## **End Awkwardness Conversation Father Laws:**

**The Awkward Spaces of Fathering** Stuart C. Aitken, 2016-03-23 Societal notions of fathers have evolved from the distant breadwinner through genial dad and masculine role model to today's equal co parent. This book seeks to explore the spaces and movements of men as fathers. Weaving together theories of space, sexuality and political identity with the stories of fathers from a range of sources including popular culture, it discusses the way in which geographies of space can disconnect and disempower fathers while societal notions marginalize and disassociate them from raising children. It explores how fathering identities are shaped by family and community spaces and aims to move the definition of fathering beyond its definition in opposition to mothering. In doing so, it provides insights into the contradictory nature of father's lives and argues that rather than moving away from the traditional notions of masculine roles, that the emotional work of fathering in itself is an heroic act.

**Ends of the Earth** Keira Andrews, 2020-04-07 A desperate young father. A lonely ranger. A race against time. Jason Kellerman's life revolves around his eight-year-old daughter. Teenage curiosity with his best friend led to Maggie's birth and her mother tragically died soon after. Only twenty-five and a single dad, Jason hasn't had time to even think about romance. Disowned by his wealthy family, he's scrimped and saved to bring Maggie west for a camping vacation. The last thing Jason expects is to question his sexuality after meeting a sexy older park ranger, Ben Hettler, stuck. He loves working in the wild under Montana's big sky, but at forty-one, his love life is non-existent. His ex-boyfriend just married and adopted, and Ben's own dream of fatherhood feels impossibly out of reach. He's attracted to Jason, but what's the point? Besides the age difference and skittish Jason's lack of experience, they live thousands of miles apart. Ben wants more than a meaningless fling. Then a hunted criminal on the run takes Jason's daughter hostage, throwing Jason and Ben together in a desperate and dangerous search through endless miles of mountain forest. They'll go to the ends of the earth to rescue Maggie, but what comes next? Can they build a new family together and find a place to call home? Ends of the Earth is an age-gap gay romance from Keira Andrews featuring sexual awakening, action and adventure, a plucky kid, and of course a happy ending. Note: Previously published as *Road to the Sun*.

**Where Law Ends** Elizabeth Hatcher True, 2009-11 Detective Audrey Durant unscrambles the family battle that forced Loris Campbell's over-medicated husband into a nursing home, drawing on her fascination for South Carolina's colorful history to find echoes and clues from the past in the characters and realities of the present-day case, and culminating in a disturbingly realistic conclusion that could happen to any family.

**When Thoughts and Prayers Aren't Enough** Taylor S. Schumann, 2021-07-20 Taylor Schumann survived a school shooting yet she was left with permanent wounds, both visible and invisible. With compassion and honesty, she encourages readers to join her in taking action for a safer future.

**Frenemies** Ken Auletta, 2018-06-05 An intimate and profound reckoning with the changes buffeting the 2 trillion global advertising and marketing business from the perspective of its most powerful players by the bestselling author of *Googled* Advertising and marketing touches on every corner of our lives and is the invisible fuel powering almost all media. Complain about it though we might without it the world would be a darker place. And of all the industries wracked by change in the digital age few have been turned on its head as dramatically as this one has. We are a long way from the days of Don Draper as *Mad Men* is turned into *Math Men* and women though too few as an instinctual art is transformed into a science the old lions and their kingdoms are feeling real fear however bravely they might roar. *Frenemies* is Ken Auletta's reckoning with an industry under existential assault. He enters the rooms of the ad world's most important players some of them business partners some adversaries many frenemies a term whose ubiquitous use in this industry reveals the level of anxiety as former allies become competitors and accusations of kickbacks and corruption swirl. We meet the old guard including Sir Martin Sorrell the legendary former head of WPP the world's largest ad agency holding company while others play nice with Facebook and Google he rants some say Lear like out on the heath. There is Irwin Gotlieb maestro of the media agency GroupM the most powerful media agency but like all media agencies it is staring into the headlights as ad buying is more and more done by machine in the age of Oracle and IBM. We see the world from the vantage of its new powers like Carolyn Everson Facebook's head of Sales and other brash and scrappy creatives who are driving change as millennials and others who disdain ads as an interruption employ technology to zap them. We also peer into the future looking at what is replacing traditional advertising. And throughout we follow the industry's peerless matchmaker Michael Kassan whose company MediaLink connects all these players together serving as the industry's foremost power broker a position which feasts on times of fear and change. *Frenemies* is essential reading not simply because of what it says about this world but because of the potential consequences the survival of media as we know it depends on the money generated by advertising and marketing revenue that is in peril in the face of technological changes and the fraying trust between the industry's key players.
