The Routledge Handbook of Applied Climate Change Ethics Donald A. Brown,Kathryn Gwiazdon,Laura Westra,2023-09-27 The Routledge Handbook of Applied Climate Change Ethics is a powerful reference source for the identification and exploration of the underlying ethical issues in climate change law and policy Bridging theory with practice it takes ethical engagement out of the classroom and into the halls of governance The Handbook s 39 chapters written by a diverse and inter disciplinary team of experts from around the world are case studies divided into five parts Parts I IV highlight the ethical issues that arise in climate change policy formation from duties not to harm to duties to consider the views and voices of those who will be or are being harmed from the role of human rights justice and democracy to how to identify and respond to disinformation and denialism It also raises the ethics of various policy responses such as cap and trade carbon taxing and geo engineering Part V offers a way forward with strategies on how to expressly consider ethics in

climate change policy formation from negotiations to education media communication and the power and potential of shaming The volume is essential reading for students professors and practitioners who wish to better engage with government and non government organizations on climate policy to better understand the practical application of the theory and philosophy of ethics and how to more strongly draft and defend ethical action in negotiating drafting and defending climate change law and policy *Energy and Natural Resources Law in a Nutshell* Jan Laitos, Joseph P. Tomain, 1992 At least 30 databases can be accessed with Bowker's fine software familiar to those who use Books in Print PLUS or BIP PLUS with Reviews The exact number of databases is somewhat elusive because the promotional brochure seems to have left some off its list a browsing search of the disk shows cl **The Use of Nuclear Weapons and the Protection of the Environment during International Armed Conflict** Erik V Koppe, 2008-04-25 In 1996 the International Court of Justice delivered an Advisory Opinion on the legality of the use of nuclear weapons in which the Court stated that while the existing international law relating to the protection and safeguarding of the environment does not specifically prohibit the use of nuclear weapons it indicates important environmental factors that are properly to be taken into account in the context of the implementation of the principles and rules of the law applicable in armed conflict The present work analyses this conclusion focusing on the question whether or not the use of nuclear weapons during international armed conflict would violate existing norms of public international law relating to the protection and safeguarding of the environment Although the use of weaponry during armed conflict is usually related to the protection of individuals the rapidly emerging appreciation of and the worldwide realization of the intrinsic value of the natural environment as an indispensable asset for the continuation of life including human life on this planet both for present and future generations warrants a thorough and extensive examination of the question of the illegality of the employment of nuclear weapons from the point of view of international environmental protection law The book consists of two parts Part I discusses the historical development and the effects of nuclear weapons Part II discusses the protection of the environment during international armed conflict under *ius in bello* *ius ad bellum* and *ius pacis* Only then is it possible to assess the legality of the use of nuclear weapons under this particular set of rules

Ecosystem-Based Management, Ecosystem Services and Aquatic Biodiversity Timothy G. O'Higgins, 2020 Aquatic ecosystems are rich in biodiversity and home to a diverse array of species and habitats providing a wide variety of benefits to human beings Many of these valuable ecosystems are at risk of being irreversibly damaged by human activities and pressures including pollution contamination invasive species overfishing and climate change Such pressures threaten the sustainability of these ecosystems their provision of ecosystem services and ultimately human well being Ecosystem based management EBM is now widely considered the most promising paradigm for balancing sustainable development and biodiversity protection and various international strategies and conventions have championed the EBM cause and the inclusion of ecosystem services in decision making This open access book introduces the essential concepts and principles

required to implement ecosystem based management detailing tools and techniques and describing the application of these concepts and tools to a broad range of aquatic ecosystems from the shores of Lough Erne in Northern Ireland to the estuaries of the US Pacific Northwest and the tropical Mekong Delta Reducing Toxics Robert Gottlieb, 2013-04-22 In Reducing Toxics leading experts address industry technology health and policy issues and explore the potential for pollution prevention at the industry and facility levels They consider both the regulatory and institutional settings of toxics reduction initiatives prescribe strategies for developing a prevention framework and apply these principles in analyzing industry case studies Among the topics considered are the evolution of and limits to current environmental policy incorporating prevention into production planning and decisionmaking do voluntary programs lead to industry greening or greenwashing case studies of the chemical aerosols radiator repair and electric vehicle industries opportunities for and barriers to pollution prevention Reducing Toxics offers an analytic framework for defining and understanding different approaches in the toxics area and describes the basis for a new policy and industrial decisionmaking construct **The Redesigned Earth** John T. Tanacredi, 2019-12-12 This book provides insight into the basic aspects of ecology that impact or are affected by engineering practices Ecological principals are described and discussed through the lens of the influences that built structures have on the Earth s biological geological and chemical systems The text goes on to elucidate the engineering influences that have or will influence the face of the Earth These influences redesign the Earth either by destroying natural systems and replacing them with highly subsidized systems or by attempting to restore highly disturbed or contaminated systems with the basic natural systems that were originally present Complexity's Embrace Oonagh E. Fitzgerald, Eva Lein, 2018-03-31 An unprecedented political economic social and legal storm was unleashed by the United Kingdom s June 2016 referendum to leave the European Union and the government s response to the vote After decades of strengthening European integration and independence Brexit necessitates a deep understanding of its international law implications on both sides of the English Channel in order to chart the stormy seas of negotiating and advancing beyond separation In Complexity s Embrace international law practitioners and academics from the United Kingdom Europe Canada and the United States look beyond the rhetoric of Brexit Means Brexit and no agreement is better than a bad agreement to explain the challenges that need to be addressed in the diverse fields of trade financial services insolvency intellectual property environment and human rights The authors in this volume articulate with unvarnished clarity the international law implications of Brexit providing policy makers commentators the legal community and civil society with critical information they need to participate in negotiating their future within or outside Europe Complexity s Embrace explores the many unprecedented questions about the UK s future trading arrangements Contributors include Thomas Cottier Armand de Mestral Oonagh E Fitzgerald David A Gantz Markus Gehring Valerie Hughes Matthias Lehmann Eva Lein Dorothy Livingston Richard Macrory Luke McDonagh Marc Mimler Howard P Morris Gabriel Moss Helen Mountfield Federico M Mucciarelli Joe Newbiggin Colm O Cinneide Damilola S
