Approaches to Theological Ethics Maureen Junker-Kenny, 2019-11-14 Maureen Junker Kenny offers a systematic overview of the discipline of theological ethics in the variety of its approaches which draw upon different philosophical traditions and theological visions in treating its sources Part One examines the four sources of theological ethics the Bible tradition philosophical accounts of the human and the individual human sciences Part Two compares five frameworks in English and German speaking theological ethics based on virtue worship natural law autonomy and feminist analyses Part Three compares three types of vision integralist praxis oriented and discourse focused and Junker Kenny concludes by situating the investigation of the discipline within contemporary philosophical and theological exchanges on religion in the public sphere The book provides a framework in which students can locate the specific use of core ethical concepts and argumentations comparing how each approach relates to the Bible to historical reason theological thought practical self understandings and interdisciplinary perspectives on ethics in a scientific and technological culture In an age of globalisation where different cultures religions lifestyles and values meet in the workplace in schools and in public spaces shaped by religious and cultural traditions it is necessary to foster the ability to create possibilities and venues for dialogue between different self understandings Analysing the variety of approaches to theological ethics helps articulate different visions of what constitutes a fulfilled life of how the moral vocation of each human being can be supported and of the role of the Christian faith for ethics

Research Ethics in Human Geography Sebastian Henn, Judith Miggelbrink, Kathrin Hörschelmann, 2021-10-25 This book explores common ethical issues faced by human geographers in their research It offers practical guidance for research planning and design that incorporates geographic disciplinary knowledge to conceptualise research ethics The volume brings together international insights from researchers in geography and related fields to provide a comprehensive overview of relevant ethical frameworks and challenges in human geography research It includes in depth reflections on a range of ethical dilemmas that arise in certain contextual conditions and spatial constructions that face those researching and teaching on spatial dimensions of social life With a focus on the increased need for specialist ethics training as part of postgraduate education in the Humanities and Social Sciences and the necessity for fostering sensitivity in cross cultural comparative research the book seeks to enable people to engage in ethical decision making and moral reasoning while conducting research Chapters examine the implications of geographical research for conceptualising ethics and discuss specific case studies from which more general conclusions linked to conceptual debates are drawn As a research based reference guide for tackling ethically sensitive

projects and international differences in legal and institutional standards and requirements the book is useful for postgraduate and undergraduate students as well as academics teaching at senior levels

Hesburgh of Notre Dame Todd C. Ream, Michael J. James, 2022-11-25 This volume is the first comprehensive assessment of the life and legacy of Father Theodore Hesburgh 1917 2015 an educator priest public servant and long serving President of the University of Notre Dame Despite being a transformative figure in Catholic higher education who led the University of Notre Dame for 35 years and wielded influence with US presidents on civil rights and other charged issues of his era secular accounts of history often neglect to assess the efforts of religious figures such as Hesburgh In this volume the editors and their authors turn a fair minded but critical eye to the priest's record to evaluate where he fits into the long development of Catholic higher education and Catholics role in American public life

Artificial Intelligence and Human Enhancement Herta Nagl-Docekal, Waldemar Zacharasiewicz, 2022-04-04 The technological innovations that have made learning computers possible are being met with utopian hopes as well as apocalyptic apprehensions Will AI research eventually lead to software systems that have consciousness and are capable of autonomous decision making The essays challenge strong AI from the perspective of human agency and moral judgment explain the categorical difference between vulnerable humans and AI devices and discuss diverse forms of applied AI such as programs of natural language processing computational creativity neuroenhancement and the use of AI in international healthcare These theoretical issues are illustrated in essays that focus on the encounter with artificial beings in film literature and theater Examining science fiction that blurs the borderline between humans and deep learning androids the essays explore and challenge ways of questioning human exceptionalism for instance by visualizing non conscious cognition and sentience The book suggests a sober distinction between well argued achievements of digital technology and excessive unfounded expectations

Key Concepts and Issues in Nursing Ethics P. Anne Scott, 2017-03-08 Short case studies based on real stories from the health care arena ensure that each chapter of this book is rooted in descriptions of nursing practise that are grounded salient narratives of nursing care The reader is assisted to explore the ethical dimension of nursing practice what it is and how it can be portrayed discussed and analysed within a variety of practice and theoretical contexts One of the unique contributions of this book is to consider nursing not only in the context of the individual nurse patient relationship but also as a social good that is of necessity limited due to the ultimate limits on the nursing and health care resource This book will help the reader consider what good nursing looks like both within the context of limitations on resources and under conditions of scarcity Indeed any discussion of ethical issues in nursing should be well grounded in a conceptualisation of nursing that nursing students and practising nursing can recognise accept and engage with Nursing like medicine social work and teaching has a clear moral aim to do good In the case of nursing to do good for the patient However it is vital that in the pressurised constrained health service of the 21st century we help nurses explore what this might mean for nursing practice and what can reasonably be expected of the individual nurse in terms of good nursing care
