This book is a collection of studies initially presented at the Third International Conference on Clement of Alexandria which was focused on the Paedagogus. Although on the surface the Paedagogus seems to be more easily accessible than Clement's lengthier Stromateis or his fragmentary Excerpta ex Theodoto, the studies show that a profound theological undercurrent runs through the three books of the Paedagogus: the first focusing on the Logos and the other two on ethics. Contributors: Emanuela Prinzivalli, Veronika Hrůšová, Miklós Gyurkovics, Edward Creedy, Marco Rizzi, Annewies van den Hoek, Václav Hušek, L. Onofri, Ferdinand Karuhije, Lenka Karfíková, Ilaria L. E. Ramelli, Riemer Roukema, Jana Plátová, Johannes Aakjær, Steenbuch Dawn, LaValle Norman, Carlo Perelli. *The Oxford Anthology of Roman Literature* Peter E. Knox, J. C. McKeown, 2013-10-31. Though the wonders of ancient Roman culture continue to attract interest across the disciplines, it is difficult to find a lively accessible collection of the full range of the era's literature in English. The Oxford Anthology of Roman Literature provides a general introduction to the literature of the Roman empire at its zenith between the second century BC and the second century AD. Two features of this extraordinarily fertile period in literary achievement as evidenced by this anthology are immediately and repeatedly clear: how similar the Romans' view of the world was to our own and perhaps even more obviously how different it was. Most of the authors included in the anthology wrote in Latin, but as the anthology moves forward in time, relevant Greek texts that reflect the cultural diversity of Roman literary life are also included. Something no other such anthology has done in the past, Roman literature was wonderfully creative and diverse, and the texts in this volume were chosen from a broad range of genres: drama, epic, philosophy, satire, lyric poetry, love poetry. By its very nature, an anthology can abbreviate and thus obscure the most attractive features of even a masterpiece, so the two editors have not only selected texts that capture the essence of the respective authors but also have included accompanying introductions and afterwords that will guide the reader in pursuing further reading. The presentations of the selections are enlivened with illustrations that locate the works within the contexts of the world in which they were written and enjoyed. The student and general reader will come away from this learned yet entertaining anthology with a fuller appreciation of the place occupied by literature in the Roman world.
