification freedom tolerance and the political subject A major concern is with the conversational character of democracy Given the problematic and ambiguous status of the many differences present in contemporary society the authors seek to alert us to the danger that an emphasis on reasonable consensus will conceal exclusion in practice of some contending positions The voices of vulnerable peoples can be unconsciously or even deliberately silenced by various institutional processes and operating procedures and a strong media influence can change the tenor of conversations and even lead to deception To counter these factors a number of the essays in differing ways urge the fostering of local community conversations or democratic agoras so that democratic debate and conversation might maintain the vitality necessary to a strong democratic system *The Philosophical Review*, 1985 *Human Extinction* Émile P. Torres, 2023-06-15 This volume traces the origins and evolution of the idea of human extinction from the ancient Presocratics through contemporary work on existential risks Many leading intellectuals agree that the risk of human extinction this century may be higher than at any point in our 300 000 year history as a species This book provides insight on the key questions that inform this discussion including when humans began to worry about their own extinction and how the debate has changed over time It establishes a new theoretical foundation for thinking about the ethics of our extinction arguing that extinction would be very bad under most circumstances although the outcome might be

on balance good Throughout the book graphs tables and images further illustrate how human choices and attitudes about extinction have evolved in Western history In its thorough examination of humanity s past this book also provides a starting point for understanding our future Although accessible enough to be read by undergraduates Human Extinction contains new and thought provoking research that will benefit even established academic philosophers and historians **A London**
