Donald Hughes, 2014-02-15 How did ancient societies change the environment and how do their actions continue to affect us today In this dramatically revised and expanded second edition of the work entitled *Pan's Travail* J Donald Hughes examines the environmental history of the classical period and argues that the decline of ancient civilizations resulted in part from their exploitation of the natural world Focusing on Greece and Rome as well as areas subject to their influences Hughes offers a detailed look at the impact of humans and their technologies on the ecology of the Mediterranean basin Evidence of deforestation in ancient Greece the remains of Roman aqueducts and mines and paintings on centuries old pottery that depict agricultural activities document ancient actions that resulted in detrimental consequences to the environment Hughes compares the ancient world's environmental problems to other persistent social problems and discusses attitudes toward nature expressed in Greek and Latin literature In addition to extensive revisions based on the latest research this new edition includes photographs from Hughes's worldwide excursions a new chapter on warfare and the environment and an updated bibliography

Pan's Travail Johnson Donald Hughes, 1994 Many people express surprise writes J Donald Hughes when they are told that environmental problems existed in the ancient world they are used to thinking of the environment as an exclusively modern concern But an examination of the evidence shows that the Greeks and Romans not only suffered from some of the same predicaments that plague the present scene but in many cases they were aware of them and commented on them In *Pan's Travail* Hughes examines the environmental history of the classical period and argues that the decline of ancient civilizations resulted in part from exploitation of the natural world Focusing on Greece and Rome as well as on areas subject to their influences Hughes offers a detailed look at the impact of humans and their technologies on the ecology of the Mediterranean basin He explores the complex relationships of human culture and the environment with topics that include deforestation and overgrazing soil erosion depletion of wildlife and natural resources pollution and urban problems such as water supply and sewage disposal He also compares the ancient world's environmental problems to those of other eras and discusses attitudes toward nature expressed in Greek and Latin literature

Juvenal's Global Awareness Osman Umurhan, 2017-07-28 In Juvenal s Global Awareness Osman Umurhan applies theories of globalization to an investigation of Juvenal s articulation and understanding of empire imperialism and identity Umurhan explains how the increased interconnectivity between different localities ethnic and political shapes Juvenal s view of Rome as in constant flux and motion Theoretical and sociological notions of deterritorialization time space compression and the rhizome inform the satirist s language of mobility and his construction of space and place within second century Rome and its empire The circulation of people goods and ideas generated by processes of globalization facilitates Juvenal s negotiation of threats and changes to

Roman institutions that include a wide array of topics from representations of the army and food to discussions of cannibalism and language. Umurhan's analysis stresses that Juvenalian satire itself is a rhizome in both function and form. This study is designed for audiences interested in Juvenal, empire and globalization under Rome.

Children and Childhood in Classical Athens Mark Golden, 2015-06-30 A thoroughly revised and updated edition of Mark Golden's groundbreaking study of childhood in ancient Greece. First published in 1990, *Children and Childhood in Classical Athens* was the first book in English to explore the lives of children in ancient Athens. Drawing on literary, artistic and archaeological sources as well as on comparative studies of family history, Mark Golden offers a vivid portrait of the public and private lives of children from about 500 to 300 B.C. Golden discusses how the Athenians viewed children and childhood, describes everyday activities of children at home and in the community and explores the differences in the social lives of boys and girls. He details the complex bonds among children, parents, siblings and household slaves and he shows how a growing child's changing roles often led to conflict between the demands of family and the demands of community. In this thoroughly revised edition, Golden places particular emphasis on the problem of identifying change over time and the relationship of children to adults. He also explores three dominant topics in the recent historiography of childhood: the agency of children, the archaeology of childhood and representations of children in art. The book includes a completely new final chapter, text and notes rewritten throughout to incorporate evidence and scholarship that has appeared over the past twenty-five years and an index of ancient sources.

Population and Economy in Classical Athens Ben Akrigg, 2019-03-28 Systematically explores the changing size and structure of the population of classical Athens and the implications for economic history.

economic structures and literary and philosophical representations of cities Part of the authoritative Blackwell Companions to the Ancient World series A Companion to Cities in the Greco Roman World is an excellent resource for advanced undergraduate and graduate students researchers and lecturers in Classics Ancient History and Classical Mediterranean Archaeology as well as historians and archaeologists looking to update their knowledge of Greek or Roman urbanism **The Roman Empire** James W. Eder, 2018-05-01 Covering material from the time of Julius Caesar to the sack of Rome this topically arranged reference set provides substantive entries on people cities government institutions military developments material culture and other topics related to the Roman Empire The Roman Empire was one of the greatest and most influential forces of the ancient world and many of its achievements endure in one form or another to this day Because of its geographic breadth cultural diversity and overall complexity it is also one of the most difficult organizations to understand This book focuses on the Roman Empire from the time of Julius Caesar to the sack of Rome While most references on the Roman world provide a series of alphabetically arranged entries this work is organized in broad topical chapters on government and politics administration individuals groups and organizations places events military developments and objects and artifacts Each section provides 20 to 30 substantive entries along with an overview essay The work also provides a selection of primary source documents and closes with a bibliography of important print and electronic resources Cave Canem Iain Ferris, 2018-02-15 Lavishly illustrated this book examines both written and archaeological sources particularly visual evidence in the form of sculptures coins mosaics wall paintings and decorated everyday items in order to shed light on animals in Roman culture Community as the Material Basis of Citizenship Rodolfo Rosales, 2017-11-01 Community as the Material Basis of Citizenship addresses community as the site of participation production and rights of citizens and brings to bear a profound critique of a collective process that has historically excluded working class communities and communities of color from any real governance The argument is that the status of citizenship has been influenced by a society that emphasizes the role of property in defining legitimacy and power and therefore idealizes and institutionalizes citizenship from an individualistic perspective This system puts the onus on the individual citizen to participate in their governance while the political reality is that organizations and corporations and their interests have great power to influence and govern The chapters present an exciting departure from the long standing traditions of the social basis of citizenship In Community as the Material Basis of Citizenship Rodolfo Rosales and his contributors argue that citizenship is a communally embedded and or socially constituted phenomenon Hence the unfinished story of American Democracy is not in the equalization of communities but rather in their ability to participate in their own governance in their empowerment Histories of the Unexpected: The Romans Sam Willis, James Daybell, 2019-11-07 Histories of the Unexpected not only presents a new way of thinking about the past but also reveals the world around us as never before Traditionally the Romans have been understood in a straightforward way but the period really comes alive if you take an unexpected approach to its history Yes emperors the

development of civilisation and armies all have a fascinating history but so too do tattoos collecting fattening recycling walking poison fish inkwells and wicked stepmothers Each of these subjects is equally fascinating in its own right and each sheds new light on the traditional subjects and themes that we think we know so well **Soldier, Priest, and God** F. S. Naiden, 2019 This is the first life of Alexander the Great to explore his religious experience to put his experience in Egypt and Asia on a par with his Macedonian upbringing and Greek education and to explain how the European conqueror became a Moslem saint
