Down To The Bone Quantum Gravity 5:

Down to the Bone Justina Robson, 2011-08-01 Lila Black is now a shapeshifting machine plugged into the Signal the total dataset of all events in the known universe and all potential events Zal the elf rock star with a demon soul is now a shadowform animated and given material actualization by firelight Teazle the demon has taken up the swords of Death and is on the way to becoming an angel To say this puts some pressure on their three way marriage is an understatement Meanwhile the human world is seeing an inexplicable influx of the returning dead and they re not the only ones Many old evils are returning to haunt the living following three harbingers of destruction created in the ancient past What seems epic is revealed as personal to all concerned as events unfold and that which cannot be escaped must be faced Heroic destinies unravel as greater powers reveal themselves the true masters of the game and survival may be the only winning hand From the Trade Paperback edition *The Infinite Holographic Quantum Physical Universe!* J.E. Andersen, 2023-06-05 My name is J E Andersen and it is not my name you should hang yourself in but my new 5 dimensional universal holographic quantum physics model This story starts up in 1976 when I had an incredible out of body experience opened my eyes to the paranormal side lying universe and began exploring this experience This led me to the right universal physics model the physics model that I describe in my books It was soon discovered that the 3 dimensional physics model would not be able to hold all the way In 1986 I started a brand new hologram model which later turned out to reveal just the right active universe which is 5 dimensional in the active universal engine room We can only see experience and detect the actual substance coming out of the very innermost field of this field system the Higg s fields The Higg s fields are located inside the atoms but atoms can also be empty i e without the Higg s fields and then we are inside the famous stealth technology the invisibility technology Remember that it is atoms that are the building blocks of the universe It is precisely this stealth technology that comes out of this 5 dimensional very active holographic quantum physics which is the next big breakthrough in all types of research today The fact that the universe is no longer just physical leaves behind a universe that is totally 100% holographic and which is powered 100% by an active 5 dimensional quantum physics There are no physical particles in this universe only this holographic matter that can actually disappear and come back again and now we have revealed stealth technology Stealth technology is about the relationship between the atoms and the inner Higg s fields The atoms can actually operate completely empty and now this object can no longer be seen due to the lack of Higg s substance This is more than interesting this also very exciting and completely new to you because this is the truth about the creation of the universe expansion the unifying mass inside all gravitational fields which turn into pressure cookers and develop moons into planets planets into gas planets gas planets into stars and the stars burn up the physical liquid plasma transforming this plasma into the totally invisible starlight and thus becomes a black hole It is the gravitational fields that create shape and develop absolutely everything that is visible in this universe Read my books about technology and physics *Das Science Fiction Jahr 2011*
