Critical Perspectives on Leadership Mark Learmonth, Kevin Morrell, 2019-05-01 Within contemporary culture leadership is seen in ways that appeal to celebrated societal values and norms As a result it is becoming difficult to use the language of leadership without at the same time assuming its essentially positive intrinsically affirmative nature Within organizations routinely referring to bosses as leaders has therefore become both a symptom and a cause of a deep largely unexamined new conceptual architecture This architecture underpins how we think about authority and power at work Capitalism and its turbo charged offspring neo liberalism have effectively captured leader and leadership to serve their own purposes In other words organizational leadership today is so often a particular kind of insidious conservatism dressed up in radical adjectives This book makes visible the work that the language of leadership does in perpetuating fictions that are useful for bosses of work organizations We do this so that we and anyone who shares similar discomforts can make a start in unravelling the fiction We contend that even if our views are contrary to the vast and powerful leadership industry our basic arguments rest on things that are plain and evident for all to see *Critical Perspectives on Leadership The Language of Corporate Power* will be key reading for students academics and practitioners in the disciplines of Leadership Organizational Studies Critical Management Studies Sociology and the related disciplines

The Palgrave Handbook of Diplomatic Thought and Practice in the Digital Age Francis Onditi, Katharina McLarren, Gilad

Ben-Nun, Yannis A. Stivachtis, Pontian Okoth, 2023-08-01 This handbook integrates a range of conceptual and empirical approaches to diplomacy in the context of ongoing technological and societal change. Technological and societal disruptions affect modern diplomacy, altering its character and reforming its way. In light of such changes, this book offers both historical foundations and contemporary perspectives in the field. By doing so, it demonstrates how contemporary change impacts the work of diplomats representing sovereign states. Global diplomatic services will forever be affected by the digitalization of engagement between states during and after the COVID 19 pandemic. In this rapidly changing culture with burgeoning geopolitical and geostrategic realignment among global powers, the tools of diplomacy have changed. The state's foreign policy astuteness and responses to these changes could have long-term impacts. All this culminates in opportunities for improving the management of diplomatic services and efficiency of the Ministries of Foreign Affairs (MoFA) of various states. This book provides useful insights into how modern diplomacy works, especially the integration of informalities into formal diplomatic practices in complex peace and security environments within such a framework of change.

Internationalisation and Marketisation of Higher Education in the UK Zahra Kemiche, 2024-09-23 This timely volume sets out the author's novel concept of the Organic model of internationalisation, developed using participants' perceptions, lived experiences, and recommendations for a better sustainable future of HE and explores its broader application in the context of higher education. Using the qualitative IPA (Interpretative Phenomenological Analysis) approach, chapters showcase the lived experiences and subjective perspectives of individuals around the paradox that internationalisation presents: the distorting effects of institutional power and the market and ethics-based concerns of internationalisation in higher education. Drawing on an in-depth empirical study conducted using participant observation and interviews with participants from three UK universities, the book proposes a framework for redefining the global discourse of HE through the Organic model and urges the need for a compromise between profit and ethics to the benefit of both organisations and individuals. The book thoroughly discusses racist practices and introduces the concepts of xenophobia and angelism, ensuring that the proposed approach is authentic and responsive to the diverse experiences of the student body. Showcasing a model with international potential and ramifications, this book will appeal to researchers, academics, and postgraduate students in higher education, internationalisation, and international study mobility. Practitioners and policymakers may also benefit from the volume.

Health Equity in a Globalizing Era Ronald Labonté, Arne Ruckert, 2019-03-13 Why do some countries and populations suffer from poverty and ill health whilst others are more prosperous and healthy? What are the inherently global trans-border issues that affect inequities in disease burden and health opportunities for individuals and nations? Traditionally, the focus of global health has been international health, the concern for high burdens of disease in generally low-income countries. To answer these questions, however, we need to modernise our understanding of globalization as a phenomenon. *Health Equity in a Globalizing Era: Past Challenges, Future Prospects*

examines how globalization processes since the on set of neoliberalism affect equity in global health outcomes and emphasises access to important social determinants of health With a basis in political economy the book covers key globalization concepts and theory and presents a thorough background to the field Case studies illustrations and new research all combine to make this title a comprehensive and current discussion of the various pathways that connect globalization to health equity outcomes It looks at changes in migration labour markets trade and investment rules international development assistance health systems infectious and non communicable disease risks environmental health and gendered aspects of globalization s health dialectic In addition it argues for a reform of the global governance structure the significant role of human rights and the importance of a strong civil society in achieving greater social justice in health Ideal for senior undergraduate and graduate students in global health programs global health scholars and practitioners in government policy and health development NGOs Health Equity in a Globalizing Era Past Challenges Future Prospects is a significant contribution to our new understanding of globalization and global public health China's Cultural Diplomacy Xin Liu,2019-10-02 This book examines China s contemporary global cultural footprints through its recent development of cultural diplomacy The volume presents an alternative analytical framework to examine China s cultural diplomacy which goes beyond the Western defined concept of soft power that prevails in the current literature This new approach constructs a three dimensional framework on Orientalism cultural hegemony and nationalism to decipher the multiple contexts which China inhabits historically internationally and domestically The book presents multiple case studies of the Confucius Institute and compares the global programme located around the world with its Western counterparts and also with other Chinese government sponsored endeavours and non government initiated programmes The author aims to solve the puzzle of why China s efforts in cultural diplomacy are perceived differently around the world and helps to outline the distinctive features of China s cultural diplomacy This book will be of much interest to students of diplomacy Chinese politics foreign policy and International Relations in general **Online Teaching and Learning in Higher Education during COVID-19** Roy Chan,Krishna Bista,Ryan Allen,2021-08-12 This timely volume documents the immediate global impacts of the coronavirus pandemic COVID 19 on teaching and learning in higher education Focusing on student and faculty experiences of online and distance education the text provides reflections on novel initiatives unexpected challenges and lessons learned Responding to the urgent need to better understand online teaching and learning during the COVID 19 pandemic this book investigates how the use of information and communication technologies ICT impacted students faculty and staff experiences during the COVID 19 lockdown Chapters initially look at the challenges faced by universities and educators in their attempts to overcome the practical difficulties involved in developing effective online programming and pedagogy The text then builds on these insights to highlight student experiences and consider issues of social connection and inequality Finally the volume looks forward to asking what lessons COVID 19 can offer for the future development of online and distance learning in higher

education This engaging volume will benefit researchers academics and educators with an interest in online teaching and eLearning curriculum design and more specifically those involved with the digitalization of higher education The text will also support further discussion and reflection around pedagogical transformation international teaching and learning and educational policy more broadly
