Mahler, 2003 An exceptionally clear jargon free writing style and an emphasis on political institutions and behavior rather than on abstract conceptual frameworks make this volume consistently more accessible to readers than most others on comparative politics It features both across national approach permitting readers to develop a truly comparative understanding of the types of institutions e.g. constitutions executives legislatures political parties etc as well as a country by country approach that examines those

institutions within the context of eight different countries enabling readers to see how all the pieces fit together The volume analyzes comparative political analysis constitutions and ideologies political development and political economics legislatures and legislative structures the executive judiciary and the legal order interest groups political parties and the individual and the political environments of The British French German Japanese Canadian Mexican Nigerian and Russian political systems For those interested in a comprehensive look at comparative politics *Everyday Politics in Russia* Jeremy

Morris,2025-03-20 What do Russians really want Do they want authoritarianism and are they prepared to go along with a war of conquest and destruction Or do they want something else A landmark contribution to the field Morris is the only social researcher to have carried out fieldwork in Russia since the invasion of Ukraine engaging with communities in Moscow regional cities as well as rural areas to bring perspectives on Russian everyday lives that are now entirely inaccessible to the West *Everyday Politics in Russia* uses the lens of micropolitics defined not as politics in miniature but instead as taking seriously the political content of people s normal lives revealed in their practices interactions and discussions Based on decades long interactions with people from a diverse cross section of society in Russia from security service officers to factory workers from unemployed young men to citizen journalists and activists this is the most comprehensive insight to date into the complexity of Russian attitudes toward war their government and the post 1991 political trajectory

Outsourcing Control Katherine H. Tennis,2020-12-17 When the European Union signed an agreement with Turkey in 2016 to end irregular migration from Syria using extraterritorial measures the media framed it as a radical new low in migrant protection Similarly when then presidential candidate Donald Trump called on Mexico to pay for the wall critics argued it was an outlandish departure from established norms Extraterritorial migration control arrangements of this type have become more visible in recent years but they are not new Katherine Tennis traces the emergence of these agreements in the Americas Europe and Southeast Asia Grounded in case studies of negotiations between the United States and Haiti and Mexico Italy s negotiations with Tunisia and Libya and Spain s negotiations with Senegal *Outsourcing Control* argues that while some countries sharing an interest in ensuring orderly migration or recognizing the opportunity for kickbacks have been happy to cooperate others have objected claiming wealthy destination states are exploiting them to do their dirty work Tennis shows that these different responses depend on how the government in the partner country secures its power Autocracies and strong democracies tend to cooperate though for different reasons and in different ways The most unpredictable partners are fragile democracies who are prone to nationalism and populist backlash The first comprehensive study to trace the emergence of extraterritorial migration control agreements across nations *Outsourcing Control* reveals the international and domestic pressures behind the complex brutal and often deadly situation facing migrants today **The Political Economy of Universal Healthcare in Africa** Philip C. Aka,Hassan Wahab,Yvette M. Alex-Assensoh,2022-04-27 The global rise in pandemics most recently COVID 19 and other health challenges some of which are due to climate change

have imposed significant challenges on the healthcare systems in economies around the world. Thus this book deals with an issue that is very timely and relevant not just in Africa but globally. It critically assesses healthcare reforms in Ghana under the Fourth Republic since 1993. Although it focuses on Ghana's National Health Insurance Scheme of 2003, the book instructively goes beyond this program. The book argues that although Ghana is a bellwether of healthcare reforms in Africa, its healthcare initiatives are still far from the service haven of healthcare as a human right. Themes that animate the book's argument include the need to translate human rights law such as the right to health into practical policies that work for ordinary citizens. Key highlights of the book include an increased accent on health as a human right, emphasis on comparative analysis in healthcare studies, and the formulation of a four hallmark framework embedded in economics, law, politics, and human rights to act as a guide for assessment of healthcare reforms in Africa, in particular, and Ghana more specifically. Using Ghana as a case study and analytical window into the world, the book offers a valuable and timely resource for academics, students, and policymakers across the disciplines of development and healthcare, economics, law, public policy, political science, sociology, and African and Caribbean studies, as well as in various fields in health science. **Resources in Education**, 2001

Central and East European Politics Sharon L. Wolchik, Jane Leftwich Curry, 2008. This long needed text explores the other half of Europe: the new and future members of the European Union along with the problems and potential they bring to the region and to the world stage. Clear and comprehensive, it offers an authoritative and up to date analysis of the transformations and realities in Central and Eastern Europe: the Baltics and Ukraine. Divided into two parts, the book presents a set of comparative country case studies as well as thematic chapters on key issues including EU and NATO expansion, the economic transition and its social ramifications, the role of women, persistent problems of ethnicity and nationalism, and political reform. Leading scholars provide the historical context for the current situation of each country in the region. They explain how communism ended and how democratic politics has emerged or is struggling to emerge in its wake, how individual countries have transformed their economies, how their populations have been affected by rapid and wrenching change, and how foreign policy making has evolved. For students and specialists alike, this book will be an invaluable resource on the newly democratizing states of Europe. The Constitution of the Russian Federation Jane Henderson, 2011-05-04. This book provides a critical and contextual understanding of the current Russian Constitution. It comprises seven chapters: an introduction followed by substantive chapters covering specific aspects of Russia's constitutional history, structure, and practice; the history and nature of the constitution; an overview of the current 1993 Constitution of the Russian Federation and the background to its adoption; by plebiscite; executive power; the role and accountability of the President as Head of State; and the formation and powers of the federal government: the legislature and its formation, elections, and the methods for forming the two chambers: State Duma and Federation Council of the legislature; Federal Assembly; the constitutional role of the courts; the way in which rights are defined in constitutional terms and methods for their enforcement; and finally a

concluding chapter that focuses on characteristic features of Russian polity and constitutionality in the context of constitutional stability reform and change This is an essential work of reference for anyone who wishes to embark on studying Russian law and politics and a reflective assessment of progress in the modern era The United States Catalog Mary Burnham,Carol Hurd,1928 **American Political Science Research Guide** George W.
