Commerce Business Daily, 1998-05 *Entrepreneurship and Small Firms 6e* David Deakins, Mark Freel, 2012-03-16

The sixth edition of *Entrepreneurship and Small Firms* has been fully revised and updated with contributions from leading academics in the field. Retaining the popular style of the previous editions and offering a clear and accessible introduction to the topic, this book provides a thorough coverage of entrepreneurial and small firm theory, concepts, evidence, policy and practice. Integrating academic theory with the day to day realities that entrepreneurs may encounter, it furnishes the student with a comprehensive analysis of entrepreneurship. This well established text is justly popular for its clear and accessible approach, presenting the key topics of an entrepreneurship module in an engaging yet rigorous style. The book covers wide ranging topics from the economic influences on entrepreneurship and sources of finance to issues of diversity, family business and social entrepreneurship. New to this edition is a chapter on Corporate Entrepreneurship, offering students a unique insight into entrepreneurship activities in larger businesses and organizations. A reorganized chapter structure for the sixth edition allows students to navigate the four parts of the text from introductory concepts, the domains of entrepreneurship, through to strategy and to implementation. New part cases help to highlight the core themes and apply them to real business scenarios.

Glaeser, Andrei Shleifer, Andrei Schleifer, 1998 Entrepreneurs who start new firms may choose not for profit status as a means of committing to soft incentives Such incentives protect donors volunteers consumers and employees from ex post expropriation of profits by the entrepreneur We derive conditions under which completely self interested entrepreneurs opt for not for profit status despite the fact that this status limits their ability to enjoy the profits of their enterprises When entrepreneurs have a taste for producing high quality products the incentives are even softer and moreover non profit status can serve as a signal of that taste We also show that even in the absence of tax advantages unrestricted donations would flow to non profits rather than for profit firms because donations have more significant influence on the decisions of the non profits
