Communicative Syllabus Systemic Functional Linguistics Collections:

The Communicative Syllabus Robin Melrose,2015-12-17 Beginning with a thorough survey of approaches to communicative syllabus design Melrose deals with the early 1970s functional approach and subsequent criticism of it as well as the contemporary search for a process approach to language learning It proposes a meaning negation model which draws upon the seminal work of Halliday Martin Fawcett and Lemke and is illustrated through their analysis of a unit from a communicative course book Its topical interactional approach is placed within the context of the current debate on language teaching and learning **The Communicative Syllabus** Robin Melrose,Various,2015 This Bloomsbury Academic Collection consists of a wide range of classic titles in linguistics and language studies from our prestigious imprints Frances Pinter Cassell and The Athlone Press **The Body in Language** Horst Ruthrof,2015-12-17 This book opposes the position that meanings can be explained by way of intralinguistic relations as in structural linguistics and its successors and rejects definitional descriptions of meaning as well as naturalistic accounts The idea that we are able to live by strings of mere signifiers is shown to rest on a misconception Ruthrof also attempts an explanation of why arguments grounded in a post Saussurean view of language as for instance certain feminist theories find it so difficult to show how precisely the body can be reclaimed as an integral part of linguistic signs In reinstating the body in language Ruthrof draws on Peirce Husserl Heidegger Wittgenstein and Derrida cognitive linguistics and rhetoric as well as on the writings of Helen Keller **The Communicative Syllabus** Robin Melrose,1995 Beginning with a thorough survey of approaches to communicative syllabus design Melrose deals with the early 1970s functional approach and subsequent criticism of it as well as the contemporary search for a process approach to language learning It proposes a meaning negation model which draws upon the seminal work of Halliday Martin Fawcett and Lemke and is illustrated through their analysis of a unit from a communicative course book Its topical interactional approach is placed within the context of the current debate on language teaching and learning Bloomsbury Publishing **Language Education** Nishevita Jayendran,Anusha Ramanathan,Surbhi Nagpal,2021-07-29 This book situates the teaching and learning of language in general and English in particular within the sociocultural context of India It engages with current scholarship in literacy studies and the pedagogies of language acquisition and learning The volume discusses the cultural discursive and sociopolitical functions of language education and the teaching of English in Indian schools It examines the importance of adopting flexible pedagogical and multimodal strategies in teaching vocabulary grammar literary genres like fiction poetry and drama rhetorical discourses and communicative English to learners for whom English is not one of their home language s It also discusses pragmatic approaches to curriculum design for communicative competence and critical literacy rooted in theoretical principles of language education The authors analyse issues relevant to secondlanguage acquisition English language teaching ELT emergent adult and critical literacies and critical pedagogies in language and literature Written in an accessible style the book comes with case studies exercises and additional references
