Communication Criticism Rhetoric Social Codes Cultural Studies:

Communication Criticism Malcolm Osgood Sillars, Bruce E. Gronbeck, 2001 This introduction to criticism teaches students critical skills whether examining television fiction nonfiction visual arts or oral and written discourse Three introductory chapters provide a foundation to explore nine approaches to critical study The perspectives presented bridge disciplinary boundaries and include asking questions about how audiences process communication understanding human symbol systems and social relations as vehicles for comprehending the world value and narrative analysis and psychoanalytic and ideological criticism The discussions of using each approach contain questions critics are most likely to ask assumptions governing the approach an exploration of sample analyses that reveal vocabulary most frequently used and a review of the problems encountered by critics

The Rhetorical Power of Popular Culture Deanna D. Sellnow, 2010 This introductory textbook unites the study of rhetoric with the persuasive potential of today's texts in popular culture By providing students with a means by which to understand why popular texts are important to study as well as how to examine these texts underlying messages from a variety of rhetorical perspectives Deanna Sellnow helps readers become critical consumers of the many popular culture texts that influence them in their daily lives Features Benefits This textbook unites rhetorical criticism with mediated popular cultural texts e.g. film television rap music in ways that relate directly to the experiences of people in society today Each chapter is devoted to one theoretical perspective e.g. narrative dramatic Marxist feminist illusion of life visual pleasure media effects Each chapter provides a an explanation of a particular rhetorical theory b examples of messages the theory reveals when applied to various contemporary popular culture texts c embedded applying what you've learned opportunities for students to practice examining a specific film television program song or advertisement using the theory d one or two scholarly articles that use the theory to examine a popular culture text e one or two sample student papers that use the theory to examine a popular culture text and f an end of chapter challenge posed to students to examine in depth a contemporary artifact using the concepts described in the chapter Each chapter opens with reflective questions to guide students to about specific examples as read the chapter

Communicational Criticism Roger D. Sell, 2011 Further developing the line of argument put forward in his *Literature as Communication* 2000 and *Mediating Criticism* 2001 Roger D Sell now suggests that when so called literary texts stand the test of time and appeal to a large and heterogeneous circle of admirers this is because they are genuinely dialogical in spirit Their writers rather than telling other people what to do or think or feel invite them to compare notes and about topics which take on different nuances as seen from different points of view So while such texts obviously reflect the taste and values of their widely various provenances they also channel a certain respect for the human other to whom they are addressed So much so that they win a reciprocal respect from members of their audience In Sell's new book this ethical interplay becomes the focus of a post postmodern critique which sees literary dialogicality as a possible catalyst to new non hegemonic kinds of globalization The argument is

illustrated with major reassessments of Shakespeare Pope Wordsworth Dickens Churchill Orwell and Pinter and there are also studies of trauma literature for children and of ethically oriented criticism itself *The Rhetoric of Social Intervention*

Susan K. Opt, Mark A. Gring, 2009 The first ever thorough exploration and discussion of the rhetorical model of social invention RSI initially conceived by rhetorical theorist William R Brown for today's students and scholars **Literary**

Communication as Dialogue Roger D. Sell, 2020-11-15 As traced by Roger D Sell literary communication is a process of community making As long as literary authors and those responding to them respect each other's human autonomy literature flourishes as an enjoyable though often challenging mode of interaction that is truly dialogical in spirit This gives rise to author respondent communities whose members represent existential commonalities blended together with historical differences These heterogeneous literary communities have a larger social significance in that they have long served as counterweights to the hegemonic tendencies of modernity and more recently to postmodernity's well intentioned but restrictive politics of identity In post postmodern times their ethos is increasingly one of pleasurable egalitarianism The despondent anti hedonism of the twentieth century intelligentsia can now seem rather dated Some of the papers selected for this volume develop Sell's ideas in mainly theoretical terms But most of them offer detailed criticism of particular anglophone writers ranging from Shakespeare Ben Jonson and other poets and dramatists of the early modern period through Wordsworth and Coleridge to Dickens Pinter and Rushdie **The SAGE Encyclopedia of Communication Research**

The Ethics of Listening

Elizabeth S. Parks, 2018-11-16 There are ways of being in the world that create a flourishing life and other ways that restrict that life both for ourselves and others Listening is one of these ways of being Listening gives shape to speaking inviting other people into a dialogue that impacts our everyday lives Our acts of listening like all communication are shaped by our cultural and individual differences Unfortunately as people consider ways to ethically listen they often abide by a set of conversational rules that do not reflect or benefit their own or others unique contexts and communities In this book Parks responds to gaps in scholarship related to listening in communication research and difference in ethics scholarship Rather than imposing a rigid ethical norm that is unresponsive to diverse cultural practices her proposed listening ethic is one that is highly contextualized and pluralistic and yet dares to make normative claims Using discourse research methods that are both qualitative and quantitative Parks goes beyond describing what listening is in a given context to what ethical listening should be Empirical findings about listening from multiple communities that represent diverse ethnic gender and disability orientations are interwoven with insights from communication ethics to develop the first ever dialogic ethics of listening that is empirically based culturally grounded and normative Ten shared values emerge as guidelines for good listening in this ethic be open cultivate understanding practice authenticity engage in critical thinking invest in relationship care for the dialogue focus on what matters be intentionally present remember the ongoing story and be responsive to need These values while shared across cultures may be expressed in a diverse and sometimes conflicting communicative practices Ultimately Parks proposes that ethical listening is best conceptualized as pursuit of sustainable hospitality in our dialogic interactions within and across difference By understanding the ways that different people share listening values yet practice them differently we can learn to trust each other and attest to the hope that ethical dialogue is possible

The Political Mel

Brooks Samuel Boerboom, Beth E. Bonnstetter, 2019-06-07 The Political Mel Brooks analyzes both Mel Brooks's more popular films and his lesser known work to explore how his use of parody and satire his keen sense of the history of Jewish comedic conventions and his deep awareness of social issues encompasses a political project that while often implicit nonetheless speaks to the enduring political and social impact of his films Brooks's work often employs a nuanced political style that acts as a social commentary against those in power and in favor of oppressed and misunderstood persons This volume emphasizes

Brooks's political legacy and his masterful use of parody and satire to craft sophisticated political critiques of dominant culture Contributors illustrate in a practical and accessible way how to explore how comedic films and television series can employ parody and satire not just to mock generic conventions but also dominant political ideologies Scholars of media film pop culture political science and communication studies will find this volume especially useful **Indigenous African**
