La penumbra de la educación nacional o breve ensayo de su realidad. Acercaándose a temas reflexivos de la cultura, la estética y el pensamiento con un toque vinculado a la historia y una perspectiva humanística. El libro comprendía 5 apartados donde quedan patentes las huellas, las piezas, los fragmentos y porciones de un itinerario de lecturas escuelas, vivencias, ausencias, homenajes creando una cosmovisión personal desde el arte del ensayo crítico literario académico o libre. El libro consta de 5 apartados retazos primarios donde se ejercitan los primeros pasos que dan fisonomía y carácter exploración y estructura a las pesquisas e inquietudes que hilvanan y vertebran el tono general del resto del volumen de retazos de crítica literaria donde figuran trabajos sobre poesía, narrativa, cine que contrastan un ejercicio de lectura y comentario literario con una afición al testimonio y los vestigios de escuelas y autores representantes de una configuración intelectual estética y reflexiva del arte verbal y la difusión de autores como Giuseppe Ungaretti o Rosa Montero. Los retazos de homenajes incluye dos ensayos, el primero solemne, el segundo irreverente, hiriente ambos en un tono testimonial auto-referencial mostrando momentos vitales y un horizonte de formas culturales en el primer caso relativos a la vejez y en el segundo respecto a las atrocidades vividas por un joven mexicano extraviado en la narcotización de la vida. La sección de retazos libres expone lanteamientos reflexivos de distintos temas y con un tono mucho más espontáneo sin la atadura de la verificación y con el esfuerzo por pensar y reflexionar situaciones y problemas del presente finalmente la sección de retazos extras a adicionados y amorfos da paso a trabajos donde se constata un ejercicio combinatorio abarcando temas tratados con rigor académico art

*The Power of the Frame* José María Castillo-Pomeda, 2020-01-12 Beauty is a subject that has obsessed man since ancient times. While the concept of the beautiful is true is relative and depends on each social group and each era it is also true that our perception of beauty is subject to the harmony of the measures. In any facet of our life we instinctively seek harmony and balance. Why before two seemingly equal or similar images one attracts us more than the other. The information they transmit to us is the same but one is better we like it more. The answer is inside in its geometry in its structure in short in its composition. By studying the basic components of an image the fundamental elements of visual communication we find a universal language. Knowing how to recognize them in our frame relocate them and compose with them is as much or more important than the correct handling of the camera. There is still for some the common place that the image does not articulate a language itself it does not go beyond being an illustration and that it is necessary to explain it. I once heard José Saramago affirm the absolute superiority of the word over the image and condemn the old saying worth a picture more than a thousand words to the garbage can. This view which seems logical in a Nobel Prize for literature can underline the superiority of written language in the field of abstraction or mental creation. But it is to want to close your eyes and never better to the communicative and poetic value of the image. Of course this controversy settled it already in the Renaissance Leonardo da Vinci when he said Write the name of God next to his image and see where they look da Vinci 187 98
