Hibbard,1988 Myles Textbook for Midwives Margaret F. Myles,1999 The world s most popular midwifery textbook presents practical and comprehensive coverage of anatomy and physiology as well as the important topical issues of midwifery practice The expert editors have added an impressive team of contributors literature reviews and references for further reading New issues covered include risk management complementary therapies research and independent practice **Obstetrics and Gynaecology in General Practice** John Eddy, John Douglas Owen,1985 **Davies's Textbook of Adverse Drug Reactions** David Margerison Davies, Robin E. Ferner, H. De Glanville,1998 In recent years a vast amount has been written on adverse drug reactions yet this surfeit of information has made it more difficult for clinicians to obtain unambiguous answers to their questions This book provides a map for clinicians to find their way through the jungle of toxicological fact and theory Comprehensive yet succinct the text deals with matters of fundamental importance with five new chapters and extensive revisions of chapters in previous editions The approach by clinical feature rather than by drug

matches the way the problem presents itself to the clinician This will be invaluable user friendly resource for all clinicians

Topics in Stroke Rehabilitation ,1994 **High-risk Pregnancy** Andrew Alexander Calder,William Dunlop (PhD.),1992

High Risk Pregnancy David K. James,1994 This major practical postgraduate textbook will be an essential reference for trainees established midwives and obstetricians It is comprehensive covering general obstetrics maternal disease fetal medicine and labour delivery and the puerperium It presents a wide range of established management options Many traditional texts are based on a single individual s experience and views here all the contributors to each section have been asked to provide their preferred management in all areas of their section Each resulting chapter attempts to reflect a range of acceptable practice This means that the reader can choose which option or combination of options is most appropriate for a particular clinical case It is practical It addresses those difficult questions which arise in practice and often stem from the constraints of time facilities finance and patient acceptability as much as from medical facts It is written by a panel of contributors who are both leaders in their field and who represent practice in the USA Europe and Australasia The presentation of each topic has been standardised as far as possible making information easier to extract from the book The management options for each major topic and guidance on key practical procedures are summarised in boxes for quick referral *Best Practice in Labor Ward Management* Lucy H. Kean,Philip N. Baker,Daniel I. Edelstone,2000 Provides a concise discussion of all aspects of labor ward management It is an evidence based book with full analysis of those areas where opinion is divided Physiology in Childbearing Dot Stables,Jean Rankin,2005 The aim of this book is to be a core textbook of anatomy and physiology in childbearing Written to present childbearing in the context of changes to non pregnant physiology therefore both anatomy and physiology their changes in pregnancy and pathophysiology are all described The book is divided into four sections preconception pregnancy labour and puerperium and it places childbearing in a total biological context so that concepts are drawn from disciplines such as evolution ecology biochemistry and cell biology At all times the text is related to practice and care giving Written by a teacher practitioner of midwifery with many years experience of teaching this subject Emphasises the links between knowledge and practice Text is well designed and easy to read Incorporates recent medical practice in caring for women and babies with problems Places childbearing in a biological context to allow depth without denigrating social sciences contribution to care Fully updated throughout New material on genetics incorporated into the chapter on the cell Highly illustrated throughout New 8pp colour plate section Further Reading fully updated and now with short annotations
