Technology and English Studies James A. Inman, Beth L. Hewett, 2020-07-24 In scholarship about technology and English studies there are a number of first person narratives that suggest what may be termed traditional professional paths That is they chronicle the positive influence of a particular technology class professor or publication and suggest that it inspired a distinct and rewarding professional path What is missing is the rest of the story alternate ways that individuals have come to do work in technology and English studies and analysis of what this means for paths others might pursue *Technology and English Studies Innovative Professional Paths* meets this need The volume begins with definitions of its three central terms technology English Studies and professional paths Chapters are organized in four sections reflecting both a chronological progression and thematic professional development The Past as the Future Searching the Academy Pushing Boundaries and Forging Beyond As a forerunner in addressing professionalization across the domains that comprise technology and English studies it will prove foundational for many readers with non traditional or otherwise alternate backgrounds who are working out what professional paths might be available to them *Technology and English Studies Innovative Professional Paths* is an important professional development resource for professors instructors and graduate students across the field of English studies including rhetoric and composition computers and writing computer assisted language learning literary and linguistic computing literary studies English education technical communication linguistics writing centers second language education ESL and creative writing

English Journal ,2001 **Imagining Rhetoric** Janet Carey Eldred, Peter Mortensen, 2017-03-13 *Imagining Rhetoric* examines how women s writing developed in the decades between the American Revolution and the Civil War and how women imagined using their education to further the civic aims of an idealistic new nation In the late eighteenth century proponents of female education in the United States appropriated the language of the Revolution to advance the cause of women s literacy Schooling for women along with

abolition suffrage and temperance became one of the four primary arenas of nineteenth century women s activism Following the Revolution textbooks and fictions about schooling materialized that revealed ideal curricula for women covering subjects from botany and chemistry to rhetoric and composition A few short decades later such curricula and hopes for female civic rhetoric changed under the pressure of threatened disunion Using a variety of texts including novels textbooks letters diaries and memoirs Janet Carey Eldred and Peter Mortensen chart the shifting ideas about how women should learn and use writing from the early days of the republic through the antebellum years They also reveal how these models shaped women s awareness of female civic rhetoric both its possibilities and limitations

Ethnography Unbound Stephen Gilbert Brown, Sidney I. Dobrin, 2004-02-26 Problematises traditional ethnographic research methods offering instead self reflexive critical practices

Second Language Writing Research Paul Kei Matsuda, Tony Silva, 2014-04-08 This book consists of original chapters on various methodological issues in second language writing research

A Critique of Anti-racism in Rhetoric and Composition Erec Smith, 2019-12-12 A Critique of Anti racism in Rhetoric and Composition The Semblance of Empowerment critiques current antiracist ideology in rhetoric and composition arguing that it inadvertently promotes a deficit model of empowerment for both students and scholars Erec Smith claims that empowerment theory which promotes individual communal and strategic efficacy is missing from most antiracist initiatives which instead often abide by what Smith refers to as a primacy of identity an over reliance on identity particularly a victimized identity to establish ethos Scholars of rhetoric composition communication and critical race theory will find this book particularly useful

Peripheral Visions for Writing Centers Jackie Grutsch McKinney, 2013-04-15 *Peripheral Visions for Writing Centers* aims to inspire a re conception and re envisioning of the boundaries of writing center work Moving beyond the grand narrative of the writing center that it is a solely comfortable yet iconoclastic place where all students go to get one on one tutoring on their writing Grutsch McKinney shines light on other representations of writing center work Grutsch McKinney argues that this grand narrative neglects the extent to which writing center work is theoretically and pedagogically complex with ever changing work and conditions and results in a straitjacket for writing center scholars practitioners students and outsiders alike *Peripheral Visions for Writing Centers* makes the case for a broader narrative of writing center work that recognizes and theorizes the various spaces of writing center labor allows for professionalization of administrators and sees tutoring as just one way to perform writing center work Grutsch McKinney explores possibilities that lie outside the grand narrative allowing scholars and practitioners to open the field to a fuller richer and more realistic representation of their material labor and intellectual work
