**Opportunities for Organ Donor Intervention Research** National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Sciences Policy, Committee on Issues in Organ Donor Intervention Research, 2018-01-21 The organ donation and transplantation system strives to honor the gift of donated organs by fully using those organs to save and improve the quality of the lives of their recipients However there are not enough donated organs to meet the demand and some donated organs may not be recovered some recovered organs may not be transplanted and some transplanted organs may not function adequately Organ donor intervention research can test and assess interventions e g medications devices and donor management protocols to maintain or improve organ quality prior to during and following transplantation The intervention is administered either while the organ is still in the deceased donor or after it is recovered from the donor but before it is transplanted into a recipient Organ donor intervention research presents new challenges to the organ donation and transplantation community because of ethical questions about who should be considered a human subject in a research study whose permission and oversight are needed and how to ensure that such research does not threaten the equitable distribution of a scarce and valuable resource Opportunities for Organ Donor Intervention Research focuses on the ethical legal regulatory policy and organizational issues relevant to the conduct of research in the United States involving deceased organ donors This report provides recommendations for how to conduct organ donor intervention research in a manner that maintains high ethical standards that ensures dignity and respect for deceased organ donors and their families that provides transparency and information for transplant candidates who might receive a research organ and that supports and sustains the public's trust in the process of organ donation and transplantation

**Methods and Biostatistics in Oncology** Raphael. L.C Araújo, Rachel P. Riechelmann, 2018-04-16 This book introduces and discusses the most important aspects of clinical research methods and biostatistics for oncologists pursuing a tailor made and practical approach Evidence based medicine EBM has been in vogue in the last few decades particularly in rapidly advancing fields such as oncology This approach has been used to support decision making processes worldwide sparking new clinical research and guidelines on clinical and surgical oncology Clinical oncology research has many peculiarities including specific study endpoints a special focus on survival analyses and a unique perspective on EBM However during medical studies and in general practice these topics are barely taught Moreover even when EBM and clinical cancer research are discussed they are presented in a theoretical fashion mostly focused on formulas and numbers rather than on clinical application for a proper literature appraisal Addressing that gap this book discusses more practical aspects of clinical research and biostatistics in oncology

instead of relying only on mathematical formulas and theoretical considerations Methods and Biostatistics in Oncology will help readers develop the skills they need to understand the use of research on everyday oncology clinical practice for study design and interpretation as well to demystify the use of EBM in oncology Neuro-Oncology Compendium for the Boards and Clinical Practice Maciej M. Mrugala,Na Tosha Gatson,Sylvia C. Kurz,Jennifer L. Clarke,Kathryn S. Nevel,2023 This essential text includes supplementary figures and tables succinct review flashcards end of chapter questions and answers as well as end of volume exams so readers can review and test their own comprehension Each chapter has been reviewed by the editors to ensure cohesive board level verbiage emphasizing practical clinical knowledge Neuro Oncology Compendium for the Boards and Clinical Practice is up to date and comprehensive eliminating the need for multiple sources of study
