Section 17.1 Classification

In your textbook, read about how classification began and about biological classification.

For each item in Column A, write the letter of the matching item in Column B.

	Column A	Column B
_____	1. Grouping objects or information based on similarities	a. Aristotle
_____	2. Naming system that gives each organism a two-word name	b. Linnacus
_____	3. Developed the first system of classification	c. genus
_____	4. Branch of biology that groups and names organisms	d. classification
_____	5. Designed a system of classifying organisms based on their physical and structural similarities	e. taxonomy
_____	6. Consists of a group of similar species	f. binomial nomenclature

Determine if the statement is true. If it is not, rewrite the italicized part to make it true.

7. The scientific name of a species consists of a *family* name and a descriptive name.

8. The scientific name of modern humans is *Homo sapiens*.

9. *Latin* is the language of scientific names.

10. The *scientific* names of organisms can be misleading.

11. Taxonomists try to identify the *evolutionary relationships* among organisms.

12. Besides comparing the structures of organisms, taxonomists also compare the organisms' geographic distribution and *chemical makeup*.

13. Similarities between living species and extinct species *cannot* be used to determine their relationship to each other.

14. Because the bones of some dinosaurs have large internal spaces, some scientists think dinosaurs are more closely related to *amphibians* than to reptiles.

15. Classification can be useful in identifying the *characteristics* of an unknown organism.

meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Communities And Biomes Reinforcement Study Guide Answers books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Communities And Biomes Reinforcement Study Guide Answers books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Communities And Biomes Reinforcement Study Guide Answers books and manuals for download and embark on your journey of knowledge?
