Enlightenment Very Short Introduction Introductions:

The Enlightenment: A Very Short Introduction John Robertson, 2015-09-24 A foundational moment in the history of modern European thought the Enlightenment continues to be a reference point for philosophers scholars and opinion formers To many it remains the inspiration of our commitments to the betterment of the human condition To others it represents the elevation of one set of European values to the world many of whose peoples have quite different values But what is the relationship between the historical Enlightenment and the idea of Enlightenment and can these two understandings be reconciled In this Very Short Introduction John Robertson offers a concise historical introduction to the Enlightenment as an intellectual movement of eighteenth century Europe Discussing its intellectual achievements he also explores how its supporters exploited new ways of communicating their ideas to a wider public creating a new public sphere for critical discussion of the moral economic and political issues facing their societies ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Jewish History: A Very Short Introduction David N. Myers, 2017-04-18 How have the Jews survived For millennia they have defied odds by overcoming the travails of exile persecution and recurring plans for their annihilation Many have attempted to explain this singular success as a result of divine intervention In this engaging book David N Myers charts the long journey of the Jews through history At the same time it points to two unlikely and decidedly this worldly factors to explain the survival of the Jews antisemitism and assimilation Usually regarded as grave dangers these two factors have continually interacted with one other to enable the persistence of the Jews At every turn in their history not just in the modern age Jews have adapted to new environments cultures languages and social norms These bountiful encounters with host societies have exercised the cultural muscle of the Jews preventing the atrophy that would have occurred if they had not interacted so extensively with the non Jewish world It is through these encounters indeed through a process of assimilation that Jews came to develop distinct local customs speak many different languages and cultivate diverse musical culinary and intellectual traditions Left unchecked the Jews well honed ability to absorb from surrounding cultures might have led to their disappearance And yet the route toward full and unbridled assimilation was checked by the nearly constant presence of hatred toward the Jew Anti Jewish expression and actions have regularly accompanied Jews throughout history Part of the ironic success of antisemitism is its malleability its talent in assuming new forms and portraying the Jew in diverse and often contradictory images for example at once the arch capitalist and revolutionary Communist Antisemitism not only served to blunt further assimilation but in a paradoxical twist affirmed the Jew s sense of difference from the host society And thus together assimilation and antisemitism at least up to a certain limit contribute to the survival of the Jews as a highly adaptable and yet distinct group

Foucault: A Very Short

Introduction Gary Gutting, 2005-03-24 Foucault is one of those rare philosophers who has become a cult figure Born in 1926 in France over the course of his life he dabbled in drugs politics and the Paris SM scene all whilst striving to understand the deep concepts of identity knowledge and power From aesthetics to the penal system from madness and civilisation to avant garde literature Foucault was happy to reject old models of thinking and replace them with versions that are still widely debated today A major influence on Queer Theory and gender studies he was openly gay and died of an AIDS related illness in 1984 he also wrote on architecture history law medicine literature politics and of course philosophy and even managed a best seller in France on a book dedicated to the history of systems of thought Because of the complexity of his arguments people trying to come to terms with his work have desperately sought introductory material that makes his theories clear and accessible for the beginner Ideally suited for the Very Short Introductions series Gary Gutting presents a comprehensive but non systematic treatment of some highlights of Foucault s life and thought Beginning with a brief biography to set the social and political stage he then tackles Foucault s thoughts on literature in particular the avant garde scene his philosophical and historical work his treatment of knowledge and power in modern society and his thoughts on sexuality ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Byzantium: A Very Short Introduction Peter Sarris, 2015-07-23 After surviving the fifth century fall of the Western European Roman Empire the Byzantine Empire flourished as one of the most powerful economic cultural and military forces in Europe for a thousand years In this Very Short Introduction Peter Sarris introduces the reader to the unique fusion of Roman political culture Greek intellectual tradition and Christian faith that took place in the imperial capital of Byzantium under the emperor Constantine and his heirs Using examples from Byzantine architecture art and literature Sarris shows how their legacy was re worked and re invented in the centuries ahead in the face of external challenges and threats Charting the impact of warfare with the Persian and Islamic worlds to the east Sarris explores the creativity of Byzantine statecraft and strategy as well as the empire s repeated but ultimately forlorn attempts to enlist aid from the Christian powers of Western Europe to ensure its survival ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Spinoza: A Very Short Introduction Roger Scruton, 2002-05-30 Benedict de Spinoza 1632 77 was at once the father of the Enlightenment and the last sad guardian of the medieval world In his brilliant synthesis of geometrical method religious sentiment and secular science he attempted to reconcile the conflicting moral and intellectual demands of his epoch and to present a vision of humanity as simultaneously bound by necessity and eternally free In this book Roger Scruton presents a

clear and systematic analysis of Spinoza's thought and shows its relevance to today's intellectual preoccupations

Humanism: A Very Short Introduction Stephen Law, 2011-01-27 Summary Philosopher Stephen Law explains why humanism though a rejection of religion nevertheless provides both a moral basis and a meaning for our lives publisher description

Rousseau, the Age of Enlightenment, and Their Legacies Robert Wokler, 2012-04-08 Robert Wokler was one of the world's leading experts on Rousseau and the Enlightenment but some of his best work was published in the form of widely scattered and difficult to find essays This book collects for the first time a representative selection of his most important essays on Rousseau and the legacy of Enlightenment political thought These essays concern many of the great themes of the age including liberty equality and the origins of revolution But they also address a number of less prominent debates including those over cosmopolitanism the nature and social role of music and the origins of the human sciences in the Enlightenment controversy over the relationship between humans and the great apes These essays also explore Rousseau's relationships to Rameau Pufendorf Voltaire and Marx reflect on the work of important earlier scholars of the Enlightenment including Ernst Cassirer and Isaiah Berlin and examine the influence of the Enlightenment on the twentieth century One of the central themes of the book is a defense of the Enlightenment against the common charge that it bears responsibility for the Terror of the French Revolution the totalitarian regimes of the twentieth century and the Holocaust

French Literature: A Very Short Introduction John D. Lyons, 2010-04-22 A concise and lively introduction to the world of French literature publisher description

The Enlightenment and the Fate of Knowledge Martin Davies, 2019-12-06 The Enlightenment is generally painted as a movement of ideas and society lasting from the late seventeenth to the early nineteenth century but this book argues that the Enlightenment is an essential component of modernity itself In the course of the study Martin Davies offers an original world view and a critique of some recent interpretations of the Enlightenment

The Etruscans: A Very Short Introduction Christopher Smith, 2014-05-29 From around 900 to 400 BC the Etruscans were the most innovative powerful wealthy and creative people in Italy Their archaeological record is both substantial and fascinating including tomb paintings sculpture jewellery and art In this Very Short Introduction Christopher Smith explores Etruscan history culture language and customs Examining the controversial debates about their origins he explores how they once lived placing this within the geographical economic and political context of the time Smith concludes by demonstrating how the Etruscans have been studied and perceived throughout the ages and the impact this has had on our understanding of their place in history

ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Theology and the Enlightenment Paul Avis, 2022-11-17 Challenging the common assumption that the Enlightenment of the late seventeenth and the eighteenth centuries was an essentially secular irreligious and

atheistic movement this book critiques this standard interpretation as based on a narrow view of Enlightenment sources Building on the work of revisionist historians this volume takes the argument squarely into the theological domain whether Anglican Dissenting Lutheran or deistic whilst also noting that the Enlightenment deeply affected Roman Catholic and Jewish theologies It challenges the stereotype of Enlightenment rationalism and the penultimate chapter brings out the biblical and ecclesial roots of the image of enlightenment and reclaims it for Christian faith

Tibetan Buddhism: A Very Short Introduction Matthew Kapstein, 2014 What does Tibetan Buddhism teach Just what is the position of the Dalai Lama and how will his succession be assured This Very Short Introduction offers a brief account responding to these questions and more in terms that are easily accessible to those who are curious to learn the most essential features of Tibetan Buddhist history teachings and practice

Buddhist Ethics: A Very Short Introduction Damien Keown, 2005-06-23 The latter half of the twentieth century witnessed a growing interest in Buddhism and it continues to capture the imagination of many in the West who see it as either an alternative or a supplement to their own religious beliefs Numerous introductory books have appeared in recent years to cater for this growing interest but almost none devotes attention to the specifically ethical dimension of the tradition For complex cultural and historical reasons ethics has not received as much attention in traditional Buddhist thought as it has in the West and publications on the subject are few and far between Here Damien Keown author of *Buddhism A Very Short Introduction* illustrates how Buddhism might approach a range of fascinating moral issues ranging from abortion and suicide to cloning

ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Conflict and Enlightenment Thomas Munck, 2019-11-07 This novel study of political culture in Enlightenment Europe analyses print public opinion and the transnational dissemination of texts

Blood: A Very Short Introduction Chris Cooper, 2016-09-15 Blood is vital to most animals In mammals it transports oxygen and food carries away waste and contains the white cells that attack invading microbes Playing a central role in life it has had profound cultural and historical significance and plays an important role in religious ritual Blood was one of the four humours in early Western medicine and is still probably the major diagnostic tool in the doctor's armoury In this Very Short Introduction Chris Cooper analyses the components of blood explains blood groups and looks at transfusions blood tests and blood borne diseases He considers what the future may hold including the possibility of making artificial blood and producing blood from stem cells in the laboratory

The Middle Ages: A Very Short Introduction Miri Rubin, 2014-10-23 The Middle Ages is a term

coined around 1450 to describe a thousand years of European History In this Very Short Introduction Miri Rubin provides an exploration of the variety change dynamism and sheer complexity that the period covers From the provinces of the Roman Empire which became Barbarian kingdoms after c 450 650 to the northern and eastern regions that became increasingly integrated into Europe Rubin explores the emergence of a truly global system of communication conquest and trade by the end of the era Presenting an insight into the challenges of life in Europe between 500 1500 at all levels of society Rubin looks at kingship and family agriculture and trade groups and individuals Conveying the variety of European experiences while providing a sense of the communication cooperation and shared values of the pervasive Christian culture Rubin looks at the legacies they left behind ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Adam Smith: A Very Short Introduction Christopher J. Berry, 2018-10-18 In 1776 Adam Smith 1723 90 wrote The Wealth of Nations a book so foundational it has led to him being called the father of economics Today he is associated with the promotion of self interest a defence of greed and a criticism of any governmental interference in market transactions which if left to the invisible hand will produce prosperity and liberty Yet if Smith is actually read these associations are more a caricature than a faithful portrait In this Very Short Introduction Christopher Berry offers a balanced and nuanced view of this seminal thinker embedding his fierce defence of free trade competition and assault on special interests in contemporary European history politics and philosophy As Berry explores Smith was far more than an economist His book The Theory of Moral Sentiment offered a complex account of ethics in the context of human social behaviour His scope as a professor at the University of Glasgow a major centre of the Scottish Enlightenment was extensive Beyond courses in philosophy and jurisprudence he also gave classes covering history literature and language In addition to his two major works he also wrote a pioneering study of the history of astronomy as an illustration of the motivations that drive humans to seek answers to questions He produced again derived from his Glasgow classroom an analysis of the development of grammar and language As Christopher Berry shows Adam Smith was no narrow thinker but rather one who produced not only one of the greatest books in the history of social science but also a wide ranging body of work that remains significant today ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

The Past, Present, and Future of Legislation with Supermajority Boldizsár Artúr Szentgáli-Tóth, 2025-08-25 This book revisits the main challenges raised by the implementation of supermajority legislation a constitutionally prescribed subcategory of statutory norms that covers at least in principle the most important fields of

legislation and which is subject to stricter procedural requirements than the ordinary legislative process The book puts the issue in a broader context yielding valuable comparative insights It lays the theoretical groundwork for the interdisciplinary assessment of supermajority law concepts which are ranked somewhere between the constitutional and statutory level in the legal pyramid To cite the most important example there is still no coherent standard to help constitutional courts decide whether individual statutory provisions should be covered by supermajority legislation or ordinary legislation The three main points of departure are the following Firstly the book posits that supermajority shall be distinguished from ordinary laws as a separate constitutional concept and a category of legal sources with a legal rank falling clearly under the constitution but over ordinary laws The second assumption states that due to several shortcomings the current procedural frameworks of supermajority law could not maximize its efficiency as a constitutional instrument Other tools might better highlight the role of supermajority laws as safeguards vis vis their currently mostly restrictive character Thirdly the book relies on the assumption that the current concept of supermajority law covers an overbroad range of statutes Therefore the volume argues for the necessity of narrowing the supermajority legislation to counterbalance the distortive effects of this framework In light of these three considerations more legitimate alternative directions can be identified to further develop the existing main models the scope of this legal instrument might be diminished mandatory a priori review might be established while the reconsideration of the legislative process or the elaboration of precise contours for the hierarchy of norms might also be necessary This book is intended for policymakers scholars and university students interested in understanding the mechanisms of parliamentary legislation in more depth *The Russian Revolution: A Very Short Introduction* S. A.

Smith, 2002-02-21 This introduction to the Russian Revolution provides a narrative of the main developments between 1917 and 1936 It sees the process as the result of a backward society which sought modernisation and ended in political tyranny

Slavery and the American Founding Jude M. Pfister, 2025-03-21 Since 1776 the Founding generation has been portrayed as creators of a new world where liberty and freedom were the inherent birthright of all peoples The Founders although brilliant were nonetheless human and fashioned a country conceived in liberty and freedom for themselves The enslaved women and other minorities were not part of the original Founding documents All men created equal was a political statement not some ethereal message of Enlightenment understanding This book demonstrates that to understand the American Founding is to understand the totality of America The American Founding and the so called compromises forged by state delegates to ensure national unity despite existing alternatives that could have rejected enslavement defined the period from 1765 to 1800 and planted the seeds for a horrific civil war Two of the most debated words from the Age of Enlightenment freedom and liberty not only made America independent but also made it dependent on an execrable system rejected by most of the European thinkers who inspired the uprising against Britain

As recognized, adventure as capably as experience approximately lesson, amusement, as capably as treaty can be gotten by just checking out a ebook **Enlightenment Very Short Introduction Introductions** with it is not directly done, you could understand even more more or less this life, more or less the world.

We come up with the money for you this proper as skillfully as simple pretentiousness to get those all. We find the money for Enlightenment Very Short Introduction Introductions and numerous books collections from fictions to scientific research in any way. along with them is this Enlightenment Very Short Introduction Introductions that can be your partner.
