Engaging Imaginations And Developing Creativity In Education:

Engaging Imagination and Developing Creativity in Education Krystina Madej, 2009-12-14 Imagination is the Source of Creativity and Invention This series of essays has been collected expressly to bring readers new ideas about imagination and creativity in education that will both stimulate discussion and debate and also contribute practical ideas for how to infuse our daily classrooms with imaginative activities In a world that values creative innovation it is distressing that our schools are dominated by an educational paradigm that pays too little attention to engaging the imagination and emotions of students in the curriculum and the worlds challenges that the curriculum is designed to prepare students to meet The ability of children to think creatively to be innovative enterprising and capable depends greatly on providing a rich imagination based educational environment It is only when we consider the imagination a vital component of our lives and one of the great workhorses of learning that we recognize the importance of adding the imaginative to the study of the affective cognitive and physical modes of our development Doing so fills a gap that has led to incomplete accounts of childrens development their subsequent learning needs and indeed how to fulfill these needs in educational environments This discussion about the importance of imagination and creativity in education has been taken up by researchers and educators around the world It is represented here by writings from authors from Brazil Canada China Denmark Italy Israel Japan and Romania In the first part of this book these authors explore and discuss theories of development imagination and creativity In the second part they extend these theories to broader social issues such as responsible citizenship gender and special needs education to new approaches to curriculum subjects such as literacy science and mathematics and to the educational environment of the museum

Engaging Imagination and Developing Creativity in Education (2nd Edition) Kieran Egan, Gillian Judson, Krystina Madej, 2015-09-10 Imagination is the source of creativity and invention This volume of essays has been collected expressly to bring readers new ideas about imagination and creativity in education that will both stimulate discussion and debate and also contribute practical ideas for how to infuse daily classrooms with imaginative activities Researchers and educators around the world have taken up the discussion about the importance of imagination and creativity in education This global relevance is represented here by writings from authors from Brazil Canada China Denmark Italy Israel Japan and Romania In the first part of the book these authors explore and discuss theories of development imagination and creativity In the second part they extend these theories to broader social issues including responsible citizenship gender and special needs education and to new approaches to teaching curriculum subjects such as literacy science and mathematics as well as to the educational environment of the museum Since the first edition of this book Imaginative Education IE has developed increasingly accessible strategies for teachers to routinely engage imagination in everyday practice New essays for the second edition include discussions about increasing political consciousness improving teacher education and using mathematical evaluation in Part I and phenomenological approaches to media education in Part

II *Emotional and Ecological Literacy for a More Sustainable Society* Giuliana Panieri, Margherita Paola Poto, Emily Margaret Murray, 2024-05-22 This open access book aims to promote ecological and emotional research and education for sustainability by cultivating values and behaviours consistent with how nature makes us feel connected and nurtured Built upon the intersection of ecological literacy and socio emotional learning grounded in sustainability and relational thinking the research developed in the book covers a wide range of themes connected to the Agenda 2030 *Learning as a Creative and Developmental Process in Higher Education* Judie Taylor, Clive Holmwood, 2018-10-26 Much has been written about the importance of creativity in learning and education over the last few decades This unique book extends beyond the usual focus on implementing creative methods in learning teaching and assessing within higher education to an examination of creativity as central to a learning process which is transformational for the student More specifically *Learning as a Creative and Developmental Process in Higher Education* examines the importance of a facilitative tutor student relationship and environment which contextualise this creative process of teaching and learning Bringing together unique teaching and learning approaches developed by experienced academics this book discusses a number of complex issues including approaches to an understanding of the student s self concept as learner the nature of the curriculum the potential of metaphor and creativity and a multi modal approach to learning and teaching Contributions to the book also examine some of the challenges and tensions of such an approach within the context of arts based subjects in higher education institutions Using a unique and coherent thematic structure that is based upon the student journey as a transformational process this book provides a new way of understanding the student journey through higher education Including an examination of the parallels between educational and arts education and arts therapies disciplines this book will be of interest to researchers academics and postgraduate students involved in the arts and the arts therapies as well as those studying creativity in teaching and learning in higher education It should be of particular interest to those involved in the teaching and training of teachers and lecturers in higher education *Play and Performance* Carrie Lobman, Barbara E. O'Neill, 2011-10-16 *Play and Performance* offers hope to those lamenting the loss of play in the twenty first century and aims to broaden the understanding of what play is This volume showcases the work of programs from early childhood through adulthood in a variety of educational and therapeutic settings and from a range of theoretical and practical perspectives The chapters cover an array of practices that can be seen across the play to performance continuum Taken together the myriad ways that play is performance and performance is play becomes clear sometimes blurring the need for distinction The volume provides play advocates researchers and practitioners a wealth of practical and theoretical ideas for expanding the use of performance as a tool for creating playful environments where children and adults can create and develop *Wonder-Full Education* Kieran Egan, Annabella I. Cant, Gillian Judson, 2013-07-24 For many children much of the time their experience in classrooms can be rather dull and yet the world the school is supposed to initiate children into is full of wonder This book offers a rich

understanding of the nature and roles of wonder in general and provides multiple suggestions for to how to revive wonder in adults teachers and curriculum makers and how to keep it alive in children Its aim is to show that adequate education needs to take seriously the task of evoking wonder about the content of the curriculum and to show how this can routinely be done in everyday classrooms The authors do not wax flowery they present strong arguments based on either research or precisely described experience and demonstrate how this argument can be seen to work itself out in daily practice The emphasis is not on ways of evoking wonder that might require virtuoso teaching but rather on how wonder can be evoked about the everyday features of the math or science or social studies curriculum in regular classrooms

The 5 Dimensions of Engaged Teaching Laura Weaver, Mark Wilding, 2013-05-07. Engaged teaching recognizes that educators need to offer more than lesson plans and assessments for students to thrive in the 21st century. Equip your students to be resilient individuals able to communicate effectively and work with diverse people. The authors contend that students must develop their emotional and social skills as thoroughly as their academic skills, and that teachers must cultivate this growth.
