Mechanical carpet sweepers were replaced by manual suction cleaners, which in turn were replaced by electric vacuum cleaners in the early 20th century. Innovative inventors who improved vacuum cleaners as electricity became commonly available made these advances possible. Many early manufacturers failed, but some such as Bissell, Hoover, Eureka, and others became household names as they competed for global dominance with improved features, performance, and appearance. This book describes the fascinating people who made this possible, as well as the economic, cultural, and technological contexts of their times. From obscure beginnings 200 years ago, vacuum cleaners have become an integral part of modern household culture. **The Unofficial Dyson DC07 Workshop Manual: All you need to know to perform any DIY repair to your Dyson DC07** Angus Black, 2011-12-01 The unofficial Dyson DC07 workshop manual.
