International Journal of Surgery, 1891 *The International Journal of Surgery*, 1891 The Walls are Talking Abby Johnson, 2016-04-15 This book narrates the harrowing and life changing experiences of former abortion clinic workers including those of the author who once directed abortion services at a large Planned Parenthood clinic in Texas These individuals whose names have been changed to protect their identities left their jobs in the abortion industry after experiencing a change of heart They have come forward with their stories not for fame or notoriety but to shed light on the reality of abortion They want their stories to change the lives of others for the better These stories are difficult to read because an abortion is an act of violence harming not only the obvious victim the unborn child but also the mother the father the doctor and everyone else involved But these stories also offer hope for they show that anyone no matter what part the person has played in an abortion can start anew can make amends for past mistakes They demonstrate that the first step on that journey is telling the truth as these courageous individuals do in these pages Those of us that have worked in the abortion industry all live with a constant burden We can't let our burden slide off of our shoulders it is what keeps us on fire It reminds us of why we fight so hard We have seen death and evil in a way that most haven't and we participated But we are

Technology and Infertility Machel M. Seibel, Ann A. Kiessling, Judith Bernstein, Susan R. Levin, 2012-12-06 Medicine is changing at a speed never witnessed before in history With each passing year medical technology achieves the capacity to provide cures and improve treatments that even a short time before were difficult to conceptualize and impossible to provide Reproductive technology personifies this concept perhaps better than any other field of medicine The 1990s have seen an explosion in endoscopic and ambulatory procedures the application of molecular biology to clinical conditions and the refinement of assisted reproduction to allow third parties donors and surrogates into the process of family building More than ever before comprehensive medical care requires a team approach However the team comprises not only medical and scientific personnel but also mental health professionals lawyers and ethicists This integrated and multidisciplinary approach to medical care will become even more necessary as medical capabilities continue to develop faster than society can respond This book reflects such an approach It is based on a Harvard Postgraduate Course in June 1990 entitled Infertility in the 1990s Technological Advances and Their Psychosocial Implications that was sponsored by the Faulkner Centre for Reproductive Medicine The first half of the course was directed by Drs M Seibel A Kiessling and C Richards The second half of the course was directed by Dr M Seibel J Bernstein RN and S Levin LICSW American Journal of Surgery and Gynecology, 1903 Includes the papers and or proceedings of various surgical associations A Complicated Choice Katey Zeh, 2022-02-15 Too often the public abortion debate depicts the experience of ending a pregnancy in falsely simplistic terms Anti abortion activists falsely contend that abortion is always emotionally damaging for the pregnant person while pro choice activists focus on honoring bodily autonomy and personal conscience without always giving voice to the nuances of abortion itself In particular the pro choice movement fails to acknowledge that some people experience abortion as a kind of loss A Complicated Choice addresses the fact that abortion stigma is ubiquitous even among those who identify as pro choice We have not been supportive of people who have abortions especially those whose experiences are complicated and involve grief and loss Bringing the reader along the journeys of those who have had abortions Rev Katey Zeh opens up space for the complexities of our reproductive lives giving voice to the experiences of grief loss and healing surrounding abortion experiences She weaves these personal stories with key insights from the fields of psychology theology and public policy to illuminate the systemic injustices that undergird the conditions that shape a person's decision to end a pregnancy A Complicated Choice goes beyond the falsely simplistic terms pro life and pro choice that define the public abortion debate and centers the real people making the decision to end a pregnancy in the context of their full lives and circumstances A call to people of faith and to all people to examine our judgments about people who have abortions we are invited into the act of sacred listening to the real stories of those most impacted By focusing on these experiences we will be drawn away from the stalemate of debate and into a spiritual response rooted in compassion for those who end pregnancies **My Summer**
