**Handbook of Interpersonal Competence Research** Brian H. Spitzberg,William R. Cupach,2012-12-06 Handbook of Interpersonal Competence Research offers a vital desk reference to anyone doing research on social skills and interaction Interpersonal competence defined broadly refers to the quality or skillfulness of social interaction The reference manual provides a complete and comprehensive bibliography on this subject with over 1 600 entries in addition to a review of over 80 measures directly related to the study of competence The Handbook covers more measures more constellation measures and provides a far more detailed bibliography than any source available to date No other work on this subject approaches the level of breadth and depth of both published and unpublished background sources Handbook of Interpersonal Competence Research will be valuable to clinicians consulting psychologists organizational consultants researchers and students interested in the assessment of social skills      *National Library of Medicine Current Catalog* National Library of Medicine (U.S.),1982      **Asha** American Speech-Language-Hearing Association,1990-08      **Current Catalog** National Library of Medicine (U.S.),1982 First multi year cumulation covers six years 1965 70      *Aphasia and Its Therapy* Anna Basso,2003-01-09 This is the first single authored book to attempt to bridge the gap between aphasia research and the rehabilitation of patients with this language disorder Studies of the deficits underlying aphasia and the practice of aphasia rehabilitation have often diverged and the relationship between theory and practice in aphasiology is loose The goal of this book is to help close this gap by making explicit the relationship between what is to be rehabilitated and how to rehabilitate it Early chapters cover the history of aphasia and its therapy from Broca s discoveries to the 1970s and provide a description of the classic aphasia syndromes The middle section describes the contribution of cognitive neuropsychology and the treatment models it has inspired It includes discussion of the relationship between the treatment approach and the functional model upon which it is based The final chapters deal with aphasia therapy After providing a sketch of a working theory of aphasia Basso describes intervention procedures for disorders resulting from damage at the lexical and sentence levels as well as a more general conversation based intervention for severe aphasics Anna Basso has run an aphasia rehabilitation unit for more than thirty years In this book she draws on her considerable experience to provide researchers clinicians and their students and trainees in speech language pathology and therapy aphasiology and neuropsychology with comprehensive coverage of the evolution and state of the art of aphasia research and therapy      **Neurological Rehabilitation** Michael P. Barnes,David C. Good,2013-01-10 Neurological Rehabilitation is the latest volume in the definitive Handbook of Clinical Neurology series It is the first time that this increasingly important subject has been included in the series and this reflects the growing interest and quality of scientific data on topics around neural recovery and the practical applications of new research The volume will appeal to clinicians from both neurological and rehabilitation backgrounds and contains topics of

interest to all members of the multidisciplinary clinical team as well as the neuroscience community The volume is divided into five key sections The first is a summary of current research on neural repair recovery and plasticity The authors have kept the topics readable for a non scientific audience and focused on the aspects of basic neuroscience that should be most relevant to clinical practice The next section covers the basic principles of neurorehabilitation including excellent chapters on learning and skill acquisition outcome measurement and functional neuroimaging The key clinical section comes next and includes updates and reviews on the management of the main neurological disabling physical problems such as spasticity pain sexual functioning and dysphagia Cognitive emotional and behavioural problems are just as important and are covered in the next section with excellent chapters for example on memory and management of executive dysfunction The final part draws the sections on symptom management together by discussing the individual diseases that are most commonly seen in neurorehabilitation and providing an overview of the management of the disability associated with those disorders The volume is a definitive review of current neurorehabilitation practice and will be valuable to a wide range of clinicians and scientists working in this rapidly developing field A volume in the Handbook of Clinical Neurology series which has an unparalleled reputation as the world's most comprehensive source of information in neurology International list of contributors including the leading workers in the field Describes the advances which have occurred in clinical neurology and the neurosciences their impact on the understanding of neurological disorders and on patient care **Educational**

**Alternatives for Students with Learning Disabilities** Susan A. Vogel, 2012-12-06 Educational Alternatives for Students with Learning Disabilities responds to the pressing need to provide teachers of learning disabled students with practical knowledge regarding state of the art intervention strategies This book provides examples of validated alternative educational practices which avoid the pitfalls and stigmatizing effects on students of older models of intervention The new practices aim to maximize teaching effectiveness and to assist the learning disabled in achieving their potential The intervention strategies described in this book have the power to enhance the efforts of all concerned **Proceedings of the First International Symposium on Specific Speech and Language Disorders in Children** Association for All

Speech-Impaired Children, 1987 The Handbook of Adult Language Disorders Argye E. Hillis, 2013-05-13 This distinctive handbook is a key reference for both clinicians and researchers working in the scientific investigation of aphasia The focus is on how the study of acquired language disorders has contributed to our understanding of normal language and its neural substrates and to the clinical management of language disorders The handbook is unique in that it reviews studies from the major disciplines in which aphasia research is conducted cognitive neuropsychology linguistics neurology neuroimaging and speech language pathology as they apply to each topic of language For each language domain such as reading there is a chapter devoted to theory and models of the language task a chapter devoted to the neural basis of the language task focusing on recent neuroimaging studies and a chapter devoted to clinical diagnosis and treatment of impairments in that

domain     **The Handbook of Adult Language Disorders** Argye Elizabeth Hillis, 2002 This distinctive handbook is a key reference for both clinicians and researchers working in the scientific investigation of aphasia The focus is on how the study of acquired language disorders has contributed to our understanding of normal language and its neural substrates and to the clinical management of language disorders The handbook is unique in that it reviews studies from the major disciplines in which aphasia research is conducted cognitive neuropsychology linguistics neurology neuroimaging and speech language pathology as they apply to each topic of language For each language domain such as reading there is a chapter devoted to theory and models of the language task a chapter devoted to the neural basis of the language task focusing on recent neuroimaging studies and a chapter devoted to clinical diagnosis and treatment of impairments in that domain     *Aphasia and Related Neurogenic Communication Disorders* Ilias Papathanasiou, Patrick Coppens, 2021-06-03 Aphasia and Related Neurogenic Communication Disorders Third Edition reviews the definition terminology classification symptoms and neurology of aphasia including the theories of plasticity and recovery     **Neurological Rehabilitation** Anna Basso, Margaret Forbes, François Boller, 2013-01-10 Aphasia is one of the most striking cognitive sequels of strokes and other cerebral lesions and attempts to rehabilitate aphasic patients have been undertaken for many years Following a brief overview of the epidemiology and the clinical characteristics of aphasia the chapter presents the major traditional approaches to rehabilitation They include the stimulation approach also called classic the behavior modification approach Luria's approach functional reorganization the pragmatic approach as well as the neurolinguistic approach The next section illustrates some of the current approaches to aphasia rehabilitation specifically the syndromic approach also called neoassociationist the cognitive neuropsychological approach and the social approach The chapter then provides examples of specific methods While all intervention strategies may be classified more or less correctly into one or another of the above categories it is not possible to mention the hundreds of specific interventions to be found in the literature some of which have been described only briefly and in reference to a single case The chapter concludes with a review of efficacy studies on aphasia therapy Despite some opinions to the contrary the current consensus is that sufficient experimental evidence of efficacy exists to recommend treatment of aphasia     *Test Critiques*, 1984     **Communication Interventions with Deaf People**, 2025-06-12 Communication Interventions with Deaf People concerns the application of spoken signed and written language interventions with deaf and hard of hearing children young people and adults Exploring the work that speech and language therapists pathologists deaf language specialists and other professionals carry out with deaf people this volume extends beyond the classroom and provides clinical and real life applications of learning and communication Historically communication interventions with deaf people have prioritised spoken language and considered it to be the most appropriate and normal accomplishment However this book begins with a deaf perspective on communication interventions where the multiple languages signed spoken and written of deaf people are valued equally and this paradigm shift is reflected

throughout the various chapters With over forty contributors the research and professional experience of experts working with deaf people across national borders is presented Individual chapters describe the ways that services are delivered and detail different aspects of communication interventions presenting the current evidence base and indicating areas where further research is needed
